- b. As a specific limitation to the amount of refunds paid from funds appropriated in this Act during the 1998-99 biennium, the Comptroller shall not approve claims or issue warrants for refunds in excess of the amount of revenue estimated to be available from the tax, fee, or other revenue source during the biennium according to the Biennial Revenue Estimate of the Comptroller of Public Accounts used for certification of this Act. This appropriation is further contingent upon the Comptroller's certification that increased collections of not less than \$43.1 million for the biennium would result from the program.

The Commission shall provide technical aids and assistance to ensure that clients are provided or are referred to appropriate services. "Other direct and indirect costs" for the licensing and regulation of chemical dependency counselors and chemical dependency treatment facilities are estimated to be \$87,873 for fiscal year 1998 and \$87,601 for fiscal year 1999. 4. **Management of Funds in the CIDC Program.** Amounts appropriated above to the Department of Health in Strategy D.1.4., Special Needs Children/Chronically Ill and Disabled Children's (CIDC) Program may only be transferred to Strategy D.1.1., Maternal and Child Health Services, or Strategy B.1.4., Premiums: Children/Medically Needy. Transfers into Strategy B.1.4. may only be made if general revenue is made available by CIDC-eligible children becoming eligible for Medicaid. Any transfers pursuant to this provision are subject to prior notification to the Legislative Budget Board and the Governor's Office of Budget and Planning that such a transfer is to take place. Funds may not be transferred from D.1.4., Special Needs Children/Chronically Ill and Disabled Children's Program, if such a transfer would result in a loss of or reduction in services or a loss of or reduction of persons otherwise eligible for CIDC services. Notwithstanding any other provisions contained in this Act, no transfers shall be made out of Strategy D.1.1., Maternal and Child Health Services. Further, the department shall make expenditures from Strategy D.1.4., Special Needs Children/Chronically Ill and Disabled Children's Program, from state funds in proportion to the source of funds budgeted for the strategy.  - d) Appropriations made out of the General Revenue Fund to the Texas Department of Health in Goal G, Indirect Administration, may be transferred for bond debt service payments only if laboratory fees and earned federal funds generated by the laboratory are insufficient to support the bond debt service, subject to prior approval of the Governor's Office of Budget and Planning and the Legislative Budget Board. No funds appropriated to the Department of Health by this Act may be transferred into Goal G, Indirect Administration.

6. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made for the programs listed in the table below, as well as the "other direct and indirect costs" associated with these programs, appropriated elsewhere in this Act. "Other direct and indirect costs" for these programs are estimated to be \$5,713,928 for fiscal year 1998 and \$5,712,719 for fiscal year 1999. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available. The procedure that is initially developed may not be altered throughout the same grant cycle. In the event of a tie in the scoring and evaluating of grant applications, the grant will be awarded to the public health entity.

2. **Medical Assistance Payments.** General revenue funds appropriated hereinabove for all Medicaid services shall be payable in equal monthly installments on the first day of each calendar month; provided, however, that any balances on hand in such funds may be carried over from month to month during each fiscal year and from fiscal year 1998 to fiscal year 1999, and such funds are reappropriated to the department for the 1998-99 biennium.
3. **Federal Funds Appropriated.** The appropriations herein made may be used to match federal funds granted to the state for the payment of personal services, travel and other necessary expenses in connection with the administration and operation of a state program of public welfare services. The Texas Department of Human Services is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal moneys that are made available (including grants, allotments, and reimbursements) to the state

and retain their character as federal funds for such purposes and all fees authorized by federal law, and to receive, administer, and disburse federal funds for federal programs in accordance with plans agreed upon by the Department of Human Services and the responsible federal agency, and such other activities as come under the authority of the Department of Human Services, and such moneys are appropriated to the specific purpose or purposes for which they are granted or otherwise made available. Earned federal funds are not considered to be federal funds for the purpose of this section.

4. **Federal, State and Local Funds Appropriated.** The Department of Human Services is hereby authorized to accept all moneys appropriated by the federal or state governments, or by the Commissioners' Court of any county, or by any political subdivisions, as provided by Section 11.003 of the Human Resources Code, as amended, for any purpose including but not limited to the cost of distributing foods to needy people, institutions, school lunch programs, or otherwise as provided by the laws of the United States and the rules and regulations issued pursuant thereto for the distribution of commodities as they now read or as they may be hereafter amended, and to deposit said moneys in the State Treasury. All of said funds are hereby appropriated to the Texas Department of Human Services for the purposes for which they were granted.
5. **Reappropriation of Federal and Local Funds.** All funds received by the department from counties, cities, federal agencies and from any other local source and all balances from such sources as of August 31, 1997, are hereby appropriated for the biennium ending August 31, 1999, for the purpose of carrying out the provisions of this Act.
6. **Food Stamp Program Funds Appropriated.** The Texas Department of Human Services is hereby designated as the state agency to establish and operate a statewide Food Stamp Program and to accept all moneys appropriated for this purpose by the federal or state governments, by the Commissioners' Court of any county, by any political subdivisions of the state, or received from any other source as provided for herein and in Chapter 33, Human Resources Code. The Texas Department of Human Services is authorized to expend such funds for welfare purposes, including the cost of distributing foods to needy people, institutions, school lunch programs, or otherwise as provided by the laws of the United States and the rules and regulations issued pursuant thereto, for the establishment and operation of a statewide Food Stamp Program, and for the employment of essential personnel who shall be employed under a merit system basis comparable to the merit rules and regulations applicable to all other personnel of the department.
7. **Nursing Home Program Provisions.**
 - a. **Nursing Home Income Eligibility Cap.** It is the intent of the Legislature that the income eligibility cap for nursing home care shall be maintained at the federal maximum level of 300 percent of Supplemental Security Income (SSI). Further, it is the intent of the Legislature that any cost-of-living increase in social security or other benefits sponsored by the federal government or that any increase in other pension plans should not result in the termination of Title XIX benefits for persons already eligible for services. The Department of Human Services is hereby authorized to expend general revenue funds to the extent necessary to insure the continuation of benefits to persons eligible.
 - b. **Limitation on Per Day Cost of Alternate Care.** No funds shall be expended by the Department of Human Services for alternate care where the cost per patient per day exceeds the average Medicaid Nursing Facility rate or the patient's nursing facility rate, whichever is greater, except for cases individually exempted by the Board of Human Services.
 - c. **Establishment of a Swing-bed Program.** Out of the funds appropriated above for nursing home vendor payments, the department shall maintain a "swing-bed" program, in

DEPARTMENT OF HUMAN SERVICES

accordance with federal regulations, to provide reimbursement for skilled nursing patients who are served in hospital settings in counties with a population of 100,000 or less. If the swing beds are used for more than one 30-day length of stay per year per patient, the hospital must comply with the regulations and standards required for nursing home facilities.

- d. **Nursing Home Bed Capacity Planning.** It is the intent of the Legislature that the department shall establish by rule procedures for controlling the number of Medicaid beds and for the decertification of unused Medicaid beds and for reallocating some or all of the decertified Medicaid beds. The procedures shall take into account a facility's occupancy rate.
 - e. **Nursing Facility Competition.** It is the intent of the Legislature that the department encourage competition among contracted nursing facilities.
8. **Appropriation of Receipts: Civil Monetary Damages and Penalties.** Out of funds collected by the department as civil monetary damages and penalties under Human Resources Code Section 32.039, there are appropriated to the department amounts equal to the costs of the investigation and collection proceedings conducted under that section, and any amounts collected as reimbursement for claims paid by the department.
9. **Salaries of Probationary Employees.** It is provided that funds herein appropriated may be expended at rates established by the Department of Human Services for the salaries of employees who are newly hired, transferred or promoted into bona fide administrative or professional jobs and who are participating in a formalized training program in conjunction with their period of probationary service. At the successful conclusion of the probationary period these employees will be moved into regular classified positions.
10. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the Personal Care Facility Licensing program in strategy item A.2.1., Survey and Certification, as well as the "other direct and indirect costs" associated with this program, appropriated elsewhere in this Act. "Other direct and indirect costs" for the Personal Care Facility Licensing program are estimated to be \$16,460 for fiscal year 1998 and \$16,305 for fiscal year 1999. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
11. **Accounting of Support Costs.** The State Comptroller shall establish separate accounts from which certain support costs shall be paid. The Department of Human Services is hereby authorized to make transfers into these separate accounts from line item strategies in order to pay for these expenses in an efficient and effective manner. Only costs not directly attributable to a single program may be budgeted in or paid from these accounts. Items to be budgeted in and paid from these accounts include, but are not limited to: postage, occupancy costs, equipment repair, telephones, office printing costs, supplies, freight and transport costs, telephone system costs, and salary and travel costs of staff whose function supports several programs. The department shall be responsible for monthly allocations of these costs to the original strategies.
12. **Fund Transfers for Funds Consolidation.** For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from the Department of Human Services Fund 117. The initial deposit of federal funds shall be made into Fund 117 and no direct expenditures shall be made from this fund.

14. **Limitation: Transfer Authority.** Notwithstanding any other provision of this Act, none of the funds appropriated by this Act to the Texas Department of Human Services for

- ii. A.1.3. Long Term Care Eligibility;
- iii. A.1.4. Nursing Facility Payments;
- iv. A.2.1. Survey and Certification; and
- v. B.2.2. Client Self Support

may be transferred to any other item of appropriation or expended for any purpose other than the specific purpose for which the funds are appropriated, however, transfers may be made between Medicaid Strategies in accordance with other provisions in this Act.

15. **Additional Funding Sources, Medicaid.** If the appropriations provided by this Act for

- i. A.1.1. Community Care Services;
- ii. A.1.3. Long Term Care Eligibility;
- iii. A.1.4. Nursing Facility Payments;
- iv. A.2.1. Survey and Certification; and
- v. B.2.2. Client Self Support

are not sufficient to provide for expenditures mandated by either state or federal law, after accounting for any appropriations made to the Department and available for transfer to these programs, the Legislative Budget Board and the Office of the Governor may provide for and are hereby authorized to direct the transfer of sufficient amounts of funds to the Department from appropriations made elsewhere in this Act.

16. **Medicaid and Other Reporting Requirements.**

- a. None of the funds appropriated by this Act to the Texas Department of Human Services may be expended or distributed by the Department unless:

- (1) the Department submits to the Legislative Budget Board and the Office of the Governor a copy of each report submitted to the federal government relating to the Medicaid program. This shall include, but is not limited to:

- i. expenditure data; and
- ii. caseload data;

Such reports shall be submitted to the Legislative Budget Board and the Office of the Governor no later than the date the respective report is submitted to the federal government, and

- (2) the Department submits to the Legislative Budget Board and the Office of the Governor at the close of each month i.) a report detailing the Medicaid and Medicare caseload figures and related expenditure amounts for the preceding month and ii.) a report projecting the anticipated Medicaid and Medicare caseloads for the 36 months period beginning with first month after the report is due.

- b. Each report submitted to the Legislative Budget Board and the Office of the Governor pursuant to this provision must be accompanied by supporting documentation detailing the sources and methodologies utilized to develop any caseload or cost projections contained in each respective report and any other supporting material as specified by the Legislative Budget Board and the Office of the Governor.

- c. Each report submitted pursuant to this provision must contain a certification by the person submitting the report that the information provided is true and correct based upon information and belief together with supporting documentation.
 - d. The Comptroller of Public Accounts shall not allow the expenditure of funds appropriated by this Act to the Texas Department of Human Services if the Legislative Budget Board and the Office of the Governor certifies to the Comptroller of Public Accounts that the Department of Human Services is not in compliance with this provision.
17. **Reduction in Error Rates.** The Texas Department for Human Services shall set progressive goals for improving error rates for eligibility determination of Food Stamps and Temporary Assistance to Needy Families benefits, with a specific schedule for meeting those goals. The department shall submit a quarterly status report beginning September 1, 1997 to the Governor's Office and the Legislative Budget Board. The status report will identify the progress made towards achieving those goals.
18. **Earned Federal Funds.** The authority to receive and expend earned federal fund balances in excess of those appropriated above is subject to the following limitations:
- a. At least 14 days prior to any expenditure of any earned federal funds, the department shall report the earned federal funds received and provide documentation of the proposed use of these funds to the Legislative Budget Board, Governor's Office of Budget and Planning, and Health and Human Services Commission. At least 14 days prior to any meeting of the Board of Human Services to budget any use of earned federal funds above levels indicated in the appropriation above or to consider any program expansion, the department shall report the earned federal funds received and provide documentation of the proposed use of these funds to the Legislative Budget Board, Governor's Office of Budget and Planning, and Health and Human Services Commission.
 - b. Notifications shall include information regarding the need which will be served with the additional revenue. In the event program expansions are under consideration, information shall be forwarded regarding the population to be served; criteria for eligibility; and impact upon existing programs.
 - c. The report shall include the information detailed in "b" and identify the impact on established performance targets, measures, and full-time equivalent positions.
19. **Leases.** No funds under this Act may be expended on or after November 1, 1997, for leased office space, previously occupied by the Department of Human Services and not actually occupied by that agency as of November 1, 1997.
20. **Appropriation of FY 1997 Unexpended Balances.** Any unexpended and unobligated balances remaining as of August 31, 1997, in the appropriations made to the Texas Department of Human Services for fiscal year 1997 by House Bill 1, Seventy-fourth Legislature, Regular Session, are hereby reappropriated, in an amount not to exceed \$50,000,000, to the Texas Department of Human Services for the biennium beginning September 1, 1997. The appropriation made by this provision is included in the method of financing above and identified as "General Revenue U.B. from FY 1997."
21. **Child Support Supplemental Payments.** Out of the funds appropriated above in Item B.1.1., TANF Grants, and child support collections from the Child Support Trust Fund, the Department shall make supplemental payments to families receiving welfare who would be eligible to receive child support "pass through" and "first excess" payments under the Social Security Act Title IV-D child support distribution requirements prior to passage of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996. These payments shall equal the amount of the "pass through" and "first excess" payment the family would have received

DEPARTMENT OF HUMAN SERVICES

under prior law, using child support collections for 37.44 percent of the total payment. If child support "pass through" or "first excess" payment distribution requirements are modified by federal law after enactment of this provision, the Department, in cooperation with the Office of the Attorney General, shall adjust the supplemental payments as necessary to be consistent with federal law and to not exceed the total the family would have received prior to welfare reform. The Department shall report any change to child support supplemental payments to the Governor and Legislative Budget Board.

22. **EBT Point-of-Sale Pilot Project.** The Texas Department of Human Services, in coordination with the Comptroller, is directed to perform a feasibility study and pilot project in conjunction with its Electronic Benefits Transfer (EBT) and finger-imaging projects. The department shall perform a feasibility study to determine the most effective method of utilizing finger-imaging technology at the point of sale (POS) when collecting EBT benefits. The study shall include, but not be limited to, specifying the basic functionality requirements, establishing system design configurations and concepts, and determining the appropriate pilot sites.

The pilot shall be implemented with no cost to participating retailers. The department, in coordination with the Comptroller, shall use the Electronic Benefit Transfer Merchant Advisory Committee to obtain retailer input on the pilot. Pursuant to state law, the department shall implement the project out of appropriations of general revenue and federal funds made elsewhere in this Act and private funds. Implementing the pilot shall be contingent upon the availability of federal funds.

The department shall use the pilot project to demonstrate the practicality of using finger-images to replace the traditional Personal Identification Number (PIN). The pilot should incorporate the digital representation of a finger-image on a Lone Star EBT card. The cardholder's finger-image should be matched to the finger-image on the card automatically to eliminate the use of a PIN and the possibility of individuals using cards that are not theirs.

The department shall evaluate the feasibility of statewide implementation of finger-imaging at POS. The department shall provide an interim report on the pilot to the Comptroller by September 1, 1998. The department, in cooperation with the Comptroller, shall report to the Governor, Lieutenant Governor, and Speaker by February 1, 1999 on the feasibility of and process to transition to using EBT point of sale equipment with other private and public applications for implementing this project statewide.

23. **Temporary Emergency Assistance for Families At-Risk of Welfare Dependency.** Out of funds appropriated above in Strategy B.1.1., TANF Grants, the department shall implement and make necessary automation changes, including related system development costs, to provide a one-time emergency assistance payment to applicants for Temporary Assistance to Needy Families (TANF) who are likely to be employed within a short period of time, without referral to the Job Opportunities and Basic Skills (JOBS) program. The department shall follow the provisions of House Bill 1863, Seventy-fourth Legislature, Regular Session, in designing the program. It is the intent of the Legislature that the program be phased in beginning with areas of the state where the targeted applicants are most represented.
24. **Assistance Registration and Eligibility Determination.** To the extent possible it is the intent of the Legislature that if the Texas Workforce Commission and/or the Department of Human Services require applicants for Temporary Assistance for Needy Families (TANF) assistance to register with the commission before the Department of Human Services can determine their eligibility for benefits, then the registration/orientation for TANF applicants shall be provided at the Department of Human Services offices where the eligibility determination of TANF recipients occurs.
25. **Increase Recoveries of Medicaid Nursing Home Overpayments.** It is the intent of the Legislature that the Department of Human Services should conduct Texas Index for Level of

DEPARTMENT OF HUMAN SERVICES
(Continued)

Effort (TILE) reviews for the purpose of recovering Medicaid nursing home overpayments. The General Revenue Fund appropriations to the Department of Human Services are hereby reduced by \$1,700,000 for fiscal year 1998 and \$3,400,000 for fiscal year 1999 to account for the increase in recoveries of overpayments which will occur with implementation of this provision.

26. **Implement Quality Monitoring System Pilot Project.** It is the intent of the Legislature that the Department of Human Services use up to \$100,000 of recovered nursing home overpayments appropriated above to implement the Quality Monitoring System on a pilot basis for Texas nursing homes. It is further the intent of the Legislature that expenditures of recovered overpayments be matched on a dollar for dollar basis by nursing home providers to implement the Quality Monitoring System pilot project. If matching funds from nursing home providers are not received, the Department of Human Services shall expend no funds on the pilot project.
27. **Unexpended Balances, Federal Welfare System Changes.** Contingent upon enactment of an emergency appropriation bill by the Seventy-fifth Legislature for the purpose of automated system changes related to federal welfare reform, any unexpended balances from such emergency appropriation are hereby reappropriated to the Department of Human Services for the same purpose. In the event that such monies are carried forward, the agency shall report those amounts and the status of the system changes to the Governor and Legislative Budget Board by September 15, 1997.
28. **Contingency Appropriation from the Compensation to Victims of Crime Fund for Family Violence Services.** Contingent upon passage of Senate Bill 987, House Bill 2628, or similar legislation, the Department of Human Services is hereby appropriated \$1,800,000 for fiscal year 1998 and \$1,800,000 for fiscal year 1999, in addition to amounts appropriated elsewhere in this Act, out of the Compensation to Victims of Crime Fund, for the purposes of funding Strategy C.1.1., Family Violence Services.

The Texas Department of Mental Health and Mental Retardation is hereby authorized to receive and disburse in accordance with plans acceptable to the responsible federal agency, all federal monies that are made available (including grants, earnings, allotments, refunds, and reimbursements) to the state for such purposes and all fees authorized by federal law, and to receive, administer, and disburse federal funds for federal programs in accordance with plans agreed upon by the Department of Mental Health and Mental Retardation and the responsible federal agency, and such other activities as come under the authority of the Department of Mental Health and Mental Retardation, and such monies are appropriated to the specific purpose or purposes for which they are granted or otherwise made available.
- Reappropriation of Federal and Local Funds.** All funds received by the department from counties, cities, federal agencies and from any other local source and all balances from such sources as of August 31, 1997, are hereby appropriated for the biennium ending August 31, 1999, for the purpose of carrying out the provisions of this Act.
- Medical Assistance Payments and Unexpended Balances.** General revenue funds appropriated hereinabove for all Medicaid services shall be payable in equal monthly installments on the first day of each calendar month; provided, however, that any balances on hand in such funds may be carried over from month to month during each fiscal year and from fiscal year 1998 to fiscal year 1999, and such funds are reappropriated to the department for the 1998-99 biennium.
- Transfers of Appropriation - State Owned Hospitals.** The Department of Mental Health and Mental Retardation shall transfer from non-Medicaid state appropriated funds the following amounts to the Department of Health for the Disproportionate Share Hospital Reimbursement Program:

	<u>\$ 389,499,609</u>	<u>\$ 341,100,588</u>

The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with the Department of Health. The Legislative Budget Board is authorized to adjust the amounts of such transfers as necessary to match available federal funds. The department shall also transfer non-Medicaid state appropriated funds as necessary for other qualifying state-funded community hospitals.

- Community Hospital Medicaid Services.** The Harris County Psychiatric Center, the El Paso Psychiatric Center and the Lubbock Psychiatric Center shall certify appropriated state funds to the Health and Human Services Commission or its designee for the state share of Medicaid reimbursement for the following services:

- a. Inpatient psychiatric services for children.
 - b. Inpatient psychiatric services for age 65 and over (Institute for Mental Disease option).
7. **Medicaid Funding for Special Needs Offenders Served by Community Mental Health and Mental Retardation Authorities.** Within appropriations made above, the Department of Mental Health and Mental Retardation should maximize Medicaid funding for offenders with mental illness and/or mental retardation who receive services from community Mental Health and Mental Retardation Authorities. The department shall accomplish this goal by:
- a. ensuring that when services are delivered to a Medicaid-eligible special needs offender by means of a state or local interagency contract between an MHMR center and a criminal justice agency, the criminal justice agency's share of the service cost constitutes no more than the state share of the cost of the Medicaid services.
 - b. executing, by December 1, 1997, an interagency agreement with the Department of Criminal Justice (in coordination with the Council on Offenders with Mental Impairments) that standardizes interagency policy on contracts between criminal justice agencies and MHMR authorities. The interagency agreement should specify that both agencies will use Medicaid funding for special needs services whenever possible and that the criminal justice agency's share of the service cost will constitute no more than the state share of the cost of the Medicaid services. Copies of the interagency agreement shall be filed with the Governor's Office of Budget and Planning and the Legislative Budget Board.
8. **Home and Community-Based Services (HCS) Waiver Program.** It is the intent of the Legislature that the provisions of 1915(c) of the Social Security Act or other Medicaid waiver program shall be utilized in order to maximize funds available for home and community-based services. The Department of Mental Health and Mental Retardation shall certify and/or transfer appropriated state funds to the Medicaid single state agency or its designee so that it can claim federal financial participation.
- The department shall ensure the cost-effectiveness of the HCS program by limiting the average annual HCS expenditure per client to an amount not to exceed 80 percent of the average annual per client ICF-MR expenditure. Expenditures for individual clients may exceed this cap as long as the overall average expenditure for HCS clients remains below. The department shall provide data on HCS and ICF-MR expense to the Legislative Budget Board as requested. When documenting this cost comparison, the department may exclude the costs for any supported employment services covered under the HCS program.
9. **Residential Services Funded by General Revenue.** The Department of Mental Health and Mental Retardation shall refinance, with Medicaid funding, residential services to Medicaid-eligible clients that are currently funded with general revenue. This refinancing effort shall include both public and private general revenue-funded programs. The department shall accomplish this refinancing through the use of the Home and Community-based Services (HCS) waiver program, other Medicaid waiver programs, or, if necessary, the Intermediate Care Facility for the Mentally Retarded program. The department shall submit an annual report to the Legislative Budget Board that documents the number of persons and residential sites converted to Medicaid funding.

Any balances remaining in such funds at the end of a fiscal year are reappropriated for any expenses necessary to the operation of these services for the second year of the biennium. To reimburse the funds from which expenditures are made, the department may make fund transfers from the appropriations of the facilities and agencies which receive the services and supplies, or may submit purchase vouchers through the Office of the State Comptroller.
- b. **Canteen Services.** Each of the facilities under control and management of the Department of Mental Health and Mental Retardation, except the Central Office, may establish, maintain and operate a canteen for the convenience of its patients. Any balances remaining in each canteen operation fund at the end of each fiscal year, plus all receipts deposited to its credit, are appropriated for all costs necessary for the operation of a canteen for the next fiscal year. Each of the facilities under control and management of the department that contracts with the Commission for the Blind for the operation of its canteen shall deposit the amount of monies originally appropriated for its Canteen Operation Fund into the General Revenue Fund. The balance remaining in the facility's Canteen Operation Fund, after the amount originally appropriated is deposited to the General Revenue Fund, shall be deposited to the Benefit Fund created at the facility under the provisions of Health and Safety Code V.T.C.A., § 551.004.

- d. **United States Surplus Property and Commodities Services.** It is the intent of the Legislature that the funds hereby appropriated for a central supply service are to be used to finance on a reimbursable basis, the obtaining, storing, handling and distribution of the United States surplus property and commodities to various facilities under the jurisdiction of the Department of Mental Health and Mental Retardation.
- e. **Supply Revolving Fund.** From funds herein appropriated, the Department of Mental Health and Mental Retardation may authorize each facility under its control and management to establish, maintain, and operate on a reimbursable basis, a Supply Revolving Fund to contribute to the efficiency and economy of such facilities.

The department shall approve the amount necessary to implement the revolving funds and shall establish rules to avoid depletion of the funds. To reimburse the revolving funds, facilities may transfer funds from the programs and activities for which supplies are provided.

- f. **Sheltered Workshops.** Any balances remaining in the sheltered workshop funds at the end of each fiscal year, together with receipts deposited to their credit are appropriated for use in the operation of sheltered workshops for the next fiscal year.
13. **Petty Cash Fund.** Each facility under the Department of Mental Health and Mental Retardation may establish a petty cash fund not to exceed \$5,000 out of funds appropriated above. These funds shall be maintained in cash or at a local bank and shall be used by case managers or community services staff only for the purpose of making emergency purchases of medication, basic life support necessities, or other services without which would place clients served by said staff at risk of being placed in a more restrictive environment.
 14. **Barber and Cosmetology Services.** The Department of Mental Health and Mental Retardation may charge fees for barber and cosmetology services provided the fees charged are consistent with an individual's ability to pay. These fees are appropriated to the department to

offset the cost of providing barber and cosmetology services. The department may also use patient benefit funds to offset the cost of these services for indigent clients.

15. **Children's Heart Institute.** It is the intent of the Legislature that the Texas Department of Mental Health and Mental Retardation (TXMHMR) continue to fund the Children's Heart Institute in an amount not to exceed \$150,000 for each year of the biennium for services to children with mental disabilities who also have congenital heart defects. A contract shall be developed between TXMHMR and the Children's Heart Institute to ensure that appropriate medical services will be provided and that relevant documentation on performance will be submitted to TXMHMR.
16. **Cash Flow Contingency.** Contingent upon the receipt of federal funds allocated from the Medicaid Program, the department may temporarily utilize additional general revenue funds, pending receipt of federal reimbursement, in an amount not to exceed the anticipated reimbursement, in each year of the biennium. The general revenue amounts utilized above the general revenue method of finance must be repaid upon receipt of federal reimbursement and shall be utilized only for the purpose of temporary cash flow needs. These transfers and repayments shall be credited to the fiscal year being reimbursed and shall be in accordance with procedures established by the Comptroller. All transfers of the method of finance shall be reported by the department to the Legislative Budget Board.
17. **Reimbursement of Advisory Committee Members.** Pursuant to V.T.C.S., Article 6252-33, reimbursement of expenses for advisory committee members, out of the funds appropriated above, is limited to the following advisory committees:

19. **Disposition of Construction Appropriation.** Construction appropriations may be used to pay salaries and travel expenses of department engineers and architects and administrative expenses of construction projects (but shall not exceed \$350,000 in a fiscal year that are paid out of G.O. Bonds); architect's and engineer's fees; and the actual travel expenses incurred by them or their representatives in making trips of inspection at the discretion of the department during construction, renovation, or repair of buildings and systems or the installation of fixed equipment. Job titles and rates of pay for such salaried positions of department personnel paid from construction appropriations shall conform with the Position Classification Plan and Classification Salary Schedule.
20. **Unexpended Balances.** Except as otherwise provided, unexpended and unobligated balances, not to exceed \$10 million, remaining from appropriations for the first year of the biennium to the Department of Mental Health and Mental Retardation are reappropriated to the department

The remaining 50 percent shall be deposited to the General Revenue Fund.

29. **Workers' Compensation Payments.**
 - a. Notwithstanding other provisions in this Act, the Department of Mental Health and Mental Retardation shall have the first \$16.0 million per year in workers' compensation payments paid in full from appropriations made for Workers' Compensation Payments for the purpose of paying workers' compensation claims and liabilities. The Department of Mental Health and Mental Retardation shall transfer to the appropriation item in the Workers' Compensation Payments the amounts necessary to pay 100 percent of workers' compensation liabilities in excess of \$16.0 million each year.

30. **Dual Diagnosis Initiative.** It is the intent of the Legislature that the Department of Mental Health and Mental Retardation and the Commission on Alcohol and Drug Abuse shall enter into an inter-agency agreement for a Dual Diagnosis Initiative to provide services for clients with both a substance abuse and a mental health diagnosis.

The Department of Mental Health and Mental Retardation, upon completion of necessary actions to increase the revenue, shall furnish copies of the Board of Mental Health and Mental Retardation minutes and other information supporting the estimated revenues to be generated for the 1998-99 biennium to the Comptroller of Public Accounts. If the Comptroller finds the information sufficient to support the projection of increased revenues, a finding of fact to that effect shall be issued and the contingent appropriations shall be made available for the intended purposes.

32. **Enhanced Equity.** It is the intent of the Legislature that the Department of Mental Health and Mental Retardation continue its policy of enhancing equity in community services by taking into consideration population density (particularly sparsely populated areas), poverty, and need in its allocation methodology. Allocations to local mental health and mental retardation authorities shall not be reduced for the purpose of redistribution to other authorities to enhance equity.
33. **Audit of Dallas County Community MHRM Center.** The State Auditor's Office, in collaboration with the Department of Mental Health and Mental Retardation, shall conduct an audit of the Dallas County Community MHRM Center. This programmatic and financial audit must focus on the impact of the community center's reorganization on service delivery and needs assessment; the center's employment, contracting, and consulting practices; and the center's capital purchases, renovations, and requirements. A report of the findings of the audit shall be submitted to the Legislative Budget Board and the Governor's Office of Budget and Planning.
34. **Report on Local Authorities.** To ensure that the Legislature and Governor's office are kept informed of the process and effects of delegating to a local mental health authority or local mental retardation authority (local authority) the responsibility of planning, coordination, and oversight of mental health and/or mental retardation services in that area, the department shall submit a report in February and September of each year describing such implementation. The department shall report its methods that ensure accountability on the part of local authorities, in addition to reporting criteria to ensure the elimination of conflicts of interest. The report shall include feedback from stakeholders, the percent of services historically provided by a local authority now being provided through service contracts, the anticipated efficiencies resulting from contracting for services, and the quality of services provided. The report shall also address the degree to which planning, policy development, and resource allocation and development are being done by local authorities.
35. **Autistic Adult Program.** Out of the funds appropriated above, the Department of Mental Health and Mental Retardation shall establish an autistic adult program to meet the needs for continuing care for adults with autism.

37. **State School Funding.** It is the intent of the Legislature that the Department implement a single funding methodology for state schools which funds all state schools equitably and at a level which is adequate to maintain compliance with applicable federal standards. The methodology should be based on the number of residents in each school and the needs of those residents.
38. **Community Mental Health and Mental Retardation Centers.** If the Department determines that a community mental health and mental retardation center is unable or unwilling to fulfill its contractual obligations to provide services or to exercise adequate control over expenditures and assets, the Department may take necessary steps, including the appointment of a management team, to protect the funds appropriated under this Act and ensure the continued provision of services.

39. **New Generation Medications.** Out of funds appropriated above in Strategy A.1.3., Treatment, the Department of Mental Health and Mental Retardation shall expend in the 1998-99 biennium, to provide New Generation medications (anti-psychotic drugs), an amount not less than \$5,000,000 more than was expended for that purpose during the 1996-97 biennium.
40. **Residential Providers.** It is the intent of the Legislature that individuals seeking residential services for a person with mental retardation have a choice of available providers. To ensure choice, the agency shall inform individuals seeking residential services of all the service options available, including large and small congregate living arrangements and waiver services.
41. **Language Interpreter Services.** In order to compensate employees for assuming the duty of providing interpretation services to consumers whose primary language is not English, facilities of the Texas Department of Mental Health and Mental Retardation, upon written authorization of the Commissioner or his designee, may, from funds appropriated above, increase the salary of classified employees by an amount equal to a one step increase, or 3.4 percent, so long as the resulting salary rate does not exceed the rate designated as the maximum rate for the applicable salary group. This increase shall be granted only for the regular provision of interpreter services above and beyond the regular duties of the position, and shall be removed when these services are, for whatever reason, no longer provided by the employee or when that are not longer needed by the facility. Salary increases provided for this purpose are not merit increases and shall not affect an employee's eligibility to receive a merit increase.
42. **Performance Contracts.** Funds in Strategy A.1.4., Community Hospitals, shall be allocated through performance contracts with local mental health authorities.
43. **Intensive Community-Based Services Options.** Out of the funds appropriated above, the Texas Department of Mental Health and Mental Retardation is authorized to conduct a pilot study on the effectiveness of intensive community-based services options for children and families in decreasing the use of and/or length of stay in residential treatment. The pilot will examine the costs, efficacy and benefits to children and families, and will be evaluated in collaboration with the Health and Human Services Commission and the Department of Protective and Regulatory Services.

The Texas Department of Mental Health and Mental Retardation shall complete a report on the findings of the pilot study with recommendations for future development, estimated costs, and recommended statutory changes necessary to more effectively serve families with intensive needs. The report shall be submitted to the Governor and the Legislature by January 1, 1999.

To this end, the department shall seek to limit the number of children under the department's responsibility who are in substitute care for a period longer than 24 months. With respect to children in paid placements, for fiscal years 1998-99, the goal for such children is forty-five percent (45%) of the total number of children in the department's foster care program at any time during the year.

3. **Limitation on Expenditures for Conservatorship Suits.** To the extent allowed by federal regulation, federal funds may be used by the department in conjunction with funds provided by counties with which the department has child welfare contracts, to pay for legal representation for children or their parents in suits in which the department is seeking to be named conservator. No general revenue funds appropriated to the department may be used to make such payments.
4. **Reappropriation of Funds.** All funds received by the department from counties, cities, and/or federal agencies and from any other local source and all balances from such sources as of August 31, 1997, are hereby appropriated for the biennium ending August 31, 1999, for the purpose of carrying out the provisions of this Act. The department may transfer funds into Strategy A.1.5., Foster Care/Adoption Payments, for the purpose of maintaining foster care rates. The department may not transfer funds out of Strategy A.1.5., Foster Care/Adoption Payments, except to Strategy A.1.2., Child and Family Services.

DEPARTMENT OF PROTECTIVE AND REGULATORY SERVICES
(Continued)

The department may also use funds in Strategy A.1.5., Foster Care/Adoption Payments, to recommend alternate service provision beyond intake and investigation that will consider expansion of contract services, regional planning, service outcomes, and appropriate funding mechanisms to be tested in a pilot project. Such pilot approaches to innovative service delivery shall be designed in conjunction with providers, approved by the Health and Human Services Commission, and funded at no increased cost to the State. If the department implements a pilot utilizing an innovative payment structure designed in conjunction with providers, approved by the Health and Human Services Commission, and funded at no increased cost to the State, such a pilot may include a modification of rates.

The department shall notify the Legislative Budget Board and the Governor's Office of Budget and Planning prior to any transfer of funds authorized by this provision.

8. **Fund Transfers for Funds Consolidation.** For the purpose of funds consolidation, federal and other funds may be transferred into the General Revenue Fund from Department of Protective and Regulatory Services Fund 37. 12. **Contract Quality Assurance.** The department is hereby authorized to expend an amount not to exceed \$500,000 in each year of the biennium from funds appropriated above in A.1.3 Purchased Service System and A.1.5 Foster Care/Adoption Payments for the purpose of

11. **Disposition of State Funds Available Resulting from Federal Match Ratio Change.** In the event the Federal Medical Assistance Percentage should be greater than 62.28 percent for federal fiscal year 1999, the following departments shall be authorized to expend the state funds thereby made available only to the extent authorized in writing by the Legislative Budget Board and Governor's Office of Budget and Planning: Department of Health; Department of Human Services; Department of Mental Health and Mental Retardation; and Department of Protective and Regulatory Services. A copy of such authorization shall be provided to the Comptroller of Public Accounts to assist in monitoring compliance with this provision.
12. **Costs Related to Co-location of Services and to Inter-agency Sharing of Support Functions and Services.** To provide an efficient and effective method of paying common support costs related to co-location of human services as required pursuant to the provision of Chapter 531 of the Government Code, and/or costs of performing support functions for multiple agencies, funds may be transferred between agencies for payment of such costs and agencies are authorized to deposit those funds into separate accounts for the purpose of paying shared costs including, but not limited to, postage, occupancy costs, equipment repair, telephones and telephone system costs, office printing costs, supplies, freight and transport costs, electronic data processing systems, or other business functions. Each agency shall be responsible for monthly allocations of these costs to the original strategies.
13. **Contracts for Purchase of Client Services.** No funds appropriated to an agency covered by this article may be utilized for contracts for the purchase of program-related client services unless:
 - a. such contracts include clearly defined goals, outputs, and measurable outcomes which directly relate to program objectives;
 - b. such contracts include clearly defined sanctions or penalties for noncompliance with contract terms and conditions;
 - c. such contracts specify the accounting, reporting, and auditing requirements applicable to funds received under the contract;
 - d. the agency has implemented a formal program using a risk assessment methodology to monitor compliance with financial and performance requirements under the contract, including a determination of whether performance objectives have been achieved; and
 - e. the agency has implemented a formal program to obtain and evaluate program costs information to ensure that all costs, including administrative costs, are reasonable and necessary to achieve program objectives.
14. **Attorney General Representation.** The Attorney General and the respective agency head of an agency identified in this provision are hereby authorized to jointly select one or more Assistant Attorneys General to be assigned to the respective agency. The following agencies are subject

to this provision: Department of Health, Department of Human Services, Department of Mental Health and Mental Retardation, Health and Human Services Commission, and Department of Protective and Regulatory Services.

15. **Funding for the Interagency Council on Early Childhood Intervention.** Within the biennium, if it becomes necessary in order to continue to qualify for federal funds, the Executive Director of the Interagency Council on Early Childhood Intervention shall certify, by February 1 of each fiscal year of the biennium, to the Commissioner of Health and Human Services that revenues needed to continue to serve all eligible children will exceed available revenue. The Commissioner of Health and Human Services shall evaluate the projected need and make a determination as to whether a transfer of funds will be necessary within 30 days.

The total amount transferred pursuant to this provision shall not exceed \$6,000,000 for the biennium. All transfers made shall be subject to prior approval of the Governor's Office of Budget and Planning and the Legislative Budget Board.

16. **Medicaid Managed Care Contracts.** The Health and Human Services Commission, Department of Health, Department of Human Services and the Department of Mental Health and Mental Retardation shall include and award value added points in the scoring of applications submitted for Medicaid managed care contracts. At a minimum, the following considerations are to be considered as items for value added points:

- i. Continuity of care for the Medicaid client;
- ii. Graduate Medical Education as part of the delivery system; and
- iii. Amount of charity care provided by the party applying for a contract award.

17. **Medicaid Fraud Detection.** Contingent upon the enactment of Senate Bill 30, Seventy-fifth Legislature, Regular Session, or similar legislation to implement *Disturbing the Peace* recommendation FR 1 requiring the use of neural network and other intelligent technologies to detect Medicaid fraud, the Department of Health general revenue appropriation shall be reduced by \$1,500,000 in fiscal year 1998 and \$4,500,000 in fiscal year 1999. The Department of Human Services general revenue appropriation shall be reduced by \$500,000 in fiscal year 1998 and \$2,500,000 in fiscal year 1999. The Health and Human Services Commission is hereby appropriated from general revenue funds \$1,230,000 in fiscal year 1998 and \$1,575,000 in fiscal year 1999 to match federal funds to operationalize a computerized Medicaid fraud detection system and hire or contract for additional investigative and enforcement staff.

- a. The Health and Human Services Commission is hereby appropriated and shall have the authority to expend 15 percent of amounts recovered or recouped, from its fraud and abuse detection investigations, to enhance the Commission's fraud and abuse detection efforts funded in Strategy A.1.1., System Integration, not to exceed \$2 million for this biennium. This appropriation limitation shall prevail over any other provision in this Act regarding refunds, recoveries, subrogations, or similar revenues. In no event shall the Commission expend or transfer funding generated through this source to support any other function of the Commission.
- b. The Commission shall report to the Legislative Budget Board and the Comptroller of Public Accounts quarterly the referral source of each investigation opened by HHSC, the status of each open case including those referred to the Office of the Attorney General for further action and the amounts recovered including monetary and civil penalties collected.

18. **Office of Investigations and Enforcement.** Contingent upon the enactment of Senate Bill 30, Seventy-fifth Legislature, Regular Session, or similar legislation to implement *Disturbing the Peace* recommendation FR 1 creating an Office of Investigations and Enforcement within the Health and Human Services Commission, all general revenue and federal funds associated with

65 FTEs transferring from the Department of Human Services and 11 FTEs from the Department of Health, Policy and Analysis Group, for the purposes of improving Medicaid and Welfare investigation and enforcement activities shall transfer to the Health and Human Services Commission no later than September 1, 1997. Should a dispute arise regarding the transfers from the Department of Human Services or the Department of Health to the Health and Human Services Commission, the Comptroller of Public Accounts would make the final determination on the timing and amount of the transfers involved.

19. **Continued Medicaid Coverage for Individuals Affected by Welfare Reform.** The Health and Human Services Commission and its related Medicaid-operating agencies are authorized to expend Medicaid funds for Medicaid eligibility coverage for poor aged and disabled individuals under the provisions of Sections 1902(a)(10)(A)(ii)(X) and 1902(m) of the Social Security Act, as amended, or other provisions as authorized by federal law. In setting an income eligibility standard for this coverage group, the Health and Human Services Commission shall set a level that includes the maximum number of affected individuals but which, in the case of Medicaid expenditures at the Texas Department of Health, does not exceed general revenue appropriations of \$79,163,097 for the 1998-99 biennium. The income standard for this eligibility group may not exceed the level for Supplemental Security Income and may be set at a lower standard, as needed.

In the event that federal matching funds are not available for affected legal immigrants, the Health and Human Services Commission and the Texas Department of Health are authorized to provide limited health care services to this group, with expenditures not to exceed general revenue funds of \$79,163,097 at the Department of Health.

The Health and Human Services Commission shall submit semiannual reports to the Legislative Budget Board on utilization and expenditures for this group of legal immigrants and for children affected by changes in SSI criteria pursuant to federal welfare legislation.

20. **Reduce Medicaid Overpayments.** It is the intent of the Legislature that the Texas Performance Review recommendation FR 3 in *Disturbing the Peace: The Challenge of Change in Texas Government* be implemented by requiring the Texas Department of Health (TDH) to conduct an automated review of physician, laboratory, and radiology services to identify unbundled services. TDH shall review and match Medicaid claims against Veterans Administration and nursing home data to identify and prevent duplicate billings. Further, the TDH shall identify Medicaid claims for which a 90 percent enhanced federal match is available and then seek the enhanced match for those services to the extent allowed by federal law. The Health and Human Services Commission's State Medicaid Office shall include a State Medicaid Plan amendment in the state's Medicaid State Plan to limit Medicare Part A co-insurance and deductible payments to the amount the state would have paid had Medicaid paid for those services. Due to reduced expenditures for Medicaid services resulting from implementation of these recommendations, the appropriations made to the Texas Department of Health out of the General Revenue Fund shall be reduced by \$12,332,000 for fiscal year 1998 and \$12,332,000 for fiscal year 1999.
21. **Erroneously Paid Public Assistance Benefits.** It is the intent of the Legislature that this rider implement savings related to *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation FR 16. The Health and Human Services Commission shall set goals for the recovery of erroneously paid food stamps and Aid to Families with Dependent Children/Temporary Assistance for Needy Families benefits for the Texas Department of Human Services based on federally identified overpayments. Due to the increased collections, the appropriations made to the Texas Department of Human Services out of the General Revenue Fund is hereby reduced by \$1,700,000 for fiscal year 1998 and \$2,800,000 for fiscal year 1999.

22. **Subrogation Collection Efforts.** To implement *Disturbing the Peace* HHS 23, the Health and Human Services Commission is directed to report to the Legislature by September 1, 1998 on their progress in improving and coordinating subrogation and third party reimbursements at health and human service agencies and the adequacy of lien and subrogation statutes, contracts, claims processing, and any other related matters necessary to improve collections. The appropriations made to the Texas Department of Health out of the General Revenue Fund are hereby reduced by \$517,000 for fiscal year 1998 and by \$1,034,000 for fiscal year 1999. Other provisions of this Act concerning appropriations of recoveries, refunds or similar receipts shall not apply to amounts received pursuant to receipts under this section. All such recovered amounts shall be deposited into the General Revenue Fund and the Texas Department of Health is hereby appropriated any amounts of such recoveries necessary to pay any outside parties contracted to assist in such recoveries. From the remaining receipts, there is hereby appropriated to TDH an amount not to exceed \$1,550,000 for the biennium beginning September 1, 1997. Fifty percent of recoveries, after payments of any contractors under this provision and the amount appropriated to the TDH, are hereby appropriated to the Commission in an amount not to exceed \$1,000,000 for the biennium beginning September 1, 1997.
23. **Contingency Reduction: House Bill 897.** Contingent upon the enactment of House Bill 897, or similar legislation implementing the recommendations of WF 4 in *Disturbing the Peace: The Challenge of Change in Texas Government*:
- a. the sums appropriated out the General Revenue Fund for the Department of Human Services in Strategy B.1.1., TANF Grants, shall be reduced by \$491,000 for the biennium beginning September 1, 1997, and
 - b. the sums appropriated out the General Revenue Fund to the Department of Health in Goal B, Medicaid Services, shall be reduced by \$284,000 for the biennium September 1, 1997.
24. **Statewide Implementation of Finger-imaging.** Out of funds appropriated in this act \$360,000 in FY 1998 and \$1,440,000 in FY 1999 of general revenue match for Medicaid appropriated to the Texas Department of Health is hereby reduced to reflect the savings to the Medicaid program for statewide implementation of finger-imaging. Appropriations of general revenue match for Medicaid to the Department of Human Services are hereby increased by these same amounts for implementation of the statewide finger-imaging system and other pilot projects. The Department of Human Services may use up to \$2,100,000 of Temporary Assistance for Needy Families funds per year appropriated to the Department for implementation of the statewide finger-imaging system. The Department of Human Services shall begin implementation of the statewide finger-imaging system September 1, 1997. If the costs of statewide finger-imaging exceed the amounts specified in this provision, the Department may delay statewide implementation until such time as adequate funds are available.
- † 25. **Contingency Appropriation for House Bill 2385.** Contingent upon the enactment of House Bill 2385, or similar legislation, by the Seventy-fifth Legislature, Regular Session, the Health and Human Services Policy Council is hereby appropriated \$250,000 for fiscal year 1999 out of the General Revenue Fund. In addition, the Health and Human Services Commission is hereby directed to transfer three full-time equivalent positions and \$170,000 from funds appropriated elsewhere in this Act to the Health and Human Services Policy Council in fiscal year 1999. Funds appropriated by this provision may be expended for capital budget purposes notwithstanding limitations on capital budget expenditures elsewhere in this Act.
26. **Functional Assessment for Disability Services: Contingency Appropriation.** Contingent upon passage of House Bill 663 or similar legislation by the Seventy-fifth Legislature requiring development of single functional assessment for all disability services, the health and human service agencies that provide long-term care programs based on a determination of disability as an eligibility criteria shall contribute from amounts appropriated in this Article a total of

\$250,000 to the Health and Human Services Commission for development of the assessment tool. The Health and Human Commission shall determine the amounts to be contributed by each agency.

27. **Contingency Appropriation for Senate Bill 84.** Contingent upon the enactment of Senate Bill 84, or similar legislation, by the 75th Legislature, Regular Session, the Department of Human Services is hereby appropriated \$357,095 for fiscal year 1998 and \$357,095 for fiscal year 1999 out of the General Revenue Fund for the purpose of implementing that Act. Also contingent upon enactment of Senate Bill 84, or similar legislation, the appropriation of general revenue to the Department of Health for Strategy C.1.1., Health Care Standards and Goal G Indirect Administration, shall be reduced by a total of \$357,095 in fiscal year 1998 and \$357,095 in fiscal year 1999. The Department of Human Services is hereby authorized to transfer the appropriation made pursuant to this provision to the appropriate strategy items listed elsewhere in this Act or to create a unique strategy for Nursing Home Administrators. Funds appropriated by this provision may be expended for capital budget purposes notwithstanding limitations on capital budget expenditures elsewhere in this Act.

Funds are also appropriated contingent upon the continued generation of revenues sufficient to support the program.

Also contingent upon the enactment of Senate Bill 84, or similar legislation, the "Number of Full-time Equivalent Positions (FTE)" figure indicated elsewhere in this Act for the Department of Human Services is hereby increased by seven for fiscal year 1998 and by seven for fiscal year 1999 with a corresponding decrease to the FTE figure for the Department of Health of seven positions each year of the biennium.

For the first two state fiscal years that begin after the institution first admits lower-division students or offers lower-division courses, the formula for upper-level general academic teaching institutions shall be applied to upper-division semester credit hours at the institution. Beginning with the third state fiscal year that begins after the institution first admits lower-division students or offers lower-division courses, the formula for four-year general academic teaching institutions shall be applied to upper-division semester credit hours at the institution, except that the board shall modify the formula to provide the institution additional funding equal to a percent of the difference between the amount derived from application of the four-year formula to the institution's upper-division semester credit hours and the amount derived from application of the upper-level formula to those semester credit hours. 2. **Appropriation of Charges and Fees.** There is hereby appropriated to The University of Texas Medical Branch at Galveston all charges and fees collected for the general expenses of the medical branch hospitals, including maintenance, support, and salaries of employees for the fiscal years ending August 31, 1998 and 1999.

3. **Rates, Donations and Gifts.** The Board of Regents of The University of Texas System shall fix reasonable rates to be charged and collected by hospitals, and may make and enter into contracts for the hospitalization of the indigent sick and accept donations and gifts for the support and maintenance of the hospitals and may utilize up to \$5 million per annum of local income to match any gift made to endowments provided, however, such match will not result in any reduction in the level of services for patients or any requirement for general revenue replacement. Any project initiated under this authorization shall not be structured in such a manner that will require future specific appropriation of general revenue. Provided, however, that this provision shall not be construed so as to authorize, without the prior and specific approval of the Legislature, the acceptance of real property which would require an appropriation by the Legislature for maintenance, repair, or construction of buildings.

4. **Helicopter Operation.** The University of Texas Medical Branch at Galveston is authorized to lease and operate a helicopter for the purpose of transporting critically ill or emergency patients to the medical branch hospitals. No state funds are to be used for the operation of this helicopter, except where the patient served is indigent or through an interagency contract with another state agency, or unless costs are reimbursed from insurance proceeds.

5. **Transfers of Appropriations - State Owned Hospitals.** The University of Texas Medical Branch at Galveston shall transfer from non-Medicaid state appropriated funds \$108,968,190 in fiscal year 1998 and \$108,968,190 in fiscal year 1999 to the Department of Health. The timing and form of such transfers shall be determined by the Comptroller of Public Accounts in consultation with the Department of Health. The Legislative Budget Board is authorized to adjust the amounts of such transfers as necessary to match available federal funds.

6. **Appropriation of Costs for Health Care to Inmates.** None of the funds appropriated above shall be expended to provide or support the provision of health care to inmates of the Texas Department of Criminal Justice. It is the intent of the Legislature that all costs for providing health care to inmates of the TDCJ including costs of operating TDCJ hospital facilities in Galveston County and Lubbock County shall be paid from appropriations made to the TDCJ for the health care services. Appropriations made to the TDCJ for the provision of inmate health care services shall be expended in accordance with Chapter 501, Government Code, Sec. 501.059.

 - a. The Texas Higher Education Coordinating Board shall 1) determine whether each eligible public community/junior college has complied with all the provisions of this section; 2) determine each college's list of approved courses; and 3) certify its findings and such lists to the State Auditor not later than October 1 of each fiscal year. Each public community/junior college shall make such reports to the Texas Higher Education Coordinating Board as may be required, classified in accordance with the rules and regulations issued by the Board.

PUBLIC COMMUNITY/JUNIOR COLLEGES
(Continued)

- b. On or before the dates for reporting official enrollments each semester to the Texas Higher Education Coordinating Board, each college will collect in full from each student that is to be counted for state aid purposes the amounts set as tuition by the respective governing boards. Valid contracts with the United States government for instruction of eligible military personnel, and valid contracts with private business and public service-type organizations or institutions such as hospitals, may be considered as collections thereunder, but subject to adjustments after final payment thereof.
 - c. Each community/junior college must use a registration and financial reporting system which is sufficient to satisfy the audit requirements of the State Auditor and furnish any reports and information as the auditor may require.
 - d. Each community/junior college must file by December 1 of each fiscal year with the Texas Higher Education Coordinating Board, the Governor's Office of Budget and Planning, Legislative Budget Board and the Legislative Reference Library a copy of an annual operating budget, and subsequent amendments thereto, approved by the community/junior college governing board. The operating budget shall be in such form and manner as may be prescribed by the board and/or agency with the advice of the State Auditor providing, however, that each report include departmental operating budgets by function and salaries and emoluments for faculty and staff listed by position.
3. **Approved Elements of Expenditure.** The expenditures by a public community/junior college of any funds received by it under these provisions headed "Public Community/Junior Colleges" shall be limited to the payment of the following elements of cost: instructional administration, general administration and student services, faculty salaries, departmental operating expense, library, staff benefits, general institutional expense and organized activities. It is specifically provided, however, that in addition to the purposes enumerated herein, the funds appropriated above for special items may be expended for salaries, wages, travel, capital outlay and other necessary operating expenses.
4. **Audit of Compliance.** The compliance of each public community/junior college with the requirements set forth in the paragraphs above shall be ascertained by the State Auditor who shall also audit the pertinent books and records of each college as necessary.
5. **Vouchers for Disbursement of Appropriated Funds.** Vouchers for disbursement of the sums appropriated hereinabove shall be prepared by the Texas Higher Education Coordinating Board on the basis of the provisions in the paragraphs above and the warrants issued in payment thereof shall be issued in compliance with V.T.C.A., Education Code, Chapter 130.0031.

In submitting vouchers for disbursement of the funds herein appropriated, the Texas Higher Education Coordinating Board, shall certify to the State Comptroller of Public Accounts that each school listed has qualified and is entitled to receive such funds under the provisions set forth in this Act under the heading "Public Community/Junior Colleges."

6. **Falsification of Records.** Any deliberate falsification by any official or employee of any public community/junior college of the student enrollment records or the records of tuition payments and receipts whereby that college's share of public community/junior college state aid has been or would be illegally increased, may cause the withdrawal of all further financial aid provided herein. The State Auditor is hereby directed to report any instances which may constitute such falsification of records to the Legislative Audit Committee, and whenever the committee finds after giving the college adequate notice and fair hearing that a deliberate and intentional falsification of records has occurred, the committee may certify its findings to the State Comptroller who may deny payment of any further funds herein appropriated to the public community/junior college.

7. **Unobligated Balances.** At the close of each fiscal year each community/junior college shall report to the Coordinating Board the amount of state allocations which have not been obligated within each line item and shall return that amount to the State Treasury for deposit in the General Revenue Fund.
8. **Adjustment of Contact Hours.** The hours used in the contact hour base period are subject to audit for accuracy by the State Auditor according to an audit plan developed in consultation with the Texas Higher Education Coordinating Board, the Legislative Budget Board and the public community and junior colleges, and the dollar amounts adjusted accordingly by the Texas Higher Education Coordinating Board. The total amount that is reduced from colleges which have overstated base period contact hours shall be redistributed to those colleges which have understated base period contact hours to the extent of such understatement. The calculation of revised appropriation amounts shall allow the institutions an error rate of up to two percent. No college shall have dollar amounts adjusted below \$2,025,000. Institutions where sampling errors are identified may request a comprehensive institutional audit at institutional expense.
9. **Eligibility for Funding - Southwest Collegiate Institute for the Deaf.** In order to receive appropriations under this Act, the Southwest Collegiate Institute for the Deaf shall be subject to rules and regulations related to institutions of higher education contained in this Act and in the Texas Education Code.
10. **Separation of Funds.** The funds appropriated by the State shall be maintained separately by community/junior colleges from other sources of income.
11. **Supplanting of Federal Funds Prohibited.** It is legislative intent that state funds not be used to supplant federal funds for the Job Training Partnership Act programs conducted by community/junior colleges.
12. **Residency of Texas Department of Criminal Justice Inmates.** All inmates of the Texas Department of Criminal Justice are, for educational purposes only, residents of the State of Texas.
13. **Small Business Development Center.** The Small Business Development Center at Dallas County Community College shall receive \$746,042 in each year of the biennium, as appropriated above, contingent upon certification by the Comptroller of Public Accounts that increased activity by the Small Business Development Center will generate at least \$1,492,084 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Small Business Development Center be used by the center to attract federal funds on a dollar-for-dollar basis.
14. **Regional Import/Export Training Center.** Appropriations of \$50,000 each year made above are contingent upon certification by the Comptroller of Public Accounts that increased economic activity associated with the Regional Import/Export Training Center and the Laredo Junior College will generate at least \$100,000 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Regional Import/Export Training Center be used by the center to attract federal funds on a dollar-for-dollar basis.
15. **Property Ownership.** It is the intent of the Legislature that a public junior college district may own property outside of the geographical bounds of the junior college district and that such property may be used for educational purposes.

The Special Provisions which follow shall apply only to agencies of higher education:

Sec. 2. Local Funds Reappropriated. All balances of local funds except for any identifiable general revenue in the local funds of the state institutions of higher education named in this Article, as those funds are defined in V.T.C.A., Education Code, Sec. 51.009(a), at the close of the fiscal year ending August 31, 1997, including balances in their local revolving funds at that time, and the income to said funds during the fiscal years beginning September 1, 1997 and 1998, are hereby reappropriated for the operation, maintenance, and improvement of the respective state institutions. Institutional funds, as those funds are defined in V.T.C.A., Education Code, Sec. 51.009(b), shall be expended as authorized by the laws governing the use of the funds, and unless specifically included or identified, are exempt from the Article III and IX Special Provisions of this Act.

2. Notwithstanding any designation of "non-transferable" assigned to the informational item utilities of each general academic institution, health science center, health center, or technical college, upon approval by the Governor, any unexpended balances from fiscal year 1998 may be used for additional energy-saving projects, of which the costs for the entire project will be met during the current biennium. (Continued)

2. **Health to Academic Intercomponent Transfers with LBB Prior Approval.** As an exception to the provisions in Subsection 1., transfers may be made with prior approval of the Governor and Legislative Budget Board from medically-related components to general academics if it does not diminish the academic programs of the medically-related component or result in increased fees to patients at the component. The systems shall furnish whatever documentation may be required by the Governor and Legislative Budget Board to assure these conditions are met.
3. **Revenue Enhancement and Transfer Notification.** The Legislature instructs The University of Texas System to enhance local funds revenues to reduce the need for general revenue funds. The Legislature instructs The University of Texas System to give 30 days notice to the Legislative Budget Board prior to transferring local funds from any System hospital. Furthermore, notwithstanding the provisions of subsections 1 and 2 above, The University of Texas System Board of Regents shall not transfer funds from health institutions delivering patient care if such a transfer would result in a decrease in the quality or amount of indigent patient care offered by the affected institution.
4. **Reporting of Transfers.** Any transfers made pursuant to Subsections 1, 2, and 3, whether general revenue or local funds in nature, shall be reported in the Legislative Appropriations Request for the biennium beginning September 1, 1999.
5. **Tuition Revenue Bond and Revenue Bond Transfers.** Notwithstanding the other provisions of this act, transfers are not prohibited to the extent they are required to comply with proceedings authorizing bonds or other obligations now outstanding or hereafter issued pursuant to law.

Sec. 6. **Salary and Benefit Provisions.**

2. **President Salaries.** Out of the educational and general funds appropriated to the general academic institutions, health centers, health science centers and medical education programs, an amount NTE \$65,945 in 1998 and \$65,945 in 1999 may be expended for the salary of a president. All presidents may receive in addition to the above amounts a house, utilities, and/or supplement from institutional funds. If an institutionally owned house is not available an amount NTE \$7,200 per year from the institution's appropriation, and additional amounts from institutional funds where required, may be provided in lieu of house and utilities.
3. **Chancellor Salaries.** Out of the funds appropriated, transferred, or contracted to the system offices, an amount NTE \$70,231 in 1998 and \$70,231 in 1999 may be expended for the salary for a chancellor. All chancellors may receive in addition to the above amounts a house, utilities, and/or supplement from institutional funds. If a system owned house is not available an amount NTE \$7,200 per year from the system office appropriation and additional amounts from private and institutional funds where required, may be provided in lieu of house and utilities.

awarded on the basis of merit and performance in accepted activities. This shall not be interpreted so as to preclude salary adjustment designed to avoid salary inequities.

6. **Group Insurance Premiums.** For the biennium ending August 31, 1999, there is hereby appropriated such amounts, from local funds or educational and general income available to institutions of higher education, as may be necessary to pay the proportional share of the State's contributions for Staff Group Health Insurance Premiums. Funds appropriated by this subsection may be transferred by those institutions not retaining separate insurance programs to the Employees Retirement System at appropriate intervals to pay the proportional share of the group insurance premiums.

Sec. 7. **Expenditure Provisions.** The expenditure of the appropriations made in this Article or authorized in law for institutions of higher education except bequests and gifts specifically designated to be in some manner handled otherwise, shall be subject to the provisions of this section which follow and with exceptions only as specifically noted:

1. **Annual Operating Budgets Required.** It is expressly provided that the governing board of each of the institutions of higher education named herein shall approve on or before September 1, 1997 and 1998, an itemized budget covering the operation of the ensuing fiscal year, which budget shall be prepared within the limits of the revenue available. Each institution's operating budget shall contain a section(s) which provides budget amounts and the method of finance for each listed informational item of appropriated funds contained in this act. A copy of each budget, and any subsequent amendments thereto, shall be filed with the Legislative Reference Library and the institution's general library to be available for public inspection. Copies of each budget shall also be filed with the Legislative Budget Board and the Executive Budget Office.
2. **Clearing Accounts.**
 - a. The Comptroller of Public Accounts is to credit such receipts deposited by each such institution to a separate fund account for the institution depositing the receipts. For the purpose of facilitating the transferring of such institutional receipts to the state treasury, each institution may open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less than every seven (7) days make remittances therefrom to the state treasury of all except Five Hundred Dollars (\$500) of the total balance in said account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All moneys so deposited in the state racer shall be paid out on warrants drawn by the Comptroller of Public Accounts, as is now provided by law.
 - b. At their option, the institutions may use their local depository bank account in lieu of the special clearing account, provided that the general requirements as set out in the above paragraphs, for deposits and transfers to the state treasury, are complied with.
3. **Revolving Funds.**
 - a. Each institution affected by this section, at its option, is hereby authorized to maintain a revolving fund to facilitate the payment of nominal expenses and to pay bills within cash discount periods. The institutions may use the revolving fund for regular monthly payrolls as well as for weekly and special payrolls. Disbursements from the revolving funds are to be reimbursed from respective items of educational and general appropriation made herein, the Comptroller of Public Accounts being hereby authorized to make such reimbursements on claims filed with him by the institutions under his regularly prescribed procedures except that one voucher and one warrant may cover any number of claims for this purpose. These reimbursement claims shall meet the same requirements as other claims against state

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION**
(Continued)

appropriations, and each institution shall prepare such a reimbursement claim as at the close of business on the last day of each month and as many times during the month as may be expedient in order to make unnecessary the maintaining of an unreasonably large revolving fund.

- b. The respective governing board shall determine the amounts of the revolving funds to be set up for each institution, and may increase or decrease the amounts if necessary. Such governing board shall designate a depository bank for each revolving fund, and shall specify the officers and/or employees to sign checks drawn on each such fund. The depository bank for each revolving fund shall be required to secure the deposit as provided by law.
 - c. Appropriations to all institutions of higher education and systems, except funds identified exclusively for salaries, may be used to reimburse any revolving fund operated for the benefit of one or more parts or component units of an institution or system, such as a motor pool for managing automotive vehicles authorized by this Act, a feed supply center, an office supply or laboratory supply center, a computer center, or any other operations of a similar nature established by authority of the governing board of said institution or system.
4. **Local Depositories.** The governing boards of the respective institutions for which appropriations are made in this Article are hereby authorized to select depository banks for the safekeeping of funds which are authorized, by statute, to be maintained outside the state treasury. The boards shall require depository banks to furnish adequate surety bonds or securities to be posted for the assurance of safety of such deposits. The depository bank or banks so selected are hereby authorized to pledge their securities for assurance of safety for such funds. All such local funds shall be deposited in these depositories within seven (7) days from date of collection. The governing boards may require the depository so designated and selected to pay interest on deposits at a rate to be agreed upon by said depositories and said boards.
5. **Investment Reports.**
- a. The Legislative Audit Committee shall require the governing board of each of the educational institutions named in this Article to file with the State Auditor, Comptroller of Public Accounts, Legislative Budget Board, and the Governor's Office a quarterly report of all investment transactions involving endowment funds, short-term and long-term investment funds, and all other securities transactions, in a method prescribed by the Legislative Budget Board. Copies of such reports shall be available for public inspection.
 - b. The governing boards of each educational institution named in this Article must adopt formal investment policies which emphasize safety and diversity, including liquidity for operating funds. In developing investment policies, special attention should be given to the Government Financial Officers Association Preferred Investment Practice and the investment strategies of the Permanent University Fund. Each governing board shall submit to the Legislative Budget Board a copy of their investment policy by December 31 of each year.
6. **Central Services Accounts.**
- a. Out of funds appropriated in this Article, the governing boards of the university systems and their component units, and institutions of higher education may employ persons to serve two or more parts or component units of the system or institution and may pay their salaries in whole or in part from the informational items of appropriation made herein to any component unit. The governing boards are authorized to establish accounts from which salaries and expenses for the administration and supervision of the units of the system or

OF HIGHER EDUCATION**
(Continued)

institution may be paid and to require the units, including any other agency the administration of which it may be charged with by law, to pay into this account from any general revenue, local, or institutional funds their proportionate share as determined by the board for the expense of such administration and supervision. The Comptroller of Public Accounts is authorized to set up an account for each of the systems or institutions and to deposit in the account funds to the amount authorized by the governing boards and executive heads of the respective units, from funds appropriated by the Legislature to the units for noninstructional salaries and general operating expenses. The Comptroller is authorized to draw warrants against such accounts based on vouchers submitted by the systems or institutions in payment of salaries, maintenance, equipment or travel incidental to the administration and supervision of the respective units.

- b. The systems and institutions whose governing boards and component units are subject to the above are authorized to establish the following accounts:

Texas A&M University System Central Services Account
The University of Texas System Central Services Account
University of Houston System Central Services Account
Texas Tech University and Texas Tech University Health
Sciences Center Central Services Account
University of North Texas Central Services Account
University of North Texas Health Science Center Central Service Account
Texas State University System Central Services Account

- c. Travel expense incurred by a person employed by one unit of an above system or institution in connection with service to the other units may be reimbursed by the unit for which such services are performed or proportionately if more than one such unit is involved.

7. **Utility Revolving Funds.** The governing boards of Texas Woman's University, Texas Tech University, West Texas A&M University, all components of the University of Houston System, Texas State University System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in Vernon's Annotated Civil Statutes, Article 2909c-1, and the creation and maintenance of any such revolving fund is hereby authorized.

8. **Appropriation Expenditure Authorization.**

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health centers, health science(s) centers, medical education programs and Texas State Technical College may be expended for the following purposes, including, but not limited to: Institutional Support; Student Services; Staff Benefits; Faculty Salaries; Departmental Operating Expense; Instructional Administration; Organized Activities; Library; Research Enhancement; Extension and Public Service; Plant Support Services; Building Maintenance; Custodial Services; Grounds Maintenance; Utilities; Special Items; Lease of Facilities; and Patient Care.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises.

9. **Tuition Revenue Bonds and Revenue Bonds.** Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences

centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by V.T.C.A., Education Code, Section 55.17 (e2), (f2); Section 55.171; Section 55.1711; Section 55.1712; Section 55.172; Section 55.19, and any additional authorization enacted by the Seventy-third, Seventy-fourth, or Seventy-fifth Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.

Sec. 8. **Recruitment of Students.** No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 9. **Television Stations Prohibited.** None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 10. **Intercollegiate Athletics.** The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 11. **Prohibition Against Additional Museums.** None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use education and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 12. **Method of Financing Scholarships.**

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," "Other Educational, General and Patient Income," or "Statutory Tuition Increases," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of V.T.C.A., Education Code, Sec. 56.031 to Sec. 56.038, cited as the Texas Public Educational Grants Program.
2. Out of the funds identified by this Article in the informational strategies described as "Scholarships," the respective governing boards may allocate and expend for student

scholarships and the institutional share required to match Federal Work Study Funds such amounts as the boards may determine; provided, however, that each student receiving such scholarship first shall have utilized any federal grant funds for which the student may reasonably be eligible; and, that such scholarship, when combined with all other grant or gift funds awarded to the student, shall not exceed seventy percent (70%) of the reasonable expenses to be incurred by the student in the semester or term for which the scholarship is awarded; and provided, however, that no student shall receive an amount in excess of demonstrated need. The respective governing boards may transfer up to one-half of the amount to be awarded as scholarship to each otherwise eligible student to the Texas Higher Education Coordinating Board for use as matching funds to be awarded to that student through the Texas Public Educational Grants Program.

3. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships, shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
4. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
5. Out of the additional funds appropriated for the 1998-99 biennium for the informational strategy described as "Scholarships," it is the intent of the Legislature that the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color or ethnicity of the student recipient.

Sec. 13. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 14. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10% of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 20% of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10% of their classes with non-resident students in the case of medical and dental schools, and 20% in the case of The University of Texas Law School, Texas Tech University Law School and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.
2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year

program of clinical and research training designed to lead to the M.D. and Ph.D. degrees irrespective of whether those students are Texas residents.

Sec. 15. **Off-campus Instruction.** General academic institutions may teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Executive Budget Office and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 16. **Medical School Enrollment.** It is the intent of the Legislature that the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 1998 and August 31, 1999, shall be no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than five percent for fiscal years 1998 and 1999, the school shall report to the Legislative Budget Board the reasons for failing to meet the required enrollment. It is the intent of the Legislature that this information be taken into account when preparing the appropriation recommendations for the Seventy-sixth Legislature.

Sec. 17. **Tuition and Other Educational and General Local Fee Collection.** On or before the end of the 20th class day for each regular semester and the 15th class day for each summer session, each institution of higher education shall collect in full from each student that is to be counted for state aid purposes the amounts set by law as tuition and other education and general local fee in accordance with the installment tuition and other educational and general local fee payment plan provided for by V.T.C.A., Education Code, Chapter 54, as amended. Valid contracts with the United States Government for instruction of eligible military personnel, and valid contracts with private business and public service-type organizations or institutions such as hospitals, may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 18. **Compliance with Access and Equity 2000.** It is the intent of the Legislature that institutions of higher education give top priority and consideration to compliance with the spirit and mandates of the Access and Equity 2000.

Sec. 19. **Educationally Disadvantaged Student Independent Programs at UT-Austin and TAMU.** Out of the funds appropriated to The University of Texas at Austin and Texas A&M University at least \$130,000 per year shall be expended for independent programs designed to recruit and retain through scholarships and financial aid educationally disadvantaged students. These universities will by the year 2000 increase the number of educationally disadvantaged students to a level which reasonably reflects the proportion of educationally disadvantaged persons in Texas. They shall be required to submit to the Governor, Lieutenant Governor, and Speaker of the House a report detailing how the funds were spent and the progress of the programs. Failure to implement and sustain the

programs will result in a reduction of \$650,000 per year of funds allocated to the respective campus(es) for the biennium. Any reduction will be allocated to the program entitled Scholarship Fund for Educationally Disadvantaged Students that is administered by the Coordinating Board and will be available to all of the public colleges and universities except those which fail to abide by this provision.

Sec. 20. **Formula Variable and Educational and General Income Audits.** The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board, shall clearly define all variables used by the Seventy-fifth Legislature in arriving at formula appropriations for 1998 and 1999. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making 1998 and 1999 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board and the Legislative Budget Board. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow institutions an error rate of up to two percent.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 1998 and 1999 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 21. **System Offices Funding Authorized.**

1. Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas State University System and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.
2. The educational and general appropriation for each of the university system offices is hereby allocated to the general academic institutions based on each institution's proportionate share. On September 1 of each year of the biennium the Comptroller of Public Accounts shall transfer the appropriation from each component part to the system office for its support.

Sec. 22. **License Plate Scholarship Program.** In addition to educational and general funds amounts appropriated by this Act, available balances and the portion of fees deposited in the state treasury during the biennium ending August 31, 1999, to the credit of the general academic institutions as provided by Vernon's Annotated Civil Statutes, Article 6675a-5j, is appropriated for that period to the general academic teaching institution for which it was credited for the purpose of providing scholarships for students who demonstrate a need for financial assistance.

Sec. 23. **Annual Reports of Health Related Institutions Practice Plans.** As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of one hundred twenty (120) days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, the Legislative Reference Library and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year, showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 24. **Self-insurance Funds.** Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by Vernon's Annotated Civil Statutes, Article 715(c), for a risk

otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in Sec. 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 25. Elements of Un-sponsored Charity Care.

1. **Financially Indigent.** Un-sponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University Health Science Center, Texas A&M University System Baylor College of Dentistry, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Chronically Ill and Disabled Children's Service (CIDC) program, services provided under the Maternal and Infant Health Improvement Act (MIHIA), services provided under county indigent care contracts (Sec. 28), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.
2. **Medically Indigent.** Un-sponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 25, Financially Indigent.
3. **Charity Care Determination.** The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
4. **Contractual Adjustments.** The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 25, Financially Indigent, shall not be counted as un-sponsored charity care.
5. **Bad Debt.** Bad debts shall not be counted as un-sponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of un-sponsored charity care.

Sec. 26. Un-sponsored Charity Care Reporting Requirement. The public health-related institutions listed in Sec. 25, Financially Indigent, shall include in their biennial legislative appropriations request information including the actual amount of un-sponsored charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of un-sponsored charity care set forth in the section called "Elements of Un-sponsored Charity Care."

Sec. 27. **Patient Income Eligibility Guidelines.** The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, Texas A&M University Health Science Center, Texas A&M University System Baylor College of Dentistry, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care statistical samples derived from indigent care determinations made by their affiliated teaching hospitals and designed to estimate the amounts of charity care provided using the definitions established by The University of Texas hospitals noted above.

Sec. 28. **County Indigent Care Contracts.**

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 29. **Family Practice Clerkship Funding.** Each medical school or college shall expend the following amounts for the purpose of providing a clerkship in family practice during the third core clinical year pursuant to V.T.C.A., Education Code Section 51.918 (d)(1). Funding for these clerkships may include appropriated funds, institutional funds or restricted grant funds. These amounts may not be used to supplant allocations made for other purposes to family practice departments and affiliated family practice residency programs. The required third year family practice clerkship must have a set curriculum and the student must take an exam during the clerkship. The compliance of each medical school or college with the provisions of this rider shall be reviewed annually by the state auditor in conjunction with the Family Practice Advisory Committee of the Texas Higher Education Coordinating Board. The state auditor shall report the findings of the review to the Legislature.

Any general revenue funding provided for such items shall be reduced accordingly.

Sec. 33. **Driscoll Children's Hospital.** No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases or in assuming the direct care of those children. It is legislative intent that this rider language not restrict the traditional referral patterns, utilized by physicians to refer patients to health-related institutions.

Sec. 34. **Participation in Drug Development Research Projects.** A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under Section 576.022, Health and Safety Code.

Sec. 35. **Performance Measures for General Academics.** The general academic teaching institutions shall report the following new measures beginning with the annual performance report for fiscal year 1998:

- a. Percent of graduates who are first generation college graduates
- b. Percent of incoming full time transfer students who graduate within four years

The Legislative Budget Board, in consultation with representatives from institutions, Texas Higher Education Coordinating Board, Governor's Office of Budget and Planning, and State Auditor's Office, shall develop standard definitions for these measures.

Sec. 36. **Research Funding.** Institutions of higher education shall include in the annual performance report beginning in fiscal year 1998, the amount of external research funds as a percent of funds appropriated for research, as defined by the Legislative Budget Board and the Governor's Office, in consultation with the State Auditor's Office.

Sec. 37. **Utilization of Physical Plant by General Academic Institutions.** Any general academic institution with average classroom utilization below 27 hours per week or average class laboratory utilization below 17 hours per week, as defined by the Coordinating Board, shall conduct a comprehensive review of its scheduling practices and make any changes appropriate to ensure the most cost-effective use of its physical plant.

Sec. 38. **"Academic Bootcamp" Programs.** It is the intent of the Legislature that institutions of higher education that have remediation programs should encourage the development and/or expansion of "academic bootcamp" type programs. These programs should be designed to help academically at-risk students prepare for and succeed in college-level work and may include improving math and reading skills, critical thinking skills, study and test taking skills, motivation, fitness, and leadership development. Institutions should develop both quantitative and qualitative measures to provide data on the effectiveness of the program and success of students in admissions, retention and graduation from college.

Sec. 39. **Enrollment Management Plans.** Each institution of higher education with enrollment declines of greater than five percent from fall 1993 to fall 1997, as determined by the Texas Higher Education Coordinating Board, shall file with the Coordinating Board an enrollment management plan by December 31, 1997. and specific enrollment targets for the institution. Institutions shall submit a progress report to the Coordinating Board by December 31, 1998.

Sec. 40. **Financial Benchmarks for Athletic Programs.** All institutions operating scholarship athletic programs shall formulate and adopt benchmarks to evaluate the financial condition of these programs.

1. **Types of Measures to be Adopted.** The benchmarks shall measure the amount and proportion of revenue generated directly by the athletic program, the amount and proportion of student fees of any kind going to the athletic program, the amount and proportion of foundation or booster club contributions to the athletic program, and the amount and proportion of other subsidies provided to the athletic program. Additionally, the amount and proportion of athletic expenditures from reserve fund balances and transfers from other operations shall be reported. The benchmarks shall track the progress of each category of revenue and expenditure by the athletic program over a period of not less than five years. Each institution shall set a maximum threshold for each category of revenue and expenditure, except for revenues and expenditures of funds generated directly by the program or through foundation and booster club contributions, and shall report its results against those thresholds. Each institution shall be required to report reasons for deviating from the threshold and to submit a remediation plan to address the causes for the deviation.
2. **Reporting Requirements.** Benchmarks shall be adopted beginning September 1, 1997 and shall be reported annually to the institution's Board of Regents, the Higher Education Coordinating Board, the Legislative Budget Board, the State Auditor's Office and the institution's Student Service Fee Advisory Committee.

Sec. 41. **Academic Measures for Scholarship Athletic Programs.** All institutions operating scholarship athletic programs shall report to the Legislative Budget Board and the Governor's Office of Budget and Planning on the measures listed herein in the annual performance measure report beginning with fiscal year 1998. The measures shall be reported for each scholarship sport for men and for each scholarship sport for women. Athletes receiving either full or partial scholarships shall be included in the reporting.

Measures to be reported include: percent of first-time, full-time freshmen who earn a baccalaureate degree within six years; percent of full-time, transfer students who earn a baccalaureate degree within four years; retention rate of first-time, full-time freshmen students after one year; and grade point average. Institutions shall include explanation for each sport in which the performance varies from the performance of the total student population by more than five percent.

Sec. 42. **Post Tenure Review.** None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Sec. 44. **Teacher Education and Reading Instruction.** To address the critical need for education professionals to have access to the most current research available, it is imperative that teacher education and reading instruction related programs at Texas institutions of higher education be coordinated and that collaborative efforts be undertaken to ensure that resources available or provided for this purpose be utilized in the most effective and efficient manner. It is the intent of the Legislature that the University of Texas Health Science Center at Houston, University of Texas at San Antonio, University of Texas at Brownsville, University of Texas at El Paso, University of Texas at Dallas, University of Houston, Texas A&M University and Texas A&M University Health Science Center form an inter-institutional consortium, with the ability to include other institutions as needed, to carry out joint reading research and education activities including the design of shared curricular and academic programs utilizing distance learning technologies and other methods of inter-institutional communication and sharing. The aforementioned inter-institutional consortium is authorized to undertake planning and programmatic activities designed to accomplish the intent of the Legislature. This inter-institutional consortium is directed to report to the Higher Education Coordinating Board the implementation of this program.

Sec. 45. **Technology Programs.** To address the critical need for education professionals to have access to the most current research available, it is imperative that technology related programs at Texas institutions of higher education be coordinated and that collaborative efforts be undertaken to ensure that resources available or provided for this purpose be utilized in the most effective and efficient manner. It is the intent of the Legislature that the University of Texas at Austin, Texas A&M University, Texas Tech University and the University of Houston form an inter-institutional consortium, with the ability to include other institutions as needed, to carry out joint technology research and education activities including the design of shared curricular and academic programs utilizing distance learning technologies and other methods of inter-institutional communication and sharing. The aforementioned inter-institutional consortium is authorized to undertake planning and programmatic activities designed to accomplish the intent of the Legislature. This inter-institutional consortium is directed to report to the Higher Education Coordinating Board the implementation of this program.

Sec. 46. **General Academic Funding.** Funding for general academic institutions will consist of four formulas and supplemental items.

- a. **Instruction and Operations Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 1998-99 biennium is \$51.12.

Weighting is determined by the following matrix:

- b. **Teaching Experience Supplement.** For the 1998-1999 biennium, an additional weight of five percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Beginning in fiscal year 1998, the Coordinating Board shall collect data on non-tenured faculty with a terminal degree in the discipline, appropriate professional certification, or extensive and recognized accomplishment in the field. Furthermore, it is the intent of the Legislature that for the 2000-2001 biennium, the weight shall be assigned to undergraduate semester credit hours taught by non-tenured faculty with the appropriate credentials or experience, and the weight shall increase by ten percent per biennium, up to 50 percent.
- c. **Growth Supplement.** Universities projected by the Coordinating Board to experience growth in headcount enrollment from Fall 1996 to Fall 1998 will receive a \$1,435 supplement for each additional student forecasted to enroll during that time period. The supplement is based on the amount of general revenue funding per student generated by the instruction and operations formula.
- d. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for

universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, and water and wastewater. The average rate per square foot is \$7.51.

- e. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, 50 percent of indirect research costs recovered on grants, organized activities, system office operations, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges. Any university losing funding attributable to the proposed formula changes shall receive "formula transition funding" for implementing the new formula structure for the 1998-1999 biennium.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor's Office of Budget and Planning by June 1, 1998.

Sec. 47. **Optional Retirement Program Differential.** Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions between 6% and 7.31% of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

Sec. 48. **Eliminate Funding for Excessive Undergraduate Credit Hours.** Contingent upon the enactment of Senate Bill 1485 or similar legislation relating to the elimination of formula funding for undergraduate semester credit hours a student has attempted in excess of 170 hours, \$7,556,000 of the general revenue funds appropriated to the general academic institutions for each of the fiscal years 1998 and 1999 is hereby reduced and returned to the General Revenue Fund.

The Comptroller of Public Accounts, with the assistance of the Texas Higher Education Coordinating Board, shall calculate the amount of reductions to each individual institution based on the number of semester credit hours the undergraduate students at that particular institution have attempted that were in excess of 170 as of Fall semester 1997. The Comptroller shall make the reductions in appropriations no later than January 31, 1998 for fiscal year 1998 and no later than September 1, 1998 for fiscal year 1999.

Each general academic institution that chooses to impose increased tuition on students that have previously attempted 170 or more semester credit hours, shall maintain separate records of those additional tuition revenues and shall provide this information to the Legislature through the budget process for the 2000-2001 biennium.

Sec. 49. **Contingency for Senate Bill 572 - Public University for Central Texas.** Contingent upon enactment of Senate Bill 572 or similar legislation establishing the Public University for Central Texas and subsequent approval by the Texas Higher Education Coordinating Board, there is hereby appropriated from the General Revenue Fund to the Public University for Central Texas \$50,000 for the 1998-999 biennium. The Public University for Central Texas is defined as a general academic institution and is subject to the Special Provisions for Institutions of Higher Education and General Provisions included in this Act. Any Other Educational and General Income collected by the Public University for Central Texas is hereby appropriated to the institution.

Sec. 50. **Indirect Cost Recovery Earned by Texas A&M Services.** The Texas A&M University Service agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for 2000-2001 all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation. It is the intent of the Legislature that fifty percent of the indirect cost recovery funds earned by A&M Services be counted in the method of financing for the Texas A&M Service agencies beginning in the 2000-2001 biennium.

SPECIAL PROVISIONS - JUDICIARY

Sec. 2. **Limitation, Salary Supplements.** Salary Differential for District Court Judges and Justices of Courts of Appeals. District Court Judges may receive a combined yearly salary rate from state and county sources which does not exceed an amount that is One Thousand Dollars (\$1,000) less than the combined yearly salary rate from state and county sources received by Justices of the Courts of Appeals in whose district the District Court is located. Justices of the Courts of Appeals may receive a combined yearly salary rate from state and county sources which does not exceed the amount that is One Thousand Dollars (\$1,000) less than the yearly salary provided in this Act for a Justice of the Supreme Court. In the case of Chief Justices of the Courts of Appeals, the differential shall be Five Hundred Dollars (\$500).

In order that the differential set out above be maintained, each District Court Judge and Justice of the Courts of Appeals shall file a sworn statement with the Comptroller of Public Accounts setting forth the yearly amounts to be received from state and county as salary payments during the ensuing fiscal year. Amended statements shall be filed setting forth any change in the salary rate which occurs during a fiscal year.

For the purpose of salary payments by the state, the Comptroller of Public Accounts shall determine from the filed statements that the required salary differential set out above is maintained. In the event a salary is in excess of the One Thousand Dollars (\$1,000) differential, the Comptroller is directed to reduce the state's portion of that salary by the amount of excess, except in the case of the Chief Justices in the Courts of Appeals where the differential shall be Five Hundred Dollars (\$500).

The appropriations for salaries of District Court Judges and Justices of Courts of Appeals are made contingent upon strict compliance with the provisions of this section and the Comptroller shall have no authority to issue a warrant for salaries which violate these provisions.

Sec. 3. **Public Integrity Unit.** In Item 10., Judiciary Section, Comptroller's Department, warrants shall be drawn as necessary to reimburse the District Attorney of the 53rd Judicial District for salary and expenses previously incurred. The District Attorney shall submit a voucher containing an itemized statement of expenses to substantiate each claim. This appropriation shall be allocated in three equal installments over the fiscal year. Any unencumbered, unexpended balance existing

Sec. 4. **Restriction, New District Courts.** No new district court may be funded until it has been approved by the commissioner's court of the county or a majority of the counties in that district.

Sec. 5. **Transfer of Cases.** The Chief Justices of the fourteen courts of appeals are encouraged to cooperate with the Chief Justice of the Supreme Court to transfer cases between appellate courts which are in neighboring jurisdictions in order to equalize the disparity between the workloads of the various courts of appeals.

Sec. 6. **Voice Recording.** It is the intent of the Legislature that the Supreme Court and Court of Criminal Appeals will promulgate rules authorizing the use of voice or video recording technology, including CD ROM, to make a record of court proceedings. Sec. 7. **Systems Compatibility.** No funds shall be utilized to purchase information technology unless it interfaces with other courts and with the Office of Court Administration and complies with the plans filed with the Department of Information Resources.

Sec. 8. **Judicial Salaries.** Contingent on a finding of fact by the Comptroller of Public Accounts at the time of certification of this Act that sufficient revenue is estimated to be available from the General Revenue Fund, there is hereby appropriated to the Comptroller of Public Accounts such amounts as may be available for the purpose of providing salary increases of \$3,783,994 in fiscal year 1998 and \$6,290,634 in fiscal year 1999 and additional benefits of \$1,764,943 in fiscal year 1998 and \$3,136,312 in fiscal year 1999.

2. **Disposition of Construction Appropriation.** Construction appropriations may be used to pay salaries of engineers, architects, superintendents, supervisors and administrative expenses and support personnel of construction projects; architectural fees and the actual and necessary travel expenses incurred by them or their representatives in making special trips of inspection at the instance of the Board of Criminal Justice or the Director of the Institutional Division during construction or repair of buildings or installation of fixed equipment in such buildings. The State Classification Officer shall approve job titles and rates of pay for such salaried positions.

3. **Temporary Loan of Construction Resources.** The Texas Department of Criminal Justice (TDCJ) may temporarily utilize materials and equipment acquired and personnel paid from one project appropriated or reappropriated for construction, repairs, and renovation, including construction of additional capacity, and building maintenance, to construct any other similar project for which funds have been appropriated. The receiving project must reimburse the providing project within twelve months with funds and/or a like amount of materials, equipment, equipment usage or personnel of equivalent value. Reimbursement with funds may be accomplished by transfer in a manner which records appropriate expenditures to the borrowing project and negative expenditures to the lending project. These transfers may be summary amounts in a manner approved by the Comptroller of Public Accounts. However, the TDCJ must maintain adequate detailed records to support such summary transfer amounts.

4. **Unexpended Balances.** Any unexpended balances as of August 31, 1997, for the Texas Department of Criminal Justice (TDCJ) in the general obligation bond appropriations made and/or reappropriated by the Seventy-third Legislature, Seventy-fourth Legislature, and Seventy-fifth Legislature for Construction Appropriations are hereby reappropriated to the TDCJ for the biennium beginning September 1, 1997, for the same purpose or for transfer and use in completing other authorized building projects in authorized amounts, provided that such reappropriated funds shall not be expended without approval of the Board of Criminal Justice and that copies of such approvals shall be filed with the Governor and the Legislative Budget Board. Up to \$33.3 million of the unexpended balances reappropriated for the 1998-99 biennium may be used for facilities' repair or rehabilitation projects as reflected in TDCJ's Capital Budget rider. The department shall employ an independent firm, separate from the architect, to estimate the total cost of a project. Architectural fees based on the estimated cost shall be governed by other provisions of this Act.

6. **Construction Encumbrances.** Any funds legally encumbered for construction contracts for projects which are in effect as of August 31, 1997 are considered encumbered and may be carried forward to fiscal year 1998.

If it is determined that the change was necessitated by the error or omission of any contracted party, the TDCJ shall hold such party financially responsible.
9. **Utilization of Existing Correctional Facilities.** It is the intent of the Legislature that full consideration be given to utilizing existing correctional facilities located in the State of Texas and currently owned or operated by federal or local governments. Appropriations to the department may be used for the purposes of leasing, purchasing or contracting for operations if agreements can be reached which are beneficial to the State.

12. **Meals Authorized.** Department employees assigned to work inside correctional facilities or on travel status may receive up to two free meals per shift and employees residing in employee dormitories may receive three free meals per day. None of the funds appropriated above shall be utilized to provide meals to other employees for a charge of less than \$1.00 per meal or to grow, purchase, prepare, or provide food products for employees to use at their homes. Fees for meals are reappropriated to the item from which expenditures were made.
13. **Restriction, Food Service.** The Texas Department of Criminal Justice may provide food items to employees in employee dining facilities, only after the food requirements of inmates are met. The food served to inmates shall be of the same quality as food served to employees.

19. **Employee Medical Care.** Appropriations made in this Act not otherwise restricted in use may also be expended to provide medical attention and hospitalization by correctional medical staff and the correctional hospital facilities, or to pay necessary medical expenses for employees injured while performing the duties of any hazardous position which is not reimbursed by workers' compensation and/or employees' state insurance. For the purpose of this section, "hazardous position" shall mean one for which the regular and normal duties inherently involve the risk of peril of bodily injury or harm. Appropriations made in this Act not otherwise restricted in use may also be expended for medical tests and procedures on employees that are required by federal or state law or regulations when the tests or procedures are required as a result of the employee's job assignment or when considered necessary due to potential or existing litigation.

The Board of Criminal Justice shall maintain employee disciplinary and grievance procedures in compliance with this section.

The Board's disciplinary procedures shall allow an employee of the department to be represented by a designee of the employee's selection who may participate in the hearing on behalf of an employee charged with any type of disciplinary violation.

The Board's grievance procedure shall attempt to solve problems through a process which recognizes the employee's right to bring grievances pursuant to the procedures in this section.

DEPARTMENT OF CRIMINAL JUSTICE
(Continued)

The grievance procedure shall include either independent mediation or independent, non-binding arbitration of disputes between the employer and the employee if the disciplining authority recommends that the employee be terminated or the employee is terminated.

Any grievance or disciplinary hearing in which a department employee serves as a representative shall be held during normal business hours on a week day, unless the employer and employee agree otherwise. The employee subject to the hearing attends such hearing as a part of regular employment duties. An employee representative who is a department employee must obtain prior approval to be placed on unpaid leave to attend a hearing.

The funds shall be reimbursed by warrants drawn and approved by the Comptroller out of appropriated funds to the Texas Department of Criminal Justice.
26. **Revolving Fund Authorized.** The local Inmate Release Revolving Fund of \$500,000 is continued for each year of the biennium beginning September 1, 1997, and is deposited in a bank or banks in Texas; and all inmates released on parole, mandatory supervision, or conditional pardon shall be paid out of this fund. The fund shall be reimbursed by warrants drawn and approved by the Comptroller out of appropriated funds to the Texas Department of Criminal Justice.
27. **Appropriation, Agriculture Receipts.** It is the intent of the Legislature that each year of the biennium the Texas Department of Criminal Justice (TDCJ) may exchange agricultural products for other agricultural products and finished goods, and revenue accruing from the sale of agricultural commodities or livestock is reappropriated to the TDCJ. Other revenues deposited are reappropriated as they apply to sales of equipment, salvage, refunds and to recover damage claims. Any unexpended balance up to \$2,000,000 remaining from revenues August 31, 1997 and August 31, 1998 is reappropriated to allow for continuity of agricultural production and sales cycles which do not conform to fiscal years (estimated to be \$2,000,000).

Any balances remaining after meeting Ruiz requirements may be expended for non-court related activities.
29. **Acceptance of Grants, Gifts.** The Board of Criminal Justice is authorized to accept federal grants, donations and gifts, including those of real property, for the programs and projects of the agency. Such gifts, donations, and grants are appropriated for the purposes for which they are made available; provided, however, that in taking advantage of or accepting such funds, the board shall not incur any indebtedness which would necessitate a supplemental or additional appropriation out of any funds of this State nor deplete any of the funds herein appropriated to an amount which would necessitate a supplemental or additional appropriation out of any funds of this state to replenish said fund or funds.
30. **Appropriation of Controlled Substance Receipts.** All funds received under Chapter 59, Code of Criminal Procedure, and Chapter 71, V.A.T.S., by the Texas Department of Criminal Justice are hereby appropriated to the Department of Criminal Justice to be used for law enforcement purposes. The department shall accomplish this goal by:
 - a. Ensuring that when Medicaid-reimbursable services are funded by the department (for Medicaid-eligible special needs offenders) through state or local interagency contracts with Mental Health and Mental Retardation centers, the department's share of the service cost constitutes no more than the state share of the cost of the Medicaid services.
 - b. Executing an interagency agreement by December 1, 1997, with the Texas Department of Mental Health and Mental Retardation (in coordination with the Texas Council on Offenders with Mental Impairments) that standardizes interagency policy on contracts between criminal justice agencies and MHMR authorities. The interagency agreement should specify that both agencies will use Medicaid funding for special needs services whenever possible and that the criminal justice agency's share of the service cost will constitute no more than the state share of the cost of the Medicaid services. Copies of the interagency agreement shall be filed with the Governor's Office of Budget and Planning and the Legislative Budget Board.
39. **Council on Impaired Offenders.** The department shall continue current administrative, client services, and services of the Council on Offenders with Mental Impairments.

Performance measures shall be developed to monitor process timeframes related to interviewing, hearings, and final dispositions.
44. **Parole Supervision Ratio.** It is the intent of the Legislature that in fiscal years 1998 and 1999 a ratio of 75 active releasees to one parole officer be maintained. The ratio will be calculated by dividing the number of supervising parole officers and caseworkers currently employed into the total number of releasees supervised, exclusive of those under intensive supervision, for which a ratio of 25 releasees to one supervising officer is to be maintained. In the event that this ratio is not maintained, the Pardons and Paroles Division shall file a statement documenting the reasons for noncompliance with the Legislative Budget Board and the Governor's Office of Budget and Planning.

52. **Prison Industries Office.** The Comptroller of Public Accounts - Texas Performance Review (TPR) shall conduct a comprehensive review of services provided by the Texas Department of Criminal Justice (TDCJ) prison industries office to determine if those services may be better provided by selecting service providers through competition with other state agency providers of the services or through private commercial sources. The review shall focus on the most effective way to capture the business of state and local governmental entities and public and private educational institutions while maintaining the primary purpose of providing inmates with effective job training.

If the TPR determines that a service provided by the TDCJ prison industries office may be better provided by selecting the service provider through competition, the TPR shall prepare and submit recommendations to the Seventy-sixth Legislature.

After the SAO's report has been received and accepted by the Legislative Audit Committee, TDCJ shall implement the recommendations of the report and provide an implementation timetable to the Legislative Budget Board and the General Land Office. Sums realized from the proceeds of the sale or lease of TDCJ property in fiscal years 1998 and 1999 shall be deposited into the General Revenue Fund. Of the general revenue funds appropriated to TDCJ for fiscal year 1999, \$8,500,000 is contingent on land sales or lease revenue of not less than \$8,500,000 for the biennium and if such amounts are not realized the Comptroller of Public Accounts shall reduce the general revenue appropriations to the agency for fiscal year 1999 by the contingent amount.

59. **Appropriation of FY 1997 Unexpended Balances.** Any unexpended and unobligated balances remaining as of August 31, 1997, in the appropriations made to the Texas Department of Criminal Justice for fiscal year 1997 by House Bill 1, Seventy-fourth Legislature, Regular Session, are hereby reappropriated, in an amount not to exceed \$100,000,000, to the Texas Department of Criminal Justice for the biennium beginning September 1, 1997. This requirement shall not be waived by the commission unless the juvenile board demonstrates to the satisfaction of the commission that unusual, catastrophic or exceptional circumstances existed during the year in question to adversely affect the level of county fiscal effort. This requirement shall be a part of any contract entered into by the department and contracting entities. Failure of a contracting party to provide full accounting of state funds expended under the terms of any contract under the conditions stated above shall be sufficient reason to terminate that contract and for the department to deny any future contracts to that contracting party.

3. **Housing Assistance.** The housing finance division shall adopt a goal to apply a minimum of 15 percent of the division's total housing funds toward housing assistance for individuals and families earning less than 30 percent of median family income. No less than 20 percent of the division's total housing funds shall be spent for individuals and families earning between 31 percent and 60 percent of median family income. In those counties where the median family income is lower than the state average median family income, the department shall use the average state median income in interpreting this rider. The department shall provide a quarterly report to the Legislative Budget Board documenting its expenditures in each income category.

4. **Coordination with Texas Water Development Board.** The Texas Department of Housing and Community Affairs (TDHCA) and the Texas Water Development Board (TWDB) shall continue to coordinate funds as outlined in a Memorandum of Understanding (MOU) so as to assure that none of the funds appropriated above are expended in a manner that aids the proliferation of colonias or are otherwise used in a manner inconsistent with the intent of the Economically Distressed Areas Program (EDAP) operated by the Texas Water Development Board (TWDB); and maximize delivery of the funds and minimize administrative delay in their expenditure. The MOU shall be amended, if necessary, prior to the distribution of the Colonia Fund in fiscal years 1998 and 1999. In distributing funds out of the Colonia Fund, the TDHCA shall provide top funding priority to those projects that are in EDAP-funded areas and which assist colonia residents who cannot afford the cost of service lines, hook-ups, and plumbing improvements associated with being connected to an EDAP-funded system. None of the funds appropriated above for Strategy B.2.1., Development Projects Grants, may be expended in EDAP-eligible counties that have not adopted, or are not enforcing, the Model Subdivision Rules established pursuant to Section 16.343 of the Water Code. No later than September 15, 1998, the TDHCA and the TWDB shall submit a joint report to the Legislative Budget Board

that describes and analyzes the effectiveness of projects funded as a result of coordinated Colonia Fund/EDAP efforts.

5. **Reimbursement of Advisory Committee Members.** Pursuant to V.T.C.S., Article 6252-33, reimbursement of expenses for advisory committee members, out of funds appropriated above, is limited to the following advisory committees:

Texas Weatherization Policy Advisory Council

Consolidated Plan/CHAS Committee
State Community Development Review Committee
Colonia Residents Advisory Committee

6. **Local Site Visits.** From monies appropriated above, when the Texas Department of Housing and Community Affairs receives a letter from the mayor or county judge of an affected city or county opposing an application for a federal tax incentive to develop rental housing, a site visit by an employee of the Texas Department of Housing and Community Affairs with the mayor or county judge shall take place within 30 days following notification. The site visit must occur before the incentive can be approved. The Texas Department of Housing and Community Affairs is authorized to obtain reimbursement from the applicant for a federal tax incentive for necessary travel and expenses at a rate not to exceed the federally authorized rate.
7. **Colonia Set-Aside Program Allocation.** The Texas Department of Housing and Community Affairs shall continue the Community Development Block Grant (CDBG) Colonia Set-Aside Program by allocating not less than 10 percent of the yearly allocation of CDBG funds for eligible activities to assist in providing for the housing, planning, and infrastructure needs in colonias. From this 10 percent yearly allocation, \$2,000,000 shall be reserved to provide financial assistance to units of general local government located in economically distressed areas as defined by Section 17.921, Water Code, to pay for residential service lines, hookups, and plumbing improvements associated with being connected to a water supply or sewer service system, any part of which is financed under the economically distressed areas program established under Subchapter J, Chapter 16, Water Code and Subchapter K, Chapter 17, Water Code. The department by rule shall provide that an application for assistance under the program hereby authorized may be submitted after construction of the water supply or sewer service system begins. The department shall approve or disapprove a timely application before construction of the water supply or sewer service is completed in order to eliminate delay in connection once construction is completed. The department shall coordinate the application process with the Texas Water Development Board to avoid duplication of effort and the necessity for applicants to submit dual applications.

In addition, the department shall allocate 2.5 percent of the CDBG monies to support the operation of Self-Help Owner-Builder Housing Programs.

8. **Low/Moderate Income Housing Construction.** Out of the funds appropriated above, not less than \$500,000 each year of the biennium shall be expended on low/moderate income housing construction in enterprise zone areas.
9. **Limitation on Use of Funds for Credit Enhancement.** The Texas Department of Housing and Community Affairs and the Texas State Affordable Housing Corporation are prohibited from using state or federal funds to provide credit enhancement of a bond issued under this section unless the credit enhancement would facilitate the creation or preservation of affordable housing by 501(c)(3) nonprofit entities.
10. **Low Income Assistance: Scoring Criteria.** It is the intent of the Legislature that the department add to its contract award scoring criteria for the construction, acquisition, or rehabilitation of single and multi-family housing, and for the operation of multi-family housing,

a system that gives increased points for comprehensive services to low-income citizens, such as case management, home-buyer assistance, and family budgeting. The department is also encouraged to develop a sliding scale fee schedule for the low-income tax credit program and the 501c(3) bond program to encourage increased participation by non-profit entities such as community development housing organizations.

11. **Limitation on Expenditure.** Under Strategy A.1.4., Federal Tax Credits, no funds shall be used for processing or approving applications for allocations unless the department adopts or amends administrative rules containing the following:
 - a. All representations made by an applicant for an allocation are enforceable by the department, including enforcement by administrative penalties for failure to perform as stated in the representations and enforcement by inclusion in deed restrictions to which the department is a party.
 - b. The department shall inspect all construction for quality during the construction process while defects can reasonably be corrected.
 - c. A general contractor hired by an applicant or an applicant, if the applicant serves as general contractor, must demonstrate a history of constructing similar types of housing without the use of federal tax credits.
 - d. The department shall give notice of a proposed project to the state representative and senator representing the area where a project would be located. The state representative or senator may hold a community meeting at which the department shall provide appropriate representation.
 - e. The department shall allocate credits among as many different entities as practicable without diminishing the quality of the housing that is built.
12. **Manufactured Homeowner Consumer Claims.** In addition to appropriations in Goal D, Manufactured Housing, the Department of Housing and Community Affairs is appropriated an amount required for the purpose of paying manufactured housing consumer claims according to V.T.C.S., Art. 5221f(j), from the Manufactured Homeowner's Recovery Trust Fund No. 926 during the 1998-99 biennium.
13. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by the agency cover, at a minimum, the cost of the appropriations made above for the strategy items in Goal D., Manufactured Housing, as well as the "other direct and indirect costs" associated with this goal, appropriated elsewhere in this Act. "Other direct and indirect costs" for Goal D., Manufactured Housing, are estimated to be \$914,865 for fiscal year 1998 and \$926,385 for fiscal year 1999. In the event that actual and/or projected revenue collections are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to be within the amount of revenue expected to be available.
14. **Intergovernmental Task Force on Housing Investment.** Out of funds appropriated above in Goal A, Affordable Housing, the Department of Housing and Community Affairs shall establish an Intergovernmental Task Force on Housing Investment. The Task Force shall compile and submit to the Seventy-sixth Legislature its findings and recommendations concerning potential investment products for affordable housing, including the advisability of the creation of an intermediary organization similar to the Texas Growth Fund. The Task Force is composed of one representative from each of the five statewide public pension systems appointed by the administrative head of each system and one representative from each of the following entities appointed by the administrative head of each entity: the Department of Housing and

Community Affairs, the Texas Association of Public Employee Retirement Systems, the Texas Pension Review Board, the Bond Review Board; one representative appointed by the Speaker of the House of Representatives; one Senator appointed by the Lieutenant Governor; and two representatives of statewide community development organizations appointed by the Governor. A member serves without compensation but is entitled to reimbursement for reasonable and necessary expenses incurred in performing the member's duties (payable by the appointing entity). The department shall provide staff support to the Task Force.

15. **501(c)(3) Bond Issues.** Contingent upon the passage of HB 2577 or similar legislation providing for the issuance of 501(c)(3) bonds by the Department of Housing and Community Affairs, it is the intent of the Legislature that the Department of Housing and Community Affairs (TDHCA) issue 501(c)(3) bonds in a manner that maximizes the construction and preservation of very low-income housing units by ensuring that either twenty percent of the total units in each project financed under the program are set aside for individuals and families at fifty percent of the area median family income (AMFI), or forty percent of the total units in each project are set aside for individuals and families at sixty percent of the AMFI, or abide by such other set asides or restrictions as required by the Internal Revenue Service as outlined in a determination letter for the nonprofit borrower, while the department assures the highest reasonable bond rating for those bonds that are rated.
16. **Mortgage Revenue Bond Program.** The Department of Housing and Community Affairs (TDHCA) shall operate the First-Time Homebuyer Mortgage Revenue Bond Program in a manner that maximizes the creation of very low-income single family housing by ensuring that at least thirty percent of the lendable bond proceeds are set aside for a period of one year for individuals and families at sixty percent and below the area median family income (AMFI), while assuring the highest reasonable bond rating. In an effort to facilitate the origination of single family mortgage loans to individuals and families at sixty percent and below the AMFI, the department shall utilize down payment and closing cost assistance or other assistance methods.
17. **Conversions of Executory Contracts.** Out of the funds appropriated above, the department shall spend not less than \$4,000,000 for the biennium for the sole purpose of contract for deed conversions for families that reside in a colonia and earn 60 percent or less of the applicable area median family income. It is the intent of the Legislature that the department complete at least 400 contract for deed conversions by August 31, 1999.
18. **Home Buyer Education Program.** The Texas Department of Housing and Community Affairs (TDHCA) shall work with the Texas Agriculture Extension Service (TAEX) and experienced home buyer education providers to implement a home buyer education program statewide. TDHCA shall fund the program using either appropriated funds or other funds administered by the department, such as bond fees or proceeds or other funds received. TDHCA shall develop this program with the input from the Texas Agricultural Extension Service, the Texas Department of Human Services, the Texas A&M Real Estate Research Center, the Texas Workforce Commission, experienced home buyer education providers and affordable housing advocates. The TDHCA shall make full use of existing training materials available from the U.S. Housing and Urban Development Agency, the Neighborhood Reinvestment Corporation, the Cooperative Extension System, and other sources. The development of local education programs should begin by November 15, 1997, with the home buyer education program implemented and materials available in all counties by September 1, 1998.
19. **Administrative Allocation: Councils of Governments.** From the federal administrative monies made available to the department under the Community Development Block Grant Program, an amount equal to 19 percent of such monies shall be allocated to councils of government to continue staff support to the 24 Regional Review Committees of local elected officials appointed by the Governor.

Prior to submitting a written request to the Governor and Legislative Budget Board to exceed the above mentioned limitations, the commission must submit a detailed plan of operation to the State Auditor's Office for review and comment.

4. **Limitation on Transfer Authority.** Funds appropriated above in item A.1.3., Advertising, may be transferred into other items in the Lottery Commission appropriations, but none of the funds appropriated in other items may be transferred into Strategy A.1.3., Advertising.

5. **Compulsive Gambling Helpline.** Out of funds appropriated above in Strategy A.1.1., Lottery Operations, \$375,000 for each year of the biennium may be expended only for the purpose of offering assistance to compulsive gamblers to be provided by the Texas Commission on Alcohol and Drug Abuse through an interagency contract agreement.

ARTICLE IX

GENERAL PROVISIONS

The provisions set forth in this and all other Articles of this Act are limitations on the appropriations made by this Act. It is the purpose of the Legislature in enacting this bill only to appropriate funds and to restrict and limit by its provisions the amount and conditions under which the appropriations can be expended.

PROVISIONS RELATING TO THE POSITION CLASSIFICATION PLAN

Section 1. Except as otherwise specifically provided in this Act, expenditures of appropriations for the salaries of employees in classified positions in all affected agencies appropriated funds by this Act, other than institutions of higher education, university system offices, the Higher Education Coordinating Board, and the National Research Laboratory Commission, shall be governed by and be in conformity with the provisions of this Section, including the following lists of position classification numbers, position titles, salary group allocations, and rates of pay in classification salary schedules hereinafter provided. As used with respect to salary ranges, "minimum" means the lowest rate in a salary range; "midpoint" means the rate designated as Step 5 in Salary Schedule A; "midpoint" for Salary Schedule B will be determined by adding the minimum and maximum rates of a salary group and dividing the sum by two; and "maximum" means the highest rate designated in a salary range. With respect to Salary Schedule C, annual rate listed are actual salaries to be paid to employees in the applicable salary groups, except for ranges in C1 and C10 which allow for career development progressions as established by the agencies.

Except as specifically provided by other provisions of this Act, salaries of state employees who in August 1997 are in classified positions shall be converted to the salary schedules set forth in this Act as follows:
 - a. For the fiscal year beginning September 1, 1997 the salary of an employee, who in August 1997 is paid as a classified employee shall be converted to Salary Schedule A, B, or C to the appropriate salary group at the same salary rate in which paid in August 1997, except as provided under Section 1, Subsection 1(d).
 - b. For the fiscal year beginning September 1, 1997 the salary of an employee, who in August 1997 is paid as an employee exempt from the Classification Act, and whose position is not listed in the agency's "Schedule of Exempt Positions" in this Act, shall be converted to Salary Schedule A, B, or C to the appropriate salary group at the same salary rate in which paid in August 1997, except as provided under Section 1, Subsection 1(d).
 - c. For the fiscal year beginning September 1, 1998 the salary of a classified employee, shall be converted to the applicable salary schedule for fiscal year 1999 in this Act at the same salary rate in the same salary group in which paid in August 1998.
 - d. There is no authority to grant salary increases as part of the conversion of employees to Salary Schedules A, B, and C, except in the cases of: across-the-board salary increases authorized in this Act; employees whose positions are reallocated or reclassified in accordance with Subsections 3 and 4; or the following:
 - (1) Employees converted to Salary Schedule A who are paid as positions exempt from the Classification Act in August 1997, and whose salaries fall between step rates in Salary Schedule A, will move to the next higher salary step rate.
 - (2) Employees converted to Salary Schedule C whose salaries as of August 1997 are below the designated salary rates for their salary groups shall have their salaries raised to the applicable salary rates.
 - e. Notwithstanding other provisions in this Act, agencies are authorized to pay salaries that are below or in excess of the designated salary ranges in Section 1 as a result of the fiscal year 1998 conversion of employees to appropriate salary groups in Salary Schedules A and B. An employee hired by the State on or after September 1, 1997, including interagency transfers, must be paid at a salary rate that falls within the salary range of the applicable salary group.
 - f. Notwithstanding other provisions in this Act, the Department of Public Safety is authorized to pay its employees classified as Corporal I, II, III, or IV, Traffic Law Enforcement, at rates that exceed the maximum rates designated in Salary Schedule C by up to \$600 per fiscal year.
 - g. Employees within the Principals, Teachers, Supervisors, and Coaches title at the School for the Blind and Visually Impaired and the School for the Deaf are not subject to the salary administration provisions in this section.
2. **Salary When an Employee Changes Salary Status.** An employee who moves within an agency, from an exempt position to a classified position, shall receive an annual salary rate in the proper salary group not to exceed the salary step equal to the current salary or the next higher salary step rate if moving to a classification in Salary Schedule A, or an annual salary rate not to exceed the current salary or the maximum of the new salary range, whichever is lower, if moving to a classification in Salary Schedule B.

SALARY ADMINISTRATION PROVISIONS (Continued)

3. **Adjustments to Salary Rates for Reallocated Positions.**

- a. Reallocation to a higher salary group -- an employee whose classified position is reallocated by this Act to a higher salary group in Salary Schedule A or B shall receive the minimum rate in the higher salary group or the rate which he would have received had his classified position not been reallocated, whichever rate is higher; provided, however, an employee whose classified position is reallocated by this Act to a higher salary group may have his salary adjusted not more than two steps (or 6.8%) higher than otherwise provided by this section. Such additional adjustment shall be for the purpose of maintaining desirable salary relationships among employees in the affected positions. However, in no case shall the employee advance to a step number in the new salary group higher than the step number rate held prior to the reallocation or receive an increase greater than 6.8%. For the purpose of reallocation, "higher salary group" shall mean a salary group with a higher minimum salary rate.
- b. Reallocation to a lower salary group -- an employee whose classified position is reallocated by this Act to a lower salary group in Salary Schedule A or B shall receive the annual rate which he would have received had the position not been reallocated, not to exceed the maximum rate of the lower salary group. For the purpose of reallocation, "lower salary group" shall mean a salary group with a lower minimum salary rate.

4. **Reclassification.**

- a. As provided in the Position Classification Act, a position may be reclassified to another class of work in the Position Classification Plan as a result of classification audits or of program reorganizations by executive heads, or to a new classification properly established by the Legislature. Reclassification shall not be interpreted to mean a change in the employee's duty assignment, but only shall mean the proper definition of duties and classification of the position based upon duties actually performed by the employee; hence, a position shall be reclassified for the sole purpose of complying with the requirements of the Position Classification Act. When reclassifications are determined to be appropriate, they may be made on a monthly basis.
- b. Review of positions on September 1 -- all state agencies subject to the Position Classification Act shall review individual job assignments on September 1 of each fiscal year, and may also review job assignments on a monthly basis, to insure that each position is properly classified.
- c. If it is determined that, in compliance with the Position Classification Act, a position should be reclassified to a classification: (a) in a higher salary group, in Salary Schedule A or B, the salary rate of the employee shall be determined in the same manner as prescribed above for reallocation to a higher salary group, or (b) in a lower salary group in Salary Schedule A or B, the salary rate of the employee shall be determined in the same manner as prescribed above for reallocation to a lower salary group. For the purpose of reclassification, "higher salary group" shall mean a salary group with a higher minimum salary rate; "lower salary group" shall mean a salary group with a lower minimum salary rate.
- d. Each agency shall report to the State Classification Office the results of such reviews and the approach used to comply with this subsection and in the event the approach taken is determined by the State Classification Office to be inadequate, compliance audits to determine proper classification shall be undertaken.

5. **Merit Salary Increases.** It is expressly provided that agency administrators may grant merit salary increases to classified employees in Salary Schedules A and B whose job performance and productivity is consistently above that normally expected or required. For classified

SALARY ADMINISTRATION PROVISIONS (Continued)

employees in Salary Schedule A, a merit increase involves an increase in an employee's salary to a higher step rate in the same salary group. For classified employees in Salary Schedule B, a merit increase involves an increase in an employee's salary to a higher rate within the range of the same salary group. Such merit increases shall be subject to the following restrictions:

- a. The Comptroller shall prescribe such accounting and reporting procedures as are necessary to insure the availability of information reflecting each agency's utilization of merit salary increases.
 - b. It is the intent of the Legislature that merit salary increases be applied throughout the range of classified salary groups utilized by each agency.
 - c. For an employee to be eligible for a merit salary increase, the following additional criteria must be met: (a) the employee must have been employed by the agency for at least six continuous months prior to the award, (b) at least twelve months must have elapsed since the employee's last promotion, demotion, or merit salary increase at the agency, and (c) agency criteria for granting merit salary increases must include specific criteria and documentation to substantiate the granting of a merit increase.
6. **Promotions.** A promotion means a change in duty assignment of an employee within an agency from a position in one classification to a position in another classification in a higher salary group requiring higher qualifications, such as a greater skill or longer experience, and involving a higher level of responsibility. When an employee is promoted to a position in a higher salary group in Salary Schedule A or B, he will receive a salary rate at least one increment (or 3.4%) higher than his salary rate before promotion or the minimum rate of the new salary range, whichever is higher, and may, at the discretion of the agency administrator, receive an annual rate up to and including the maximum rate of the new salary range. For the purpose of promotion, "higher salary group" shall mean a salary group with a higher minimum salary rate.
7. **Demotions.** Demotion means a change in duty assignment of an employee from a position in one classification to a position in another classification in a lower salary group. When an employee is demoted to a position in a lower salary group in Salary Schedule A or B, he will receive a salary rate at least one increment (or 3.4%) below the rate he received before demotion. As an exception to the provisions in this paragraph, an agency is not required to reduce an employee's salary if: i) the employee accepts a position in another classification in a lower salary group in lieu of a layoff under a reduction in force, or ii) the employee is selected for another position in a classification in a lower salary group as a result of applying for the position. For the purpose of demotion, "lower salary group" shall mean a salary group with a lower minimum salary rate.
8. **Salary Reduction for Disciplinary Reasons.** If a classified employee's performance so warrants, the executive head may reduce his salary for disciplinary reasons to a rate in the designated salary group no lower than the minimum rate. The employee's pay may be restored to any rate in the range up to and including his prior rate as such employee's performance improves.
9. **Reductions in Force.** Notwithstanding agency rules, regulations, personnel handbooks or policies, agencies undergoing statutorily mandated reorganizations may institute reductions in force occurring as a direct result of the reorganizations.
10. **Salary Limited to Maximum Step Rate.** No salary adjustment authorized by this section shall result in an employee receiving an annual salary rate in excess of the maximum rate of the salary group to which his classified position is allocated.
11. **Temporary Assignment.** To facilitate the work of state agencies, any classified employee may, during emergencies or other special circumstances, be temporarily assigned to other duties for a

SALARY ADMINISTRATION PROVISIONS (Continued)

period not to exceed six months and during that time may receive the appropriate rate of pay if the temporary assignment is in a class in a salary group with a higher minimum salary rate. An employee may not be assigned to those duties for more than six months during a twelve month period. During a temporary assignment, an agency shall not: a) award a merit salary increase to the employee, b) promote or demote the employee, or c) reduce the employee's salary.

12. **Part-time Employees.** Regular full-time positions paid out of funds appropriated may also be filled by part-time employees. In computing the salaries of these employees, the rates of pay shall be proportional to the rates authorized for full-time classified employment or to the applicable exempt position. It is further provided that part-time employees as described in this subsection shall be subject to all of the provisions of this section.
13. **Hourly Employees.** It is the intent of the Legislature that hourly employees shall receive per hour rate increases proportionate to those provided in this Act for full-time salaried classified employees.
14. **Salary Supplementation.**
 - a. No employee holding a position classified in this Act under the authority of the Position Classification Act or an exempt position for which the salary is specifically set in, or pursuant to, this Act may receive a salary supplement from any source unless a specific grant of authority is provided in this Act or as provided by general law.
 - b. None of the funds appropriated by this Act to state agencies and to institutions of higher education shall be expended for payment of salary to any person whose classified or exempt salary is being supplemented from other than appropriated funds until a report showing the amount and sources of salary being paid from other sources has been reported to the Secretary of State and Comptroller of Public Accounts.
15. **Exemption of Positions by the Governor.** Appropriations may be used to pay the salaries of positions exempted from the position classification plan by the Governor under authority granted in Section 654.012(12)(A), Government Code, with the limitation that appropriations may be used only to pay the salaries of bona fide new positions established to carry out duties in relation to programs, functions, etc., that were not anticipated and, therefore, not funded under this Act. It is expressly provided that this authorization does not extend to the use of appropriations to adjust the salary of any exempt position retitled solely for the purpose of adjusting a salary that has already been established either in or through this Act and that any position exempted from the Position Classification Plan by the Governor shall contain a certification that the exemption is for a bona fide new position. No payment of funds for a position exempted by the Governor shall be made by the Comptroller of Public Accounts until formal notification of the action of the Governor to exempt the position has been filed with the State Classification Officer and the Legislative Budget Board. A position exempted by the Governor in the first year of this biennium may be continued and the NTE rate established for the position may be adjusted for the second year of the biennium at a rate no higher than the rate set forth in this Act for adjusting classified positions.
16. **Classified Salary Rates.**
 - a. Agencies covered by Section 1 of this article shall make employments of personnel in accordance with the provisions of the Position Classification Plan. Agencies may utilize classified position titles as appropriate and may determine, at the time of initial employment by the agency, the salary rate within the applicable salary group for personnel employed under the Position Classification Plan. In no event shall a classified position title be used to classify the chief executive officer of an agency, except that an individual in a classified position who is designated to act as the chief executive officer on a temporary basis may continue to be paid a salary under the Position Classification Plan in an amount

SALARY ADMINISTRATION PROVISIONS
(Continued)

not to exceed the amount indicated for the agency's chief executive officer in the agency "Schedule of Exempt Positions".

- b. **Salary Cap.** For each fiscal year of the biennium beginning September 1, 1997, the maximum annual expenditure for merit salary increases and promotions awarded during a fiscal year shall not exceed, without the written approval of the Governor and the Legislative Budget Board, an amount equal to 1.7% of the total amount expended by the agency in the prior fiscal year for salaries. It is the intent of the Legislature that the maximum expenditure for merit salary increases and promotions be computed separately for each year of the biennium and that such merit salary increases and promotions as may be awarded in the first fiscal year of the biennium shall not count against the maximum expenditure for such increases in the second fiscal year of the biennium.

Expenditures to pay a salary increase of an employee who is promoted into a position title which was occupied by another employee within a six month period prior to the promotion shall not count against the expenditure limitation established by this provision.

A request to exceed the expenditure limitation established by this provision must be submitted by the governing board of the agency and must include at a minimum: 1) the date on which the board approved the request; 2) a statement justifying the need to exceed the limitation; and, 3) the source of funds to be used to pay the salary increases.

The Comptroller shall prescribe such accounting and reporting procedures as are necessary to insure that expenditures for merit salary increases and promotions shall not exceed the limitations established by this provision.

17. Scheduled Exempt Positions.

- a. A position listed in a "Schedule of Exempt Positions" shall receive compensation at a rate not to exceed the amount indicated in that schedule except as provided in part "c" or part "d" of this subsection.
- b. An exempt position listed in a "Schedule of Exempt Positions" for which the term "Group", followed by an Arabic numeral, is indicated, may receive compensation at a rate within the range indicated below for the respective salary group indicated but not to exceed the amount indicated for that position in the agency "Schedule of Exempt Positions".

Scheduled Exempt Position Salary Rates

- c. Notwithstanding the rate listed in an agency "Schedule of Exempt Positions", a position listed below may receive compensation at a rate as set by the Governor in an amount not to exceed the "Maximum Salary", but not less than the "Minimum Salary", listed in subsection (b) for the salary group indicated for that position:

- d. Notwithstanding the rate listed in an agency "Schedule of Exempt Positions", a position listed in an agency "Schedule of Exempt Positions" may receive, if so ordered by the employing agency's governing board, compensation at a rate not to exceed 4.0% in excess of the actual salary rate paid for that position for August 1997. To be effective, an order of the board must be: i) in writing; ii) signed by the presiding officer of the governing board; and iii) submitted to the Governor, the Legislative Budget Board and the Comptroller of Public Accounts. This subsection shall not apply to position titles listed in subsection (c) and shall not apply to a position for which an "*" precedes the position title as listed in an agency "Schedule of Exempt Positions".

18. **Retention of Year 2000 Critical Staff.** To ensure the successful resolution of the technology problems associated with conversion to the Year 2000, state agencies and institutions of higher education are hereby authorized to award bonuses, out of funds appropriated in Articles I through VIII in this Act which are not otherwise restricted, to employees who the agency or institution of higher education determines are critical to the successful conversion effort.

Before an employee can be eligible for a bonus, the employee must have been continuously employed in a full-time position by the agency or institution of higher education, in an information resource technical function for at least three years prior to September 1, 1997. To be eligible, the employee must have information resource technical knowledge and experience which, if lost, would be difficult to replace and would severely jeopardize the timely completion of the Year 2000 project for the particular agency or institution of higher education.

Each agency and institution of higher education that chooses to participate shall submit a list of employees, the dollar amount and a brief explanation of why the employee has been designated as "Year 2000 Critical" to the Comptroller of Public Accounts, the Legislative Budget Board, the Governor's Budget Office, House Appropriations and Senate Finance by December 1, 1997. The Department of Information Resources, with the advice of the Office of the Attorney General and the Comptroller of Public Accounts, shall develop a standard contract for all participants to use. The contracts shall be signed and completed by November 1, 1997 and require the "critical employee" to remain employed with the contracting agency or institution of higher education continuously from September 1, 1997 through May 31, 2000.

A bonus may be no more than \$5,000 from each of fiscal years 1998 and 1999. Funds for the bonuses will be encumbered under rules and procedures established by the Comptroller of Public Accounts and be payable from fiscal year 1998 and 1999 funds. Funds will be paid to the employee at the successful completion of the contract on May 31, 2000. Encumbered bonuses will also be paid to "critical employees" terminated by the agency or institution before the end

SALARY ADMINISTRATION PROVISIONS (Continued)

of the contract for other than performance or disciplinary reasons. Any bonus paid under this subsection is considered compensation but is in no event considered earned and payable until all the conditions of this subsection and the signed contract are met.

Bonuses given to employees under this subsection will not affect their eligibility for a merit salary increase or a promotion as defined elsewhere in this section.

19. **Personnel and Payroll Reporting Procedures.** To facilitate pre-audit of payrolls and classification audits to assure conformity with the provisions of this Act, and to provide the Legislative Audit Committee with current information on employment and wage rate practices in state government, the Comptroller and the State Auditor shall jointly promulgate and issue uniform procedures for personnel and payroll reporting for all state agencies.

OTHER EMPLOYMENT POLICIES AND PROVISIONS

Sec. 2. **Method of Salary Payments.**

1. All annual salaries appropriated by this Act are for full-time employment unless specifically designated as part-time or other and shall be paid in twelve (12) equal monthly installments, except as otherwise provided in Article II of this Act. Except for patrolmen and other law enforcement positions in the Department of Public Safety which shall be paid only at the annual rates stipulated in the particular language accompanying the appropriations therefor, this paragraph shall not be construed so as to prevent the head of any other agency of the state from paying less than the maximum salary rates specified in this Act for positions, or the employment of part-time employees to fill regular positions provided for in this Act, so long as the salary rates for such part-time employees are proportional to the regular rates for full-time employment. The equivalent monthly rate of pay for annual employees maintaining a 40-hour work week and covered under Chapter 658, Government Code, shall be determined by dividing the annual salary by twelve (12). The hourly rate for a given month shall be determined by dividing the monthly rate by the number of working hours in that month. This basis applies to partial pay and other special situations. When a full-time or regular part-time employee is on leave without pay, compensation for that particular pay period shall be reduced at the equivalent hourly rate of pay times the number of work hours lost by being on leave without pay.

Facilities of the Texas Department of Mental Health and Mental Retardation in Article II and the institutions of higher education and the schools for the blind and deaf in Article III of this Act which make contracts for less than a twelve-month period may pay salaries in equal monthly payments for the period of the contract.

2. Agencies having a "Schedule of Exempt Positions" following their appropriation may expend funds to employ those positions designated as exempt at rates not to exceed the rates shown. Each title authorizes one position unless the title is followed by an Arabic numeral indicating the number of positions authorized or by (UL) which authorizes an unlimited number of positions for such position title.

The number of authorized positions for a title either listed in a "Schedule of Exempt Positions" may be exceeded only under the following conditions: (1) for the purpose of hiring a replacement in a key management position as certified by the agency head, (2) the current incumbent of the position must have formally resigned or otherwise announced irrevocable plans to vacate the position, (3) the position number limitation may be exceeded for a period of time not to exceed the equivalent of one month's salary per fiscal year per position, and (4) reporting such exceptions will be made in such manner as prescribed for payroll reporting procedures.

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

3. No deduction shall be made from the salary or wages of any state employee who is called for jury service; nor shall such employee be required to account to the state for any fee or compensation received for jury service.
4. None of the moneys appropriated by this Act shall be used for the payment of salaries to any employee who accepts witness fees in contravention of the following provisions:

Any state official or employee called to appear in his official capacity in any judicial action or legislative investigation shall neither accept nor receive any witness fees for such a governmental appearance;

But if the appearance as a witness is not in an official capacity but is to testify from personal knowledge concerning matters related to the inquiry, then such employee or official shall be entitled to any customary witness fees;

And any state employee or official appearing as an expert witness shall be entitled to accept compensation for his appearance only when such appearance shall be made on his own time;

But this prohibition against accepting compensation shall not extend to any mileage or per diem allowance tendered to the state employee or official for expenses incurred while serving as a witness, unless the state official or employee has also made a claim for such expenses against the state, and in no instance shall there be double reimbursement for expenses.

5. **Expert Witnesses.** Because of an inherent conflict of interest, none of the funds appropriated by this Act shall be expended in payment of salary, benefits, or expenses of any state employee who is retained as or serves as an expert witness or consultant in litigation against the state, unless the state employee serves in that capacity on behalf of a state agency on a case in which the state agency is in litigation against another state agency.
6. **Overtime.**

- a. **Employees Subject to FLSA.** An employee who is subject to the overtime provisions of the Fair Labor Standards Act of 1938, 29 U.S.C. Secs. 201 et seq., (FLSA) is entitled to compensation for overtime as provided by that Act and this subdivision.

An employee who is required to work hours in excess of 40 hours in a workweek is entitled to compensation for the excess hours either by:

- (1) the agency allowing (or requiring) the employee to take compensatory time off at the rate of 1-1/2 hours off for each hour of overtime; or
- (2) at the discretion of the employing agency, in cases in which granting compensatory time off is impractical, the employee receiving pay for the overtime at the rate equal to 1-1/2 times the employee's regular rate of pay.

Any paid leave or holidays taken are not counted as hours worked in determining overtime hours under the preceding paragraph.

Each employee may accumulate overtime credit of not more than 240 hours, except that an employee engaged in a public safety activity, an emergency response activity, or a seasonal activity may accumulate not more than 480 hours, pursuant to 29 U.S.C. Sec. 207(o)(3)(A). Employees must be paid for overtime worked in excess of the limits on accumulation, at the rate equal to 1-1/2 times the employee's regular rate of pay.

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

In situations in which the employee has not worked more than 40 hours in a workweek but the total of hours worked and hours of paid leave or paid holidays exceeds 40 hours, the employee shall be allowed equivalent compensatory time off for the excess hours. In situations in which the employee has worked more than 40 hours in a workweek and the total of hours worked and hours of paid leave or paid holidays exceeds 40 hours after subtracting FLSA overtime hours worked, the employee shall be allowed equivalent compensatory time off for such excess hours. The compensatory time must be taken during the 12-month period following the end of that workweek. Compensatory time under this paragraph may not be carried forward past the end of the 12-month period and an employee may not be paid for the unused time. As an exception to the provisions in this paragraph, however, employees of institutions of higher education or employees engaged in a public safety activity, including but not restricted to highway construction and maintenance or an emergency response activity, may be paid for compensatory time hours on a straight-time basis when the taking of compensatory time off would be disruptive to normal teaching, research, and other critical functions.

Exceptions to the workweek overtime calculation for hospital, fire protection, and law enforcement activities (including security personnel in correctional institutions) shall be made in accordance with the FLSA.

- b. Employees Not Subject to FLSA. An employee who is not subject to the overtime provisions of the FLSA may be allowed compensatory time off for hours in excess of 40 hours in a workweek in which the combination of hours worked, paid leave, and holidays exceeds a total of 40 hours.

An employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Sec. 213(a)(1) (FLSA), may be allowed compensatory time off during the 12-month period following the end of the workweek in which the overtime was accrued, at a rate not to exceed equivalent time.

In accordance with the provisions set forth in 29 CFR, Part 541, Section 541.118 and subject to that section's exceptions provided below, an employee who is exempt as an executive, professional, or administrative employee under 29 U.S.C. Sec. 213(a)(1) (FLSA) shall receive full salary for any week in which work is performed without regard to the days and number of hours worked. This is also subject to the general rule that an employee need not be paid for any workweek in which the employee performs no work.

- (1) Deductions may be made when the employee absents himself/herself from work for a full day or more for personal reasons, other than sickness or accident. However deductions may not be made for absences caused by jury duty, attendance as a witness at a judicial action, or temporary military leave.
- (2) Deductions may also be made for absences of a day or more occasioned by sickness or disability (including workers' compensation accidents) if the deduction is made after exhaustion of paid sick leave or workers' compensation benefits.
- (3) Deductions may also be made for penalties imposed for infractions of significant safety rules relating to prevention of serious danger to the workplace or other employees.

Further, in accordance with the special provisions applicable to executive, professional, or administrative employees of public agencies set forth in 29 CFR, Part 541, Section 541.5d, an employee's pay may be reduced for absences for personal

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

reasons or because of illness or injury of less than one work day when accrued leave is not used by the employee because:

- (1) permission for its use has not been sought or has been sought and denied;
- (2) accrued leave has been exhausted; or
- (3) the employee chooses to use leave without pay.

In addition, in accordance with Section 541.5d, deductions from the pay of an executive, professional, or administrative employee for absences due to a budget-required furlough shall not disqualify the employee from being paid "on a salary basis" except in the workweek in which the furlough occurs and for which the employee's pay is accordingly reduced.

If deductions have been inadvertently made in contradiction to Department of Labor regulations, reimbursement will be made retroactively to the affected employees.

An employee who is not subject to the FLSA because of 29 U.S.C. Sec. 203(e)(2)(C), as a staff member, appointee, or immediate adviser of an elective officeholder, may be allowed compensatory time off under the terms and conditions determined by the officeholder.

Employees covered by this subdivision may not be paid for any unused compensatory time.

- c. No employee, whether or not subject to FLSA, shall accrue state compensatory time during any week unless the combination of paid leave and hours worked exceeds 40 hours.
- d. No employee, whether or not subject to FLSA, shall accrue state compensatory time for work conducted at any location other than the employee's regular place of employment or assigned duty point. In no event shall an employee's personal residence be deemed to be that employee's regular place of business or duty point for the purpose of this subsection.
- e. Article X Employees. Subdivisions (a), (b) and (c) of this subsection do not apply to an employee compensated from funds appropriated under Article X of this Act. Consistent with the requirements of the FLSA, overtime pay and compensatory time off for employees of the House or Senate shall be determined by the presiding officer of the respective houses, and for all other employees shall be determined by the administrator of the agency involved or the employing officeholder.

Sec. 3. Salary Payment, Withholdings, Deductions, and Matching Contributions. The disbursement of moneys appropriated in this Act for salaries and wages shall be subject to the provisions of Public Law No. 68, Seventy-eighth Congress, known as the Current Tax Payment Act of 1943, and any amendments thereto. The officers and employees of agencies for which appropriations are made by this Act also are authorized to make retirement deductions in accordance with the Teacher Retirement or Employees Retirement or Judicial Retirement Acts on payroll forms prescribed by the Comptroller of Public Accounts, and the Comptroller is directed to issue warrants accordingly. The Comptroller shall also prescribe rules and procedures for agencies to follow in making adjustments to payrolls for periods following the period in which an inaccurate payment, deduction or other error occurred.

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

In each instance in which an operating fund or account is created and named by statute, the responsible officials of the state are authorized to transfer into such operating fund or account sufficient moneys from treasury funds, local, institutional and federal funds to pay proportionally the costs of matching state employees' retirement contributions and the state's share of Old Age and Survivors Insurance.

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

Sec. 4. **Per Diem of Board or Commission Members.**

1. As authorized by Section 659.032, Government Code, the per diem of state board and commission members shall consist of (1) compensatory per diem, if specifically authorized by law, at \$30 per day; (2) reimbursement of actual expenses for meals and lodging not to exceed \$80 per day when traveling within the State of Texas and reimbursement of actual expenses for meals and lodging when traveling outside of the State of Texas in an amount not to exceed the rates specified in Sections 16.3 and 16.4 of this article; and (3) reimbursement of transportation and incidental expenses at the rates specified in this Act for state employees.
2. If a law enacted after former Article 6813f, V.T.C.S., authorizes per diem for members of a particular state board or commission, but does not specify the amount of the per diem, then the amount of the per diem shall be as listed in the preceding subsection.
3. None of the funds appropriated by this Act may be expended to reimburse members of a state agency advisory committee for expenses associated with conducting committee business, including travel expenses, unless such expenditures for an advisory committee are: I) specifically authorized by this Act, or ii) approved by the Governor's Office of Budget and Planning and the Legislative Budget Board subsequent to the effective date of this Act pursuant to V.T.C.S. Article 6252-33, Section 4(a)(2). For the purpose of this subsection the term "advisory committee" shall have the meaning assigned by Section 1 of Article 6252-33. This subsection shall not apply to an advisory committee established by the governing board of a retirement system trust fund.
4. Agencies having a "Schedule of Exempt Positions and Per Diem of Board (or Commission) Members" following their appropriations may expend appropriations for board or commission member compensatory per diem in an amount not to exceed the amount specified in such schedule for each respective fiscal year.
5. No full time employee paid from funds appropriated by this Act shall be paid both a salary and compensatory per diem for concurrent service as a state employee and as a board or commission member.

Sec. 5. Political Aid and Legislative Influence Prohibited. None of the moneys appropriated by this Act, regardless of their source or character, shall be used for influencing the outcome of any election, or the passage or defeat of any legislative measure. This prohibition shall not be construed to prevent any official or employee of the state from furnishing to any Member of the Legislature or committee upon request, or to any other state official or employee or to any citizen information in the hands of the employee or official not considered under law to be confidential information. Any action taken against an employee or official for supplying such information shall subject the person initiating the action to immediate dismissal from state employment.

No funds under the control of any state agency or institution, including but not limited to state appropriated funds, may be used directly or indirectly to hire employees or in any other way fund or support candidates for the legislative, executive, or judicial branches of government of the State of Texas or the government of the United States.

None of the funds appropriated by this Act shall be expended in payment of the salary for full-time employment of any state employee who is also the paid lobbyist of any individual, firm, association or corporation. None of the funds appropriated by this Act shall be expended in payment of the partial salary of a part-time employee who is required to register as a lobbyist by virtue of the employee's activities for compensation by or on behalf of industry, a profession or association related to operation of the agency or institution for which the person is employed. A part-time employee may serve as a lobbyist on behalf of industry, a profession or association so long as such entity is not related to the agency with which he or she is employed.

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

Except as authorized by law, none of the funds appropriated by this Act shall be expended in payment of membership dues to an organization on behalf of the agency or an employee of an agency if the organization pays all or part of the salary of a person required to register under Chapter 305, Government Code.

No employee of any state agency shall use any state-owned automobile except on official business of the state, and such employees are expressly prohibited from using such automobile in connection with any political campaign or any personal or recreational activity.

None of the moneys appropriated by this Act shall be paid to any official or employee who violates any of the provisions of this section.

The head or heads of each agency of the state shall furnish each employee of such agency with a copy of the six (6) paragraphs immediately preceding this one, and shall take a receipt therefor from each employee. The preceding sentence shall not be construed to mean that new receipts are to be obtained each year from continuing employees who have previously receipted for copies of identical provisions prohibiting political aid and legislative influence. The receipts shall be kept accessible for public inspection.

It is provided, however, that nothing in this section shall be construed as prohibiting the payment of reasonable dues to an organization that is designed to represent student interests in the state legislature or federal congress from that portion of mandatory student service fee collections that is allocated to the student government organization at an institution of higher education. Nothing herein shall be construed to permit such mandatory student service fees to be used to influence the outcome of any election.

For the purpose of this provision, the terms "state agency" and "agency of the state" shall include: a council of governments, a regional planning commission, or similar regional planning agency created under Chapter 391, Local Government Code; a Local Workforce Development Board; or an MHMR community center.

Sec. 6. Standards of Conduct for State Employees. None of the funds appropriated by this Act shall be expended to pay the salary of a state employee who:

- (1) accepts or solicits any gift, favor, or service that might reasonably tend to influence the employee in the discharge of official duties or that the employee knows or should know is being offered with the intent to influence the employee's official conduct;
- (2) accepts other employment or engages in a business or professional activity that the employee might reasonably expect would require or induce the employee to disclose confidential information acquired by reason of the official position;
- (3) accepts other employment or compensation that could reasonably be expected to impair the employee's independence of judgement in the performance of the employee's official duties;
- (4) makes personal investments that could reasonably be expected to create a substantial conflict between the employee's private interest and the public interest; or
- (5) intentionally or knowingly solicits, accepts, or agrees to accept any benefit for having exercised the employee's official powers or performed the employee's official duties in favor of another.

The head of each agency of the state shall furnish each employee of such agency with a copy of this section, and shall take a receipt therefor from each employee. The preceding sentence shall not be construed to mean the new receipts are to be obtained each year from continuing employees who have

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

previously receipted for copies of identical provisions relating to the conduct of state employees. The receipts shall be kept accessible for public inspection.

Sec. 7. Publicity of Individuals Restricted. None of the moneys appropriated by this Act shall be used by any agency of the state government for the purpose of publicizing or directing attention to any individual official or employee of any agency of the state government.

It is also provided that none of the moneys appropriated by this Act shall be used by any agency of the state government for maintaining any publicity office or department, or for the employment of any person who has the title or the duties of a public relations agent, or press agent, or for paying any public relations firm or agent.

The policy and restrictions set out in this section shall not be interpreted to prevent the head of any agency of the state, when he deems it necessary or desirable in the public interest, to issue through any of such agency's officials or employees any statement or information respecting the work, legal responsibilities, or activities of such agency. Such statement shall be issued, or such information imparted, in the name of the agency of the state and shall have attached thereto the name of the official or employee authorized to issue the same.

It is also provided that any institution of higher education may continue to maintain and operate a news and information service for the benefit of the public which has been specifically authorized and approved by the governing board of such institution of higher education.

Sec. 8. Employee Working Hours and Holidays. Funds appropriated by this Act shall be expended for salaries and wages only in accordance with the following conditions and limitations and pursuant to Chapter 658, Government Code.

1. State offices shall remain open during the noon hour each working day with at least one person on duty to accept calls, receive visitors, or transact business.
2. Agencies may stagger the work day of their personnel. All agencies shall be open between the hours of 8:00 A.M. and 5:00 P.M. and shall maintain the eight-hour day and 40-hour week as provided in Chapter 658, Government Code.
3. An employee shall, during normal office hours, conduct agency business only at the employee's regular place of business or assigned duty point unless the employee is on travel status or has received prior written authorization from the administrator of the employing agency. In no event shall an employee's personal residence be deemed to be that employee's regular place of business or duty point for the purpose of this subsection without the written authorization of the administrator of the employing agency.
4. Except as provided elsewhere in this Article, holidays for state employees, including hourly wage workers, for each year covered by this Act shall be those specified in Section 662.003, Government Code. Except as provided elsewhere in this Article, holidays for employees of institutions of higher education are as provided in Section 662.011, Government Code.

For institutions and agencies of higher education, a regular employee is defined as one who is employed to work at least 20 hours per week for a period of at least four and one-half months, excluding students employed in positions which require student status as a condition for employment. Only regular employees of institutions of higher education shall be eligible for paid holidays.

Each state agency and each institution of higher education will, during the biennium, have on hand enough personnel to carry on the activities of each institution or agency on a state holiday, as defined by statute, so that the public business can be carried on during that period. However, this does not apply to a state holiday that falls on a Saturday or Sunday, the Friday

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

immediately following the fourth Thursday in November, the 24th day of December, or the 26th day of December.

Those employees who are working during a national holiday or a state holiday period will be allowed compensatory time off during the twelve-month period following the date of the holiday worked. The supervisor in charge may require the employee to give reasonable notice in advance of taking compensatory time off but may not require that the employee specify the reason for which the compensatory time is to be taken. As an exception to the provisions in this paragraph, however, employees of institutions of higher education may be paid for compensatory time hours on a straight-time basis when the taking of compensatory time off would be disruptive to normal teaching, research, and other critical functions.

Agencies who have work schedules other than provided in Section 658.005, Government Code, will insure that employees working these schedules observe the equivalent number of holidays each year as employees working normal office hours.

A state employee is entitled to observe Rosh Hashanah, Yom Kippur, and Good Friday in lieu of any holiday or holidays on which the employee's agency or institution is required by this provision to be open and staffed to conduct the public business.

In the event that a state or national holiday falls between the dates that an employee separates from one state agency and begins employment in another state agency without a break in service, the agency to which the employee transfers is responsible for paying the employee for the holiday.

The benefit provisions of this section shall apply to the employees of the House of Representatives and Senate only at the discretion of the presiding officer or the administration committee of each house.

5. Other provisions of this Act notwithstanding, state agencies shall not observe as a holiday days on which an election is held throughout the state. However, employees shall be allowed sufficient time off without deduction from pay or leave time accrued to vote.
6. Each state agency and each institution of higher education shall adjust the work schedule of any employee who is a member of the National Guard or any Reserve Component of the Armed Forces so that two of the employee's non-work days per month coincide with two days of military duty to be performed by the employee, it being the intent of the Legislature to facilitate participation in military duties by state employees.

Sec. 9. **Employees Vacations and Leaves.**

1. **Annual Leave.** Other than faculty with appointments of less than twelve months at institutions of higher education and other than instructional employees with contracts for periods of less than twelve months at the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf, employees of the state shall, without deduction in salary be entitled to a vacation in each fiscal year. Part-time employees will accrue vacation leave on a proportionate basis and the maximum carryover will also be proportionate. Such entitlement shall be earned in accordance with the following schedule:

OTHER EMPLOYMENT POLICIES AND PROVISIONS
(Continued)

Employees With Total State Employment Of:	Hours Accrued Per Month for Full-time Employment	Maximum Hours to Carry Forward From One Fiscal Year to Next Fiscal Year for a Full-time Employee
0 but less than 2 years	7	168
2 but less than 5 years	8	232
5 but less than 10 years	9	256
10 but less than 15 years	10	280
15 but less than 20 years	12	328
20 and over years	14	376

An employee will earn vacation entitlement beginning on the first day of employment with the state and terminating on the last day of duty. Vacation entitlement is accrued at the applicable rate cited above. Credit for one month's accrual will be given for each month or fraction of a month of employment with the state and will be posted to each employee's leave record on the first day of employment with the state and on the first of each succeeding month of employment thereafter, provided that an employee who is in a leave status on the first day of the month shall not be eligible to use leave accrued for such month until the employee returns to duty. Vacation with pay may not be granted until the employee has had continuous employment with the state for six (6) months, although credit will be accrued during that period.

Credit for the higher rate of accrual as shown on the chart above shall be given on the first calendar day of the month if the employee's anniversary date falls on the first calendar day of the month; otherwise, the increase will occur on the first calendar day of the following month. If an employee begins working in a position that accrues vacation leave on the first workday of the month, the employee is deemed to have begun working on the first calendar day of the month for the purpose of this subsection.

The net balance of unused accumulated leave not to exceed the maximum cited above shall be carried forward for any employee from fiscal year 1997 to fiscal year 1998 and from fiscal year 1998 to fiscal year 1999.

All hours of unused accumulated vacation leave which are lapsed at the end of a fiscal year by operation of this subsection shall be credited to the employee's sick leave balance as of the first day of the next fiscal year.

In computing vacation time taken, time during which any employee is excused from work because of holidays shall not be charged against the employee's vacation.

None of the funds appropriated by this Act may be used to pay a state employee or former state employee who resigns, is dismissed, or has otherwise separated from state employment, for vacation time accrued at the time of separation from the state unless:

- a. the individual's employment with the state had been continuous for a period of six (6) months, and
- b. the individual has not been reemployed by a state agency to a position which accrues vacation time within a period of thirty (30) calendar days from the date of separation from the state employment.

An individual who is reemployed by a state agency to a position which accrues vacation time within a period of thirty (30) calendar days from the date of separation from the state

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

employment shall have the individual's previously accrued but unused vacation leave restored.

2. **Sick Leave.** Employees of the state shall, without deduction in salary, be entitled to sick leave subject to the following conditions:

An employee will earn sick leave entitlement beginning on the first day of employment with the state and terminating on the last day of duty. Credit for one month's accrual will be given for each month or fraction of a month of employment with the State and will be posted to each employee's leave record on the first day of employment with the State and on the first day of each succeeding month of employment thereafter.

Sick leave entitlement shall be earned at the rate of eight (8) hours for each month or fraction of a month employment for a full-time employee, and shall accumulate with the unused amount of such leave carried forward each month. Part-time employees shall accrue sick leave on a proportionate basis. Sick leave accrual shall terminate on the last day of duty.

Sick leave with pay may be taken when sickness, injury, or pregnancy and confinement prevent the employee's performance of duty or when the employee is needed to care and assist a member of his immediate family who is actually ill. For purposes relating to regular sick leave, immediate family is defined as those individuals who reside in the same household and are related by kinship, adoption or marriage, as well as foster children certified by the Texas Department of Protective and Regulatory Services. Minor children of the employee, whether or not living in the same household, will be considered immediate family for purposes of regular sick leave. An employee's use of sick leave for family members not residing in that employee's household is strictly limited to the time necessary to provide care and assistance to a spouse, child or parent of the employee who needs such care and assistance as a direct result of a documented medical condition. An employee who must be absent from duty because of illness shall notify his supervisor or cause him to be notified of that fact at the earliest practicable time.

To be eligible for accumulated sick leave with pay during a continuous period of more than three (3) working days, an employee absent due to illness shall send to the administrative head of his employing agency a doctor's certificate showing the cause or nature of the illness, or some other written statement of the facts concerning the illness which is acceptable to such administrative head. It is within the discretion of the administrative head to require documentation concerning illnesses resulting in absences of three (3) working days or less.

Upon return to duty after sick leave the employee concerned shall, without delay, complete the prescribed application for sick leave and submit the same through proper channels to the appropriate approving authority for his consideration.

Exceptions to the amount of sick leave an employee may take may be authorized by the administrative head or heads of any agency of the state provided such exceptions are authorized on an individual basis after a review of the merits of such particular case. A statement of any such authorized exceptions or the reasons for them shall be attached to the state agency's duplicate payroll voucher for the payroll period affected by such authorized exceptions. Agencies are required to have a written statement filed with the State Auditor covering the policies and procedures to be used for the extension of leave in this manner and shall make this statement available to all employees. Faculty members at institutions of higher education must submit prescribed leave forms for all sick leave even though no classes were missed if the absence occurred during the normal workday for regular employees.

3. **Emergency Leave.** The administrative head of an agency shall grant an emergency leave to an employee because of a death in the employee's family. The death of the employee's spouse, or the employee's or spouse's parents, brothers, sisters, grandparents, grandchildren and children shall constitute adequate need for emergency leave. The administrative head of the agency may

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

make a determination on other reasons for emergency leaves and shall grant an emergency leave, when in his determination, the employee shows good cause.

For institutions of higher education, a regular employee is defined as one who is employed to work at least 20 hours per week for a period of at least four and one-half months, excluding students employed in positions which require student status as a condition for employment. Only regular employees of institutions of higher education shall be eligible for paid vacation and leave as provided herein.

4. A leave of absence with full pay shall be provided any state employee who is called to active duty with the National Guard by the Governor of Texas because of an emergency in accordance with Section 431.0825, Government Code.

Employees shall be entitled to leave of absence from their respective duties without loss of time or efficiency rating or vacation time or salary on all days during which they shall be engaged in authorized training or duty ordered or authorized by proper authority, for not to exceed fifteen (15) days in any one federal fiscal year as provided in Section 431.005, Government Code.

An employee called to active duty during a national emergency by a reserve branch of the United States Armed Forces shall have a leave of absence. The employee shall not lose the ability to accrue state service credit while on active duty but shall not accrue vacation or sick leave. However, the employee shall retain any accrued vacation or sick leave and shall be credited with such balances upon return.

State employees who are volunteer firemen shall also be granted a leave of absence with full pay to attend training schools conducted by state agencies provided such leave does not exceed five (5) working days in any one fiscal year. State agencies and institutions of higher education may grant leave with full pay to volunteer firemen for the purpose of responding to emergency fire situations provided that the agency or institution of higher education has an established policy for the granting of such leave time. A leave of absence authorized by this subsection shall not be charged against the employee's vacation or sick leave privileges provided by this Act.

A state employee, who is a foster parent to a child under the conservatorship of the Department of Protective and Regulatory Services, is entitled to a leave of absence with full pay for the purpose of attending staffing meetings held by the Department of Protective and Regulatory Services regarding the child under the foster care of the employee, or to attend the Admission, Review and Dismissal (ARD) meeting held by a school district regarding the child under the foster care of the employee.

Any state employee, who is a certified disaster service volunteer of the American Red Cross or who is in training to become such a volunteer, with the authorization of the employee's supervisor, may be granted a leave not to exceed ten days each fiscal year to participate in specialized disaster relief services for the American Red Cross, upon the request of the American Red Cross and with approval of Governor's office, without loss of pay, vacation time, sick leave or earned overtime, and/or compensatory time. Notwithstanding this provision, the pool of state employees certified disaster volunteers shall not exceed 350 participants at any one time. A list of such employees will be coordinated with the Division of Emergency Management and the Governor's office. Within sixty days of any request made by the American Red Cross, a report shall be prepared by the American Red Cross for the Legislative Budget Board setting forth the reasons and needs for any request made.

5. A state employee who transfers directly from one state agency to another, shall be given credit by the receiving agency for the unused balance of this accumulated vacation and sick leave, provided that his employment with the state is uninterrupted.

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

6. Funds appropriated in this Act may be used to pay the estate of an employee when the employee dies while employed by the State of Texas for: (1) all of the employee's accumulated vacation leave and (2) one-half of the employee's accumulated sick leave, or for 336 hours of sick leave, whichever is less, provided that requirement and limitations in Subchapter B, Chapter 661, Government Code, are satisfied.
7. In addition to maintaining an official personnel file on each employee containing an application for employment and other records normally placed in a personnel file, the administrative head or heads of each agency of the state shall require time and attendance records, a record of the vacation and sick leave accrual and absences of each employee, and the reasons therefor whether from sickness, vacation, other paid leave, or leave of absence without pay.
8. The State Auditor shall provide a uniform interpretation of the provisions herein contained on employee vacations and leaves, and shall report to the Governor and the Legislature any exceptions practiced by the various entities of the state government.
9. It is specifically provided, however, that the benefit provisions of this section apply to employees of the House of Representatives and Senate only at the discretion of the presiding officer of each House.
10. An employee separated from employment with the state under a formal reduction-in-force shall have his sick leave balance restored if reemployed by the state within twelve (12) months of termination. An employee separated for other reasons shall also have his sick leave balance restored: i) if reemployed by the agency or institution within twelve (12) months of termination, provided there has been a break in service of at least thirty (30) calendar days since termination or ii) if reemployed by the state, with an agency or institution other than the agency or institution from which the employee separated, within twelve (12) months of termination.
11. Agencies may grant employees leave without pay or leave of absence without pay subject to the following provisions:
 - a. Such leaves will be limited in duration to twelve (12) months.
 - b. Except for disciplinary suspensions, active military duty, and workers compensation situations all accumulated paid leave entitlements must be exhausted before granting such leaves. However, sick leave must be exhausted only in those cases where the employee is eligible to take sick leave, as provided in Section 9(2) above.
 - c. Subject to fiscal constraints, approval of such leaves constitutes a guarantee of employment for a specified period of time.
 - d. The administrative head of an agency may grant exceptions to these limitations for such reasons as interagency agreements or educational purposes.
 - e. Except in the case of an employee returning to state employment from military leave without pay, any full calendar month (i.e., from the first day of a month through the last day of a month, inclusive) in which an employee is on leave without pay, shall not be counted in the calculation of total state service for purposes of longevity pay or vacation leave entitlements. No employee shall accrue vacation or sick leave for such month. Further, any such full calendar month of leave without pay shall not constitute a break in continuity of employment but shall not be included in the calculation of the minimum number of continuous months of employment set forth in this article under the merit salary provisions, Section 1(5)(c), and under Employees Vacations and Leaves, Section 9(1).
12. A state employee who is blind is entitled to a leave of absence with full pay for the purpose of attending a training program to acquaint the employee with a seeing-eye dog to be used by the

employee. The leave of absence provided by this subsection may not exceed 10 working days in a fiscal year. The leave of absence provided by this subsection is in addition to other leave to which an employee is entitled, and an employee continues to accrue vacation and sick leave while on leave as provided by this subsection. For purposes of this subsection, "blind" has the meaning assigned by Section 91.002(2), Human Resources Code.

13. In addition to employee leave authorized elsewhere in this Article, administrative leave with pay may be granted by the head of an agency as a reward for outstanding performance as documented by employee performance appraisals. In no event shall the aggregate amount of administrative leave granted pursuant to this subsection exceed 32 hours during any fiscal year.
14.
 - a. State employees who have a total of at least 12 months of state service, and who have worked at least 1,250 hours during the 12-month period immediately preceding the commencement of leave, are hereby entitled to leave pursuant to the Federal Family and Medical Leave Act (FMLA) provided that the employee utilizes all available applicable paid vacation and sick leave while taking leave pursuant to this provision. As an exception to the requirement to utilize all paid vacation and sick leave, employees on FMLA leave who are receiving temporary disability benefit payments or workers' compensation benefits shall not be required to utilize paid vacation or sick leave while receiving such benefits.
 - b. Those employees with less than a total of 12 months of state service or who have worked less than 1,250 hours in the 12-month period immediately preceding the commencement of leave are eligible to take a parental leave of absence, not to exceed 12 weeks, provided that the employee utilizes all available applicable paid vacation and sick leave while taking leave pursuant to this subdivision. The leave authorized by this subdivision is limited to, and begins with the date of, the birth of a natural child or the adoption or foster care placement of a child under three years of age.

Sec. 10. Multiple Employments with the State.

1. **General Provisions.** A person who is legally employed by more than one Texas state agency or institution of higher education may not receive benefits from the state in excess of those provided for one full-time employee. The person is subject to the following provisions and must be informed of them before the person becomes employed by more than one agency or institution:
 - a. Separate vacation and sick leave records must be maintained for each employment. When the person terminates from one employment, the person's leave balances that were accrued under that employment may not be transferred to the remaining employments.
 - b. The person accrues state service credit for all purposes as if the employee had only one employment.
 - c. The state's contribution towards the taxes imposed on the person by the Federal Insurance Contributions Act may not exceed the overall limit specified elsewhere in this Act. The Comptroller shall prescribe uniform accounting and reporting procedures to ensure that the contribution does not exceed this limit.
 - d. The total state contribution towards the person's group insurance is limited to the amount specified elsewhere in this Act for a full-time active employee.
 - e. Overtime compensation accrues to an employment independently of every other employment with the following exception. If the person is subject to the overtime provisions of the Fair Labor Standards Act of 1938 (FLSA) in an employment, the employing agencies and institutions must ensure that the person is compensated for

OTHER EMPLOYMENT POLICIES AND PROVISIONS (Continued)

all combined time worked in excess of 40 hours per week according to the FLSA overtime provisions. The agencies and institutions shall coordinate to determine which agency or institution is responsible for ensuring that the employee is properly compensated according to those provisions.

- f. The person must inform the person's employing state agencies or institutions of higher education before accepting an additional employment with another agency or institution.
2. Special provisions for legislative agencies. If a person's multiple employment involves only legislative agencies and all employments are less than full-time, Subsection (1)(a), except for accrual of leave, does not apply and the person may use paid leave from leave balances in all employments. Upon termination of one employment, leave balances accrued under that employment shall be transferred to the remaining employments.
3. Special provisions for institutions of higher education. A university system may establish a policy that defines a person's employment as the total hours the person is assigned to one component of the system or, alternatively, the total hours the person is assigned to all components of the system. This policy may apply to a person only if the person is employed by more than one institution of higher education and all the employing institutions are within the same university system.

Sec. 11. Use of Alcoholic Beverages. None of the moneys appropriated under this Act shall be used for the payment of salaries to any employee who uses alcoholic beverages while on active duty. None of the funds appropriated under this Act for travel expenses may be expended for alcoholic beverages. No state funds shall be used for the purchase of alcoholic beverages, except for legitimate law enforcement purposes.

Sec. 12. Limitations on Use of Appropriated Funds. Funds appropriated by this Act, other than those appropriated to institutions of higher education, shall be expended only for items set out in the expenditure classifications of the Comptroller's Manual of Accounts insofar that agencies expending said appropriated funds shall have existing statutory authority for such expenditures and that such expenditures are not limited or prohibited elsewhere in this Act.

It is also provided that any agency of the state specified in this Act is authorized to pay the premiums for bonding employees. Such bonds shall be of either individual position or blanket position type, as provided by Chapter 653, Government Code.

As compensation in addition to that otherwise provided by this Act, departments and agencies appropriated funds by this Act are authorized to purchase and present to their respective employees or officers at periodic intervals under such rules and regulations as have been or may be adopted by the respective agencies named hereinabove, service awards, safety awards and other similar awards for professional achievement or other outstanding service. A state agency may purchase awards not to exceed fifty dollars (\$50) per employee.

For awards to volunteers, a state agency may expend funds appropriated by this Act to purchase engraved certificates, plaques, pins, and other awards of a similar nature that do not exceed \$50 in value per volunteer. The awards may be purchased only to recognize volunteers' special achievement and outstanding service and only if the agency has established a volunteer program that complies with Chapter 2109, Government Code, or with other applicable general law.

Sec. 14. **General Travel Provisions.**

1. The amounts appropriated in this Act to each state agency for the payment of transportation, meals, lodging, and incidental expenses shall be the maximum amounts to be expended by those agencies. None of the moneys appropriated by this Act may be expended for those expenses unless the travel and the resulting requests for payment or reimbursement comply with the conditions and limitations in this article.
2. Heads of agencies shall conserve the funds appropriated by this Act by maximizing economy and efficiency when planning the travel of state employees under their authority. In this connection, heads of agencies are responsible for ensuring that the expenses of transportation, meals, lodging, and incidental items are the lowest possible considering all relevant circumstances.
3. A head of agency may specify a reimbursement or payment rate that is less than the maximum rate specified in this article for transportation, meal, lodging, or incidental expenses. However, a lower rate applies only to travel occurring after a head of agency has notified his state employees in writing about the lower rate. A state agency is solely responsible for enforcing its lower reimbursement or payment rates.
4. Necessary and reasonable expenses for transportation, meals, lodging, and incidental expenses may be paid or reimbursed from the funds appropriated in this Act only when the purposes of the travel clearly involve official state business, are consistent with the legal responsibilities of the state agency represented, and, for the travel outside the State of Texas, the travel is approved in advance in accordance with the policy of the employing state agency.

None of the funds appropriated by this Act shall be used to pay or reimburse expenses for transportation, meals, lodging, and incidental expenses unless the travel voucher submitted to the Comptroller identifies persons contacted, places visited, or otherwise describes the nature of the official state business performed.

5. A state employee may claim extra travel time for the purpose of calculating reimbursement for meals, lodging, rental cars, parking, and other reimbursable expenses in order to take advantage of lower airfares if: (a) the cost of the additional expenses plus the lower airfare is less than or equal to the average coach airfare between the employee's designated headquarters and duty point, (b) the rental car was rented during the period of time when the employee conducted official state business, and (c) it is in the employing state agency's interest to allow the employee to be absent from headquarters for an additional period of time.
6. Requests for advance written approval for travel outside of the United States, except for Canada and Mexico, shall be submitted to the Governor as provided in Section 660.024, Government Code.
7. State employees from one state agency who provide services to another state agency may be reimbursed for their transportation, meals, lodging, and incidental expenses from the funds of the agency being served.

TRAVEL REGULATIONS (Continued)

8. A traveling state employee may be reimbursed for his incidental expenses in addition to his expenses for meals, lodging, and transportation. The Comptroller shall promulgate specific rules for the effective and efficient administration of this sub-section.
9. When this article authorizes state agencies to directly pay commercial lodging establishments or commercial transportation companies, agencies may instead directly pay credit card issuers or travel agencies for the lodging or transportation. The same documentation that would be required for a direct payment to a commercial lodging establishment or commercial transportation company is required for a direct payment to a credit card issuer or travel agency.
10. When a state agency requires a state employee on personal leave to return to his designated headquarters from another location, the agency may reimburse the employee for the transportation, meal, lodging, and incidental expenses he incurs while traveling to headquarters. In addition, the agency may reimburse the employee for the transportation, meal, lodging, and incidental expenses he incurs while traveling back to the location at which the employee was staying while on personal leave. The reimbursements authorized by this subsection may not exceed the reimbursement rates specified in this article.
11. A state agency may pay or reimburse a state employee for a cancellation charge if the charge is incurred for a reason related to official state business.
12. The Comptroller shall establish rules and procedures for the effective and efficient administration of the travel regulations in this article.
13. None of the funds appropriated by this Act may be expended for travel expenses associated with a training seminar conducted by an agency for its employees unless the agency head certifies, on the travel voucher or other expense reimbursement form, that the agency does not: i) possess, ii) have available at a cost less than the total travel costs associated with the seminar, or iii) have access to another agency's interactive television or video conference facilities at the designated headquarters of the employees attending the training.
14. The General Services Commission shall negotiate with commercial lodging establishments in order to achieve the most cost-effective rates possible for state employees while on travel status.
15. Each state agency shall utilize teleconferencing and other telecommunications technologies to the maximum extent possible in order to reduce agency travel expenditures.
16. All travel expenses paid or reimbursed by an agency must be limited to the necessary functions of the agency. In order to ensure compliance with this provision the Comptroller of Public Accounts and State Auditor's Office shall periodically examine the travel vouchers and other expense reimbursement forms submitted for payment under Sections 4, 15, and 16 of this article to determine:
 - a. whether the travel expenses were incurred in the conduct of official state business,
 - b. whether the state activities conducted while on travel status were necessary to execute the state business,
 - c. whether the travel was necessary to execute the state business conducted, and

TRAVEL REGULATIONS (Continued)

- d. in cases where more than one individual has submitted a travel voucher or claim for reimbursement of expenses for the same or similar travel occurrence, whether the number of individuals on travel status was necessary to execute the state business conducted.

If the State Auditor determines that the travel for which payment was made out of appropriated funds does not satisfy each of the four criteria set forth in the previous paragraph, the State Auditor shall so certify to the Comptroller of Public Accounts who shall reduce the appropriation of the agency which paid the travel expenses by an amount equal to the entire amount paid by the state for that individual for that travel occurrence.

The Comptroller of Public Accounts and the State Auditor's Office shall each develop procedures for examining travel vouchers and other expense reimbursement forms. The Comptroller of Public Accounts, when it reasonably believes that the travel criteria established by this section have not been satisfied, shall provide such information to the State Auditor's Office for review.

For the purpose of this section, the term "travel expense" shall include seminar tuition and fees.

The Comptroller shall prepare an annual report indicating the appropriation reductions, by agency, made pursuant to this provision for the previous fiscal year. The report shall be submitted to the Legislative Budget Board no later than December 1 of each year.

Sec. 15. **Transportation Expenses.**

1. State employees' use of personally owned or leased motor vehicles:
 - a. Mileage reimbursement rate. A state agency shall reimburse a state employee for using a personally owned or leased motor vehicle. The mileage reimbursement rate for travel occurring during a fiscal year is equal to the maximum fixed mileage allowance specified in the revenue rulings issued by the Internal Revenue Service under Section 1.274-5(f) of the federal income tax regulations as of August 1 preceding the start of the fiscal year. The mileage reimbursement rate may not be less than 25 cents per mile or more than 28 cents per mile. The Comptroller shall announce the mileage reimbursement rate for a fiscal year as soon as possible after August 1 of the preceding year. Except for tolls and the cost of airport parking or other parking fees incurred while employees are away from their places of employment, no additional expenses incidental to the operation of such motor vehicles shall be reimbursed.
 - b. Computing distances. The reimbursement authorized in this subsection for travel within the State of Texas shall be based upon the shortest route between points. For the purpose of computing the shortest route, farm-to-market roads shall be included.
 - c. Travel between a residence and the airport. State employees traveling in a personally owned or leased motor vehicle between their residence and the nearest airport may be reimbursed for mileage at the rate specified in Section 15(1)(a) of this article subject to the following provisions:
 - (1) If the travel occurs during working hours, the reimbursement may not exceed the reimbursement that would be due had the employee traveled between a place of employment and the airport.

TRAVEL REGULATIONS (Continued)

- (2) A state employee may be reimbursed for the mileage incurred by another person while transporting the employee between his residence and the nearest airport during working or non-working hours so long as the employee demonstrates that the reimbursement would be less than the cost of parking a personally owned or leased motor vehicle at the airport.
- d. Travel between a residence and a duty point. State employees who travel in a personally owned or leased motor vehicle between their residence and their duty point may be reimbursed for mileage at the rate specified in Section 15(1)(a) of this article subject to the following provisions:
 - (1) If the travel occurs during working hours, the reimbursement may not exceed the mileage that would have been paid had the employee traveled from his place of employment to his duty point.
 - (2) If the travel occurs before working hours on a working day, the reimbursement may not exceed the reimbursement that would be due had the employee traveled from a place of employment to a duty point. The preceding limitation does not apply if the employee is required to travel because of an unforeseen emergency that is related to official state business.
- e. Travel between a residence and a place of employment. A state employee may not be reimbursed for his mileage when he travels in a personally owned or leased motor vehicle between his residence and his place of employment unless (1) the travel is necessitated by extraordinary circumstances, and (2) the travel occurs during non-working hours.
- f. Mileage rate for travel outside of the State of Texas. State employees traveling alone may be reimbursed at the standard mileage rate for the use of their personally owned or leased motor vehicles while traveling outside the State of Texas in accordance with this paragraph. The reimbursement may not exceed either of the following: (a) the amount the employees would have received had they flown the average coach airfare below first class plus the expenses necessary to complete such flight or (b) the reimbursement calculated at the standard mileage rate for the actual miles traveled. Mileage, calculated at the standard mileage rate, between an employee's place of employment and the airport plus other necessary and reasonable expenses that would have been incurred at the airport had the employee flown, including parking fees, shall be considered as expenses necessary to complete a flight for the purpose of this paragraph.
- g. Travel by a group of state employees outside of the State of Texas. When two or more state employees travel together outside the State of Texas in a motor vehicle that is owned or leased by one of those employees, the reimbursement for the use of that vehicle shall be based upon the total miles between the motor vehicle owner's place of employment and the employees' destination at the standard mileage rate authorized elsewhere in this article. However, this reimbursement shall not exceed the total cost had each employee flown the average coach airfare below first class plus the expenses necessary to complete the flight as specified in Section 15(1)(f) of this article.
- h. Travel to points outside of the State of Texas that are not served by commercial airlines. State employees traveling either alone or with other state employees to duty points outside of the State of Texas that are not directly served by commercial airlines shall be reimbursed for their mileage. This reimbursement cannot exceed the sum of the following: (a) average coach airfare below first class to the nearest city served by air to the destination, (b) mileage between the nearest city served by

TRAVEL REGULATIONS (Continued)

air and the destination, and (c) the expenses necessary to complete the flight as specified in Section 15(1)(f) of this article.

2. Transportation in personally owned or leased aircraft:

- a. The rate of reimbursement to key officials, members of boards and commissions, and members of the Legislature for travel in their personally owned or leased aircraft within and without the boundaries of the State of Texas shall be forty cents (40¢) per highway mile when traveling in single-engine aircraft, fifty-five cents (55¢) per highway mile when traveling in twin-engine aircraft, and one dollar (\$1.00) per highway mile when traveling in turbine-powered aircraft.

When additional key officials, members of boards and commissions, or members of the Legislature are conveyed on trips within or without the boundaries of the State of Texas in privately owned or leased aircraft, they each shall receive as a mileage reimbursement an amount equal to that which would have been paid had they traveled by average coach airfare below first class. The Comptroller shall develop procedures whereby these multiple reimbursements can be aggregated into a single payment and paid either to the individual owning or leasing the aircraft or to the vendor providing a leased aircraft; however, the total reimbursement shall not exceed the actual cost of the trip.

Key officials, members of boards and commissions, and members of the Legislature may lease aircraft from a proprietorship, partnership, or corporation in which they have an interest. Reimbursement shall be at the rates established for travel by personally owned or leased aircraft.

- b. The rate of reimbursement for state employees when they travel in their personally owned or leased aircraft within and without the boundaries of the State of Texas shall be forty cents (40¢) per highway mile when traveling in single-engine aircraft and fifty-five cents (55¢) per highway mile when traveling in twin-engine aircraft.

3. Travel by rented or public conveyance:

- a. When a state employee travels by rented or public conveyance, the actual cost of transportation is payable from funds appropriated in this Act subject to the following limitations.
- (1) The cost of commercial air transportation between an employee's designated headquarters and his duty point must be equal to the lowest rate available. First class airfare may be paid only if it is the only available airfare.
 - (2) The cost of transportation by limousine may be paid only if it is the lowest cost transportation considering all relevant circumstances.
- b. State agencies may pay the expenses associated with state employees traveling by rented or public conveyance in either of two ways at the option of each head of agency.
- (1) When state employees pay for authorized travel by rented or public conveyance with their personal funds, they shall be reimbursed for that travel in accordance with this Article. Receipts for such transportation, excluding receipts for bus, taxi, or limousine fares, shall be submitted to the Comptroller or processed locally by the institution as attachments to the employee's travel voucher.

TRAVEL REGULATIONS (Continued)

- (2) A head of agency may request a commercial transportation company to furnish transportation to designated state employees of such agency. The cost of the transportation services shall be billed monthly to the agency. The Comptroller may issue a warrant or the institution may issue a check payable to a commercial transportation company only upon the submission by a state agency of a voucher showing the purpose of travel and the necessary approval by the agency. An official receipt from the commercial transportation company showing the details of the transportation must be attached to the voucher.

To facilitate auditing of billings from commercial transportation companies, such companies shall list on their billings the point of origin and point of destination of each trip and shall also show the taxes charged. In addition, on each voucher submitted to the Comptroller for processing or processed locally by the institution, state agencies shall specify in detail the official state business conducted on each trip.

4. State agencies may directly pay commercial transportation companies prior to the travel of their employees if the companies required the payments to be made in advance in order to obtain lower rates. Cancellation charges are payable if they are incurred because of a business-related reason. The Comptroller shall promulgate rules for the effective and efficient implementation of this paragraph.
5. Return from personal leave: Employees on personal leave at a location outside of their designated headquarters who are required by their heads of agencies to return to their designated headquarters may be reimbursed for the cost of their transportation to headquarters as provided in this section.

Sec. 16. Expenses for Meals and Lodging.

1. General provisions:
 - a. Heads of agencies shall conserve funds by authorizing less than the maximum reimbursements for meals or lodging, or both, when conditions warrant. However, reductions in the amount of reimbursements for meals or lodging, or both, may be authorized only if the affected state employees are notified of those reductions before they incur any expenses. Employees whose living costs are unusually low when traveling, such as those camping out, shall not be reimbursed for their meals and lodging at the maximum rates.
 - b. When a state employee stays at a commercial lodging establishment, the head of his employing state agency may request the lodging establishment to directly bill the agency for the cost of the lodging. The Comptroller may issue a warrant payable to the commercial lodging establishment only upon the submission of a voucher showing the name and designated headquarters of the employee, the room rate for a single occupancy, and the lodging charges on a daily basis. An official receipt from the commercial establishment must be attached to the voucher.
 - c. Each state employee who travels with one or more additional employees in a motor vehicle that is owned or leased by one of those employees shall be reimbursed for the meals and lodging incurred during the trip subject to the limitations contained in this Section.
 - d. No reimbursements for meals and lodging may be paid to state employees when they travel within the confines of their designated headquarters or when they are away from their designated headquarters for fewer than six consecutive hours.

TRAVEL REGULATIONS (Continued)

- e. State employees, board or commission members, must attach the actual receipts for lodging expenses to their travel vouchers when requesting reimbursement of those expenses. A head of agency other than a member of a board or commission is not required to attach lodging receipts.
 - f. Travel to foreign countries, except for Canada and Mexico, must be approved by the Governor in advance of the travel in accordance with Section 660.024, Government Code. A copy of the Governor's approval must be attached to each travel voucher.
 - g. A state agency may reimburse a state employee for a state, county, or local hotel occupancy tax or any similar tax imposed by a law of this state or another state. A state agency may reimburse a state employee for a state, county, or local hotel occupancy tax from which the employee is exempt by law if the employee properly claims the exemption and the commercial lodging establishment refuses to honor the exemption. If a state agency directly pays a commercial lodging establishment instead of reimbursing an employee, then the agency may directly pay the tax to the commercial lodging establishment.
 - h. A state agency may reimburse a state employee for apartment rental expenses. The Comptroller shall adopt rules to facilitate a state agency's conservation of state funds by renting an apartment in lieu of using another type of commercial lodging establishment.
2. Travel within the State of Texas:
- a. State employees who travel within the State of Texas shall be reimbursed for the actual cost of lodging and meals. However, the reimbursements may not exceed \$70.00 per day per location for lodging and \$25.00 per day for meals.
 - b. At the discretion of each head of agency, a state employee whose duties require him to travel outside his designated headquarters without an overnight stay away from his headquarters may be reimbursed for the actual cost of his meals not to exceed \$25.00 per day.
3. Travel outside the State of Texas but within the continental United States:
- a. State employees who travel outside the State of Texas but within the continental United States shall be reimbursed for their actual expenses for lodging and meals. However, these reimbursements may not exceed the locality-based rates specified in the Federal Travel Regulations unless the Comptroller determines, in advance of travel, that local conditions necessitate a change in the lodging rate for a particular location. If an employee travels to a location where a locality-based allowance has not been set in the Federal Travel Regulations, the Comptroller shall establish a rate for that location. This rate cannot exceed the median locality-based allowance for that state unless the Comptroller determines, in advance of travel, that local conditions necessitate a higher lodging rate.
 - b. Reimbursements for meals to employees whose travel does not require an overnight stay away from their designated headquarters may not exceed \$26.00 per day.
4. Travel outside the continental United States: State employees may receive reimbursements of their actual expenses for meals and lodging when traveling outside the continental United States.

2. The governing board of each institution of higher education may delegate to its president, chief executive, vice presidents, deans, or fiscal officers the authority to approve travel and the resulting payments and reimbursements. However, such delegations of authority shall specify the kind of travel that may be approved and the termination date of the delegated authority. The delegation of authority shall be entered in the official minutes of each governing board, and a copy of those minutes shall be filed with the Comptroller.

Sec. 18. Special Provisions and Exceptions.

1. **Applicability of this section:** The provisions of this section apply only to the extent that they are inconsistent with or supplementary to the provisions of Sections 14, 15, 16 and 17 of this article.

This provision also applies to the meals, lodging, and incidental expenses legislators incur while serving on boards, councils, committees, or commissions.
 - (2) If expenses are incurred in a location for which the federal travel regulations have not specifically established a maximum per diem rate, the amount is equal to the lowest maximum per diem rate for the state, territory, possession, or country in which the expenses are incurred.
 - (3) When traveling inside or outside the State of Texas, a legislator shall be reimbursed for the legislator's use of personally owned or leased motor vehicles and for the legislator's use of rented or public conveyances on the same basis as is provided in this article for state employees. The rate of reimbursement for a legislator's use of a personally owned or leased aircraft is

- b. During a session of the Legislature, a member of the Legislature may be reimbursed for either transportation expenses on the same basis as is provided for state employees or shall be entitled to mileage on the same basis as is provided for state employees.
5. Travel by employees of the Legislature:

 - b. When traveling inside the State of Texas, employees of the Legislature may be reimbursed for their actual expenses for meals and lodging in accordance with Section 301.030(a), Government Code.

The designations authorized in this sub-section must occur on a trip-by-trip basis.

Members of the Legislature, judicial officers, heads of agencies, the Executive Director of the Legislative Council, the Secretary of the Senate, and members of state boards and commissions may authorize state employees traveling with them to receive reimbursement of their actual expenses for meals and lodging.
7. Aircraft pilots: Aircraft pilots shall be reimbursed for their actual expenses for meals and lodging on the same basis as provided in this article for state employees. However, aircraft pilots are not subject to the requirement of being away from their designated headquarters for at least six consecutive hours in order to qualify for reimbursements of their meals.

9. Members of state boards and commissions shall be reimbursed for travel expenses pursuant to the provisions of Section 4 of this article.
10. Travel by disabled persons:
 - a. Notwithstanding any other provision of this article, state agencies may reimburse disabled state employees and disabled members of the Legislature for attendant care and other necessary expenses incurred when they travel inside or outside their designated headquarters. However, disabled persons may not be reimbursed for the expenses incurred when traveling from their residences to their places of employment except as provided in this Act for state employees.

TRAVEL REGULATIONS (Continued)

- b. First class airfare for the disabled and their attendants may be reimbursed so long as that airfare is medically necessary.
 - c. None of the reimbursements authorized in this sub-section may be paid until the employing state agency has established policies and procedures for the travel of disabled persons. The reimbursements authorized in this sub-section shall be in addition to the reimbursements authorized elsewhere in this Article.
11. Reimbursement for meals and lodging as authorized by this section on an “actual expenses” or “actual amount of” basis shall not exceed twice the maximum rates specified in Section 16.2 of this article in the case of travel within the State of Texas and shall not exceed twice the maximum rates specified in Section 16.3 of this article in the case of travel outside the State of Texas but within the continental United States.

Sec. 19. **Moving Expenses of State Employees.**

- 1. A state agency may use funds appropriated by this Act to pay the reasonable, necessary, and resulting costs of moving the household goods and effects of a state employee who is reassigned by the agency from one designated headquarters to another designated headquarters with that agency if the agency determines that the best interests of the State will be served by such reassignment and the distance between the two designated headquarters is at least 25 miles. A state agency may pay the costs of moving the household goods and effects of any state employee who is employed at any facility that is being closed or downsized, if the agency retains that employee by offering a position in another location that is at least 25 miles from the location being closed or downsized. The authorization provided by this subsection shall not apply to a transaction fee or sales commission for sale of a homestead or other real property.
- 2. State-owned equipment shall be used to move the household goods and effects of transferring state employees. However, when such equipment is unavailable, state agencies may pay for the services of a commercial transportation company or for self-service vehicles to make the move.
- 3. The use of appropriated funds as authorized in this Section is expressly conditioned upon presentation to the Comptroller of bona fide receipts or invoices showing the applicable charges.
- 4. Transferring state employees may be reimbursed at the standard mileage rate for reasonable and necessary moving-related travel by personally owned or leased motor vehicle.
- 5. State employees who will be required to live in state-owned housing may be reimbursed for the storage expenses incurred when the housing is not available at the time the employing state agency requires the move to be made.

Sec. 20. **Passenger and Other Vehicular Equipment (excluding Aircraft).**

Development Board, Board of Plumbing Examiners, Board of Pharmacy, Low-Level Radioactive Waste Disposal Authority, Polygraph Examiners Board.

2. For the purposes of the above limitation, the following vehicular equipment shall not be construed to be passenger cars and other vehicles designed for passenger transportation and may be purchased, operated, and maintained by an agency through appropriated funds: panel, pickup and delivery trucks and trucks required for the conveyance of special equipment; motorcycle delivery units; dual control automobiles used exclusively for driver training; passenger cars equipped with two-way radios when such equipment is a direct requirement of the user's primary responsibility; motorcycles, jeeps, and boats needed and used for fire prevention, fire fighting and other activities for safeguarding public safety, public property, or for criminal law enforcement; ambulances or other passenger vehicles specifically equipped and regularly used for ambulance services; buses, sedans, vans and station wagons regularly used for the mass transportation of numbers of people and essential to the efficient management of the operating agency of the state as certified by a report filed with the Governor's Budget and Planning Office and the Legislative Budget Board prior to acquisition.
3. It is the intent of the Legislature that agencies authorized to purchase passenger vehicles and/or other general use ground transportation vehicles shall purchase economical, fuel efficient vehicles assembled in the United States of America when the purchase of such vehicles would have no significant detrimental effect on the public service being performed. Each agency purchasing vehicles as authorized in this Act shall file, as a part of the annual report required elsewhere in this Article, a report listing each passenger vehicle purchased, make and model, purchase price, assigned type of use and fuel efficiency as expressed by the manufacturer fuel efficiency rating.
4. No funds appropriated by this Act may be expended by any agency or employee or state official to use a state car for personal use or for commuting to or from work, except when such commuting may be necessary to ensure vital agency functions are performed. Exceptions and reasons therefore shall be certified by individual name and job title by the administrative head of each affected agency and reports of such exceptions shall be filed in the annual report of the agency.

Sec. 21. **Aircraft.**

1. This subsection shall apply only to state-owned aircraft and shall be the only appropriation authority therefor:
 - a. No purchase of aircraft shall be made from appropriated funds except as authorized in this Section.
 - b. Agencies authorized to expend appropriated funds for the maintenance and operation of state-owned aircraft or replacements authorized below are: Texas A&M University System, Department of Criminal Justice, Department of Transportation, Parks and Wildlife Department, Department of Public Safety, University of Texas System, Texas State Technical College, Texas Forest Service, and Aircraft Pooling Board. Notwithstanding any other provision of this Act, all state-owned aircraft (including aircraft forfeited to or seized by a particular agency) are subject to the authority of the Aircraft Pooling Board under Chapter 2205, Government Code.
 - c. Expenditure of appropriated funds for replacement of the above aircraft with aircraft of comparable quality may be made contingent upon approval of the

TRAVEL REGULATIONS (Continued)

Aircraft Pooling Board and a finding of fact by the Governor that a report has been filed with his office showing:

- (1) That the aircraft to be replaced has been destroyed or has deteriorated to an extent that continued operation presents a serious hazard or that the aircraft to be replaced can no longer meet the mission requirements of the principal user state agency.
 - (2) That other state-owned aircraft cannot be effectively utilized in lieu of a replacement aircraft.
- d. It is the intent of the Legislature that state-owned aircraft be utilized by all agencies of the state. To determine the extent to which this intent is being met, agencies operating state-owned aircraft shall file an annual report with the Legislative Budget Board detailing utilization by other agencies and the methods used to increase the utilization. Statewide-elected officials shall be given priority in the scheduling of aircraft, however, the State Aircraft Pooling Board may require a twelve (12) hour notice by an official in order to accomplish such priority scheduling.
- e. The Aircraft Pooling Board shall purchase liability insurance to protect the officers and employees of state agencies operating state-owned aircraft. Expenditures necessary to purchase such insurance shall be made on a pro rata basis, as determined by the Aircraft Pooling Board, from appropriations authorized to each agency operating a state-owned aircraft. The Comptroller shall transfer such necessary amounts from agencies operating aircraft to the Aircraft Pooling Board for the purchase of liability insurance and expenditure of such funds by the board is hereby authorized.
- f. All state agencies operating aircraft based in Austin shall use State Aircraft Pooling Board facilities for storage, maintenance, and fueling of these aircraft to the extent that State Aircraft Pooling Board facilities are available.
- g. All agencies using State Aircraft Pooling Board services shall reimburse the State Aircraft Pooling Board for providing services within 30 days from the date of billing.
- h. Any reimbursements received by an agency of the state for authorized aircraft services rendered to any other agency of the state are hereby reappropriated to the agency receiving such reimbursements, and shall be credited to the agency's appropriation item or items from which the cost of aircraft operation is paid.
- i. All rates charged for interagency aircraft services shall be approved by the Aircraft Pooling Board and shall be set at levels adequate for recovery, to the extent possible, of all direct costs (including the pro-rata share of major maintenance, overhauls, and pilots' salaries) for the services provided.
- j. Except for appropriations made to the State Aircraft Pooling Board and the Comptroller of Public Accounts, no appropriations made in this act may be expended for lease or operation of aircraft, unless used only for transportation which meets the following criteria:
- (1) the purpose of the trip is official state business;

TRAVEL REGULATIONS (Continued)

- (2) all passengers are state officers or employees, or are persons in the care or custody of state officers or employees, or are persons whose transportation furthers the official state business purpose of that flight;
 - (3) the destination is not served by commercial carriers, or the time required to use such a carrier interferes with other obligations, or the number of state officers and employees traveling makes the use of state aircraft cost effective;
 - (4) any speeches to be given by passengers are related to official state business;
 - (5) events attended by passengers are not sponsored by a political party or for its promotion;
 - (6) no fees or honorariums are received by passengers, unless travel costs are reimbursed to the state;
 - (7) no money is raised for private or political purposes; and
 - (8) audiences are not charged to see or hear any of the passengers.
2. This subsection shall apply to expenditure of funds in connection with aircraft not owned by the state.
- a. In the event that a need arises and no state-owned aircraft are available through the Aircraft Pooling Board, or if the board determines that long or short-term lease or rental of aircraft would reduce the cost of transportation to the State of Texas, the board shall authorize state agencies to expend funds for such lease or rental of aircraft or helicopters.
 - b. Other than mileage reimbursements provided for in this Act, none of the funds appropriated by this Act may be expended for the lease or rental of aircraft except as authorized in the preceding paragraph.

Sec. 22. **Earned Federal Funds.**

- a. Earned federal funds are defined as all moneys received in connection with each entitlement period of a federally funded contract, grant or program, excluding reimbursements as defined in Section 106(1)(b), which are not required by the governing agreement to be disbursed thereon. Typically, they arise from recoveries of costs previously paid from a nonfederal fund source, indirect cost allocations, interest earned on federal funds, and minor sources such as the sale of fixed assets purchased with federal funds. Except for state agencies of higher education and their affiliated agencies, the expenditure of funds received and/or earned in accordance with this definition by state agencies is limited to the appropriation authority granted to each agency. Any such excess funds remaining at the end of the biennium for each agency are to be carried forward as a funding source available for appropriations of the subsequent biennium.
- b. It is the intent of the Legislature that all state agencies and institutions participating in federally funded or other programs, where indirect cost reimbursements are an

allowable part of charges to the program, establish procedures to maximize the recovery of such costs.

Sec. 23. **Definition of "U.B."** In this Act, the term "unexpended balance" or the abbreviation "U.B." means the unobligated balance remaining in any appropriation, i.e., only that part of an appropriation, if any, that has not been set apart by the incurring of an obligation, commitment, or indebtedness by the state agency authorized to spend the appropriation. A reference in this Act to "unexpended balance" or "U.B." is a reference to the unobligated balance of an amount appropriated by this Act for the fiscal year ending August 31, 1998, unless a contrary meaning is clearly indicated.

Sec. 24. **Interpretation of Estimates.** In the event the amounts of federal funds, local funds, or funds other than appropriations from the General Revenue Fund, have been estimated in this Act in sums greater than are actually received by the respective agencies of the state, this Act shall not be construed as appropriating additional funds from General Revenue to make up such differences. Wherever the language of this Act appropriates all receipts and/or balances from a specified source but uses an estimated amount to inform the Legislature and the public, the estimated figure is not to be construed as a limitation on the amount appropriated.

Sec. 25. **Emergency and Deficiency Grants out of Special Funds.** For the purposes of V.T.C.A., Government Code, Section 403.075 and V.T.C.A., Government Code, Section 401.061, appropriations to the Office of the Governor from "special funds" shall include excess revenues from General Revenue Fund-Dedicated accounts that were previously special funds above those estimated by the Comptroller in certifying this Act.

GENERAL LIMITATIONS ON EXPENDITURES

Sec. 26. **Excess Obligations Prohibited.** No department or agency specified in this Act shall incur an obligation in excess of the amounts appropriated to it for the respective objects or purposes named. As a specific exception to this provision the General Services Commission may determine that a proposed installment purchase arrangement is cost effective and certify this finding in response to an agency request. Such a finding may be made for obligations incurred for the purchase or lease of automated information system equipment only if such department or agency has on file with the Department of Information Resources (DIR) a Biennial Operating Plan, including any amendments thereto, and such plan has been approved by DIR. In the event this provision is violated, the State Auditor shall certify the fact and the amount of over-obligation to the Comptroller, and the Comptroller shall deduct an amount or amounts equivalent to such over-obligation from the salary or other compensation due the responsible disbursing or requisitioning officer or employee, and apply the amount to the payment of the obligation. This provision is specified pursuant to Section 10, Article XVI, of the Constitution of Texas.

Sec. 27. **Interpretation of Legislative Intent.** It is the intent of the Legislature that funds appropriated by this Act be expended, as nearly as practicable, for the purposes for which they were appropriated. In the event departments and agencies cannot determine legislative purpose from the pattern of appropriations they shall seek to determine that purpose from the proceedings of the legislative committees responsible for proposing appropriations for the State of Texas.

It is further provided that the Comptroller shall not refuse to pass for payment a legal claim, factually justified, for which a valid appropriation has been made.

Sec. 28. **Last Quarter Expenditures.** It is specifically provided that all state agencies, boards, commissions, departments and other governmental units using funds appropriated by this Act may not expend during the last quarter of any fiscal year more than one-third of the funds appropriated for that fiscal year. Specifically exempted from these provisions are expenditures contracted for in previous quarters; funds required by statute, rule or regulation to be expended on a different time frame;

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

seasonal employment of personnel; construction contracts; contracts dealing with purchases of food, medicines or drugs; personnel connected with the phase-in of schools for the mentally retarded; expenditures related to the Chronically Ill and Disabled Children's program operated by the Department of Health; and expenditures occasioned by disaster or other Act of God. None of the funds exempted from this section may be considered in the computation of the total funds appropriated in any fiscal year for the purpose of this section.

Sec. 29. **Appropriation Transfers.** Subject to any specific restrictions in other provisions of this Act, appropriations contained in this Act may be transferred from one appropriation item to another appropriation item in amounts not to exceed 25 percent for the fiscal year, at the discretion of the chief administrative officer of the agency, department, or institution. As a specific exception to this section, funds appropriated for capital budget items are subject to restrictions contained elsewhere in this Act.

Funds appropriated by this Act in items of appropriation which are part of a Goal for "Indirect Administrative and Support Costs" or "Indirect Administration" may also be transferred from one appropriation item to another appropriation item within that same Goal without limitation as to the amount of such a transfer.

Appropriations made by this Act to each state agency or institution of higher education are not subject to transfer between agencies or institutions except under the provisions of interagency contract, budget execution statutes, or specific rider or statutory authorization.

Sec. 30. **Employee Benefit and Debt Service Items.** Funds appropriated in the various articles of this Act for "Employees Retirement System", "Social Security State Match", "Benefit Replacement Pay", "Texas Public Finance Authority-G.O. Bond Debt Service Payments", and "Lease-Payments to the Texas Public Finance Authority" may be transferred between articles to a like appropriation item without limitation as to the amount of such transfer. It is further provided that an agency to which an above mentioned appropriation is made is authorized to pool such appropriations, made in the various articles for a common purpose, into a single cost pool for the purpose of administering the appropriation.

Sec. 31. **Salaries to be Proportional by Fund.** It is the intent of the Legislature that unless otherwise restricted, payment for salaries, wages, and benefits paid from appropriated funds, including local funds and education and general funds as defined in Sections 51.009 (a) and (c), Education Code, shall be proportional to the source of funds.

Unless otherwise specifically authorized by this Act, none of the funds appropriated by this Act out of the General Revenue Fund may be expended for employee benefit costs, or other indirect costs, associated with the payment of salaries and wages if the salaries and wages are paid from a source other than the General Revenue Fund. Payments for employee benefit costs for salaries and wages paid from sources, including payments received pursuant to interagency agreements or as contract receipts, other than the General Revenue Fund shall be made in proportion to the source of funds from which the respective salary or wage is paid or, if the Comptroller of Public Accounts determines that achieving proportionality at the time the payment is made would be impractical or inefficient, then the General Revenue Fund shall be reimbursed for any such payment made out of the General Revenue Fund. The Comptroller of Public Accounts shall develop rules to provide for the administration of this provision.

Each agency and institution of higher education having General Revenue Fund appropriations and other sources of financing shall file with the Comptroller of Public Accounts and the Office of the State Auditor a schedule demonstrating proportionality. The statement is due January 15, for the salaries, wages, and benefits of the preceding year ended August 31, in a format prescribed by the Comptroller. The State Auditor shall review in his audit of respective agencies compliance with the provisions of this section. The Comptroller of Public Accounts, upon receipt of notification from the State Auditor's office of amounts disproportionately paid from General Revenue Fund appropriations,

GENERAL LIMITATIONS ON EXPENDITURES
(Continued)

shall reduce current year General Revenue Fund appropriations of the agency or institution until such time as such amounts are repaid from non General Revenue Fund sources.

GENERAL LIMITATIONS ON EXPENDITURES (Continued)

Sec. 32. Appropriations from Special Funds.

1. Notwithstanding other provisions of this Act, appropriation amounts from special funds or special accounts in the General Revenue Fund are specifically limited to amounts not to exceed the actual balances and revenues available to each such fund or account.
2. In order to preserve cash balances in the state treasury, the Comptroller of Public Accounts may prescribe rules and procedures as may be necessary to limit or control expenditures or transfers from funds appropriated by this Act. These procedures may include rules relating to the deposit of receipts and issuance of warrants.

OTHER EXPENDITURE LIMITATIONS

Sec. 33. **Limitation on Grants to Units of Local Government.** None of the funds appropriated by this Act shall be expended in the form of a grant to, or a contract with, a unit of local government unless the terms of the grant or contract require that the funds received under the grant or contract will be expended only subject to limitations and reporting requirements similar to those contained within the following sections of this article:

- i. Section 1, including only the position classification plan and schedule and the salary administration provisions, except that nothing in this section requires increased salaries for local government employees,
- ii. Sec. 5, Political Aid and Legislative Influence Prohibited,
- iii. Sec. 11, Use of Alcoholic Beverages,
- iv. Sec. 66, Performance Rewards and Penalties,
- v. Sec. 85, Budgeting and Reporting,
- vi. Sec. 86, Annual Reports and Inventories,
- vii. Sec. 95, Internal Audit Findings, and
- viii. each section within the division of this article labeled "Travel Regulations" (Sections 13 through 21) provided that in a case a hotel is unable or unwilling to provide Boards or their employees or agents with a rate equivalent to that provided to state employees, or in the cases in which the negotiated conference rates for officially sanctioned conferences or meetings exceed the allowed state reimbursement rates for lodging, an exception is granted.

For the purpose of this section, the term "unit of local government" shall mean a council of governments, a regional planning commission, or a similar regional planning agency created under Chapter 391, Local Government Code; a Local Workforce Development Board; or an MHMR community center.

Sec. 34. Limitation on State Employment Levels.

- a. A state agency, other than an institution of higher education, shall not have on its payroll, without the written approval of the Governor and the Legislative Budget Board, a number of employees which would cause the number of full-time equivalent employees (FTEs) employed by the agency for a fiscal quarter to exceed the "Number of Full-time Equivalent Positions (FTE)" figure indicated by this Act for that agency.
- b. A request to exceed the FTE limitation established by this section must be submitted by the governing board of the agency and must include at a minimum: 1) the date on which the board approved the request; 2) a statement justifying the need to exceed the limitation; 3) the source of funds to be used to pay the salaries; and 4) an explanation as to why the functions of the proposed additional FTEs cannot be performed within current staffing levels.

OTHER EXPENDITURE LIMITATIONS (Continued)

- c. For the purpose of subsection (a), the number of FTEs employed by an agency for a fiscal quarter shall be determined in accordance with the report filed pursuant to Section 2052.103, Government Code, but shall not include employees paid with funds held outside of the state treasury and shall not include overtime hours.
- d. This section shall not apply to appropriations made by this Act to the appellate courts.
- e. Notwithstanding language in subsection (a), this section shall apply to the Texas A&M service agencies. For a Texas A&M service agency with an "FTE - Appropriated Funds" and an "FTE - Total", the FTE limitation established by subsection (a) shall be the "FTE - Appropriated Funds" figure.

Sec. 35. **Limitation on State Employment Levels: Institutions of Higher Education.**

- a. An institution of higher education, other than a Texas A&M service agency, shall not have on its payroll, without the written approval of the Governor and the Legislative Budget Board, a number of employees which would cause the number of full-time equivalent employees (FTEs) employed by the institution for a fiscal year to exceed the "Number of Full-time Equivalent Positions (FTE) - Total" figure indicated by this Act for that institution.
- b. A request to exceed the FTE limitation established by this section must be submitted by the governing board of the institution and must include at a minimum: 1) the date on which the board approved the request; 2) a statement justifying the need to exceed the limitation; 3) the source of funds to be used to pay the salaries; and 4) an explanation as to why the functions of the proposed additional FTEs cannot be performed within current staffing levels.
- c. For the purpose of subsection (a), the number of FTEs employed by an institution of higher education for a fiscal year shall be determined in accordance with the reports filed pursuant to Section 2052.103, Government Code, and shall be an average of the four reports filed for that fiscal year, and shall include employees paid with funds held outside of the state treasury but shall not include overtime hours.

Sec. 36. **Quarterly FTE Report.** The State Auditor's Office, after consultation with the Texas State Agency Business Administrator's Association, Texas Higher Education Coordinating Board and the Texas Association of State Senior College and University Business Officers, will develop standardized reporting requirements for budgeted and vacant positions pursuant to Section 2052.103, Government Code, for state agencies and institutions of higher education as reported in their quarterly FTE reports.

Sec. 37. **Audits.** None of the appropriations made by this Act shall be used to employ any firm or person to audit the books of any department, board, commission, institution or state agency, this being the duty of the State Auditor; provided, however, that in any instance where the funds available to the State Auditor are not, in the State Auditor's judgment, sufficient for any requested or contemplated audit, the department head or heads having authority to disburse the appropriations made by this Act are hereby authorized to direct the Comptroller of Public Accounts to transfer from any appropriations to the appropriation made for the State Auditor the amount which in the judgment of the State Auditor is necessary for the purpose of making such audit.

Any amount so transferred to the State Auditor shall be used for the actual costs of the specified audit, and any balances of such funds remaining at the end of any fiscal year are hereby appropriated to the State Auditor for the purpose of completing the audit or audits for which the funds were transferred. On the completion of any such audits any excess funds remaining shall be transferred by the State Auditor back to the department, board, commission, institution or agency from which transferred.

OTHER EXPENDITURE LIMITATIONS (Continued)

The provisions of this Section notwithstanding, supplemental audits of funds received from the United States Government by agencies of the state named in this Act, which are required as a condition of the receipt of such funds, may be made in addition to the auditing performed by the State Auditor when funds for such purpose are provided by the federal grant, allocation, aid or payment.

Notwithstanding other provisions of this Act, any state agency providing grants or operating funds for governmental programs to local governmental units, private corporations, or other organizations other than a state agency or department, may require, as a condition to granting or providing such funds, that the receiving entity have a yearly independent audit performed and transmitted to the state agency. If sufficient personnel are available, the state agency may have its internal audit staff make a yearly inspection visit to the local entity. The state agency shall take action on exceptions noted in the independent audits and provide documentation of that action to the State Auditor, Legislative Audit Committee, Legislative Budget Board and the Governor's Office. Notice of such action shall be given at the board meeting of the state agency and shall be announced on the agenda of that meeting.

Sec. 38. Purchases of Postage. Except as otherwise provided in this section, the funds appropriated by this Act may be expended for purchasing postage only from, or paying post office box rent only to, the United States Postal Service. However, the preceding limitation does not apply to any reimbursement authorized under either Section 107 of this article or Section 8.3. of Article III of this Act; to reimbursements to any authorized petty cash account; or, to reimbursements to state employees for emergency purchases of postage or emergency payments of post office box rent.

If the expenditures for postage by any agency, other than the legislature or an institution of higher education, exceed \$4,000 for a fiscal year, then the agency shall install a postage meter machine and have all purchases of postage recorded on that machine, excepting purchases of stamps for field offices or traveling employees. An agency, including the legislature or an institution of higher education, may rent a postage meter machine from a private company approved by the General Services Commission and may pay the company for postage in accordance with procedures established by the commission.

The amount received by an agency as a refund of postage used by the agency shall be deposited in the fund to the credit of the appropriation from which postage for the agency is paid and is hereby reappropriated to the agency for postage use.

The Comptroller of Public Accounts shall adopt procedures to implement this section after consulting with the General Services Commission.

It is the intent of the Legislature that state agencies and institutions of higher education use the most cost-effective means of postal service available.

Sec. 39. Publication or Sale of Printed, Recorded, or Electronically Produced Matter or Records. None of the funds appropriated by this Act may be used for the publication, recording, production, and distribution of any item or matter, including lists, notices, pamphlets, video tapes, audio tapes, microfiche, films or other electronically produced information or records unless such publication, recordings, or production is i) essential to accomplish or achieve a strategy or outcome target established by this Act or ii) required by law.

Any moneys received and collected from any charges specifically authorized by statute for such publications or records are hereby appropriated to the department or agency issuing the publications for use during the year in which the receipts are collected. The Comptroller of Public Accounts is to credit such receipts to the like appropriation item or items from which the original costs are paid.

OTHER EXPENDITURE LIMITATIONS (Continued)

Sec. 40. **Distribution of Reports.**

1. None of the funds appropriated by this Act shall be expended for the purpose of distributing reports, pamphlets or other printed matter to members of the Legislature and other state officials unless the agency receiving the appropriation has complied with the following provisions:
 - a. Agencies shall deposit copies of all printed matter prepared for distribution with the Legislative Reference Library.
 - b. Agencies desiring to make distribution to members of the Legislature and other state officials shall send notification that the material is on file and upon request of the person notified shall mail the number of copies requested, provided that this subsection shall not prevent the mailing of reports required by general law or by this Act.
2. Required reports and minutes of board meetings shall be made available to members of the Legislature and legislative branch agencies in an electronic format as established by the Legislative Council.
3. None of the funds appropriated by this Act shall be used to produce any publications which have been reproduced on enamel coated, cast coated or dull coated stock, unless a fee is charged.

Sec. 41. **Publications.**

1. None of the funds appropriated by this Act shall be expended in the preparation and distribution of any publication, except for Texas Highways, Texas Parks and Wildlife Magazine, and Commission on Alcoholism and Drug Abuse publications, whose cost is not totally reimbursed through revenue attributable to its publication or sale if the content or format of the publication is: (1) intended for use by the general public; (2) generally informational, promotional, or educational; and (3) not essential to the achievement of a statutory objective of the agency or institution. Publications specifically exempted from this prohibition are the following: (1) annual reports and other materials that are required by statute and whose content deals only with topics set forth in the law; (2) compilations of law, rules, or regulations; (3) newsletters; (4) Attorney General opinions; and (5) Comptroller opinions, revenue forecasts and fiscal analyses.
- † 2. None of the funds appropriated by this Act shall be used to print publications of any type which prominently displays the name or picture of statewide elected officials or any appointed officer of the state. For the purpose of this provision, the term “appointed officer” shall have the meaning assigned by Section 572.022 (1), Government Code.
3. All units of state government and all local political subdivisions which expend appropriated state funds to publish periodicals on quarterly intervals or more frequently than quarterly intervals at no charge shall insert annually in such periodicals a notice, in three consecutive issues, indicating that anyone desiring to continue to receive the publication must so indicate in writing. The agency shall furnish future publications only to those persons so requesting.
4. None of the funds appropriated by this Act shall be used to produce any publications which have been reproduced on enamel coated, cast coated or dull coated stock, or which contain more than one photograph for each two pages of the publication unless a fee is charged for the publication that recovers the cost of its production. Publications

OTHER EXPENDITURE LIMITATIONS (Continued)

which promote tourism or economic development, publications of the School for the Blind and Visually Impaired and the School for the Deaf, and publications of institutions of higher education are exempt from this subsection.

Sec. 42. **Limitation on Expenditures - Capital Budget.** Contained in appropriations made to certain agencies by this Act are amounts identified as the "Capital Budget." None of the funds appropriated by this Act in excess of an amount equal to 25 percent of appropriations restricted to capital budget purposes may be expended, in addition to the amounts restricted for capital budget purposes, for purposes included within the definition of capital budget without the prior approval of the Governor and Legislative Budget Board. A request for approval to exceed the limitation on capital budget expenditures must be submitted by the agency's governing board and must include at a minimum: 1) the date on which the board approved the request; 2) a statement justifying the need to exceed the limitation; 3) the source of funds to be used to make the purchases; and 4) an explanation as to why such expenditures cannot be deferred. This restriction does not apply to expenditures for capital outlay items not included in the definition of the Capital Budget herein or to expenditures for Capital Budget purposes made by institutions of higher education, public community/junior colleges or appellate courts. The Capital Budget is defined to include expenditures for assets with a project cost or unit cost in excess of \$25,000 within the following categories:

1. Acquisition of Land and Other Real Property (except for right-of-way purchases made by the Department of Transportation),
2. Construction of Buildings and Facilities,
3. Repairs or Rehabilitation of Buildings and Facilities,
4. Construction of Roads (except for such expenditures made by the Department of Transportation),
5. Acquisition of Information Resource Technologies,
6. Transportation Items,
7. Acquisition of Capital Equipment and Items.
8. Other Lease Payments to the Master Lease Purchase Program (for items acquired prior to September 1, 1997 only).

Any expenditure directly related to acquisition of an asset, or to place an asset in service may be paid from the Capital Budget. In implementing the provisions of this section, the Comptroller of Public Accounts should refer to the detailed instructions for preparing and submitting requests for legislative appropriations for the biennium beginning September 1, 1997, and the definitions therein, and to the official request for legislative appropriations submitted by the affected agency.

Appropriations restricted to capital budget purposes and not identified in a "Capital Budget" as being for lease payments to the master lease purchase program (MLPP) or for other lease-purchase (LP) payments may be utilized to make lease payments under MLPP or for other lease or installment payments only if the agency to which the appropriation is made provides a report to the Comptroller of Public Accounts specifying the sum of the lease payments to be made during the biennium for the Capital Budget item being acquired. The Comptroller of Public Accounts is hereby directed to reduce the appropriation made by this Act for the Capital Budget item in an amount equal to the difference between the appropriated amount and the sum of the lease payments for the biennium and deposit that amount into the unappropriated balance of the original funding source. In the event that the Comptroller of Public Accounts cannot determine the amount appropriated for a specific Capital Budget item, the amount shall be determined by the Legislative Budget Board.

OTHER EXPENDITURE LIMITATIONS

(Continued)

Funds restricted to "Acquisition of Information Resource Technologies" may also be used to purchase or contract for computer time, facility resources, maintenance and training.

Appropriations restricted to capital budget purposes may be transferred from one capital budget item to another capital budget item in amounts not to exceed 25 percent for the fiscal year.

Any unexpended balances remaining in appropriations made by this Act for capital budget purposes for fiscal year 1998 are hereby reappropriated for fiscal year 1999 for the same purpose.

For an agency which does not have a capital budget provision following its items of appropriation in this Act, the amount of "appropriations restricted to capital budget purposes" shall be deemed to be zero for the purpose of calculating the limitation on capital budget expenditures contained in the first paragraph of this section.

Sec. 43. Purchases of Information Resources Technologies.

1. In this section:
 - a. "Information resources" means the procedures, equipment, and software that are employed, designed, built, operated, and maintained to collect, record, process, store, retrieve, display, and transmit information, and associated personnel including consultants and contractors.
 - b. "Information resources technologies" means data processing and telecommunications hardware, software, services, supplies, personnel, facility resources, maintenance, and training.
2. Each state agency appropriated funds in this Act shall submit an agency strategic plan, in accordance with Sections 2054.095 and 2054.096 of the Government Code, to the Department of Information Resources (DIR) for approval no later than the date proscribed by law. It is further provided that no requests for appropriations will be considered unless the information technology requested is in a plan approved by the department.
3. By no later than November 1, 1997, DIR shall adopt a state strategic plan, in accordance with Sections 2054.091 and 2054.092 of the Government Code, for the management of information resources. The state strategic plan must be a visionary road map for the management of the state's information resources. The state strategic plan must provide a strategic direction for the management of information resources for the five fiscal years following adoption of the plan.
4. Prior to amending a contract for development of a major information technology project, when the amendment constitutes a 10% or greater change, the agency shall notify the Governor, Lieutenant Governor, Speaker of the House, Senate Finance Committee, House Appropriations Committee, Department of Information Resources and the Quality Assurance Team (QAT). The QAT approval shall be for contracts in excess of \$1.0 million that change by more than 10%.
5. Institutions of higher education shall coordinate the use of information technologies between institutions in order to provide education, research, and community service.

Sec. 44. Quality Assurance Review of Major Information Resources Projects.

1. Major information resources projects shall be construed as any information resources technology project identified in an agency operating plan whose development costs are over \$1,000,000 and include one or more of the following:

OTHER EXPENDITURE LIMITATIONS (Continued)

- a. requires a year or more to reach operational status;
 - b. involves more than one agency or governmental unit; or
 - c. materially alters the work methods of agency personnel and/or the delivery of services to agency clients.
2. A state agency may not expend appropriated funds for a major information resources project unless the project has been reviewed and approved by a Quality Assurance Team comprised of the Department of Information Resources and the State Auditor's Office. The Quality Assurance Team shall determine approval based on an analysis of the project's risk. The Quality Assurance Team may request any information necessary to determine a project's potential risk. The Quality Assurance Team may waive the project review requirements for any project, as deemed appropriate.
 3. The Quality Assurance Team may require independent project monitoring, project status reporting, project expenditure reporting, or any additional information necessary to assess a project's on-going potential for success. After a project has been completed, the team may also require an agency to submit a project post-implementation evaluation report to determine if the project met its planned objectives.
 4. The Department of Information Resources shall provide technical assistance to agencies in regard to quality assurance, participate in a project as deemed necessary by the Quality Assurance Team and review and analyze information provided by the agencies. The State Auditor's Office shall provide audit and review of the projects and the information provided by the agencies.
 5. The Quality Assurance Team may request the assistance of the Legislative Budget Board and Comptroller's Office in regard to the accuracy of project expenditures and compliance with this Act.
 6. The Quality Assurance Team will provide a report to the Governor, Lieutenant Governor, Speaker of the House, the House Appropriations Committee, and Senate Finance Committee on the status of projects under its review by December 1 of each year.
 7. The State Auditor shall provide an independent evaluation of the post implementation evaluation review process to ensure the validity of its results and send the evaluation to the Legislative Audit Committee.
 8. The Department of Information Resources may issue guidelines and rules for software development, quality assurance and the review of major information resources projects.
 9. The Quality Assurance Team shall require each affected agency to quantitatively define the expected outcomes and outputs for each major information resource project at the outset, monitor cost, and evaluate the final results to determine whether expectations have been met. The Department of Information Resources may waive this requirement.

Sec. 45. **West Texas Disaster Recovery and Operations Data Center.** The Department of Information Resources (DIR) shall operate, or through cooperative agreement, manage operations of a disaster recovery and operations data center on the campus of Angelo State University. It is the intent of the Legislature that all state agencies and institutions of higher education utilize the West Texas Disaster Recovery Center (the Center) for testing disaster recovery plans and for disaster recovery services. None of the funds appropriated by this Act may be expended for entering into or renewing contracts for disaster recovery plan testing services or disaster recovery services from other state agencies or other providers of these services without first obtaining a waiver from the DIR certifying

OTHER EXPENDITURE LIMITATIONS

that the requested service requirements cannot be provided at reasonable costs through the Center. Waiver requests will be evaluated by the DIR based on cost-effectiveness to the State of Texas. Waivers may be granted for specific periods of time and any contracts for services obtained under waiver shall not extend beyond the expiration date of the waiver.

State agencies and institutions of higher education that use the Center shall do so under contract with the DIR. The DIR is further authorized to collect fees for these services in amounts which offset the direct and indirect costs of providing such services. The DIR may request assistance from the State Auditor's Office regarding the billing system formula for offsetting service costs. The DIR is further directed to work with the Council on Competitive Government on issues concerning state data center consolidations and provide information relating to the use of the Center as a location for one of the state's consolidated data centers.

In evaluating a biennial operating plan submitted for review by a state agency, DIR shall consider whether the goals of any proposed projects in the plan could be accomplished at lower costs by using the services and/or equipment of the Center, and may require the agency to seek a bid from the Center to accomplish the purpose of the project.

Sec. 46. Construction Standards. All agencies, departments and institutions covered by this Act shall ascertain that the standards and specifications for new construction, repair and rehabilitation of existing structures and facilities are in accordance with the State Purchasing and General Services Act (Subtitle D, Title 10, Government Code). A statement shall be filed with the Comptroller of Public Accounts to show compliance with this Section.

Sec. 47. Construction Project Analysis Required. None of the funds appropriated by this Act, except for funds appropriated to institutions of higher education, may be expended for capital construction projects that are subject to project analysis provisions of Chapter 2166, Government Code, unless the agency, department or institution has complied with those provisions and completed the project analysis process. Prior to expenditure of any funds subject to this section for capital construction projects, a completed project analysis must be filed with the Legislative Budget Board, the Governor's Office of Budget and Planning, and the Comptroller of Public Accounts.

Sec. 48. Prime Design Professional Fees. The prime design professional may be either a registered architect or a registered professional engineer. Fees paid to the prime design professional from funds appropriated by this Act shall be governed by the following schedule and provisions:

1. The schedule of basic fees to be paid a prime design professional for all professional services as set out below, based on the total cost of the work, shall not exceed:

Construction Cost of Project:	Dormitories, Garages, and Warehouses	Classroom, Office and Other Bldgs.	Health, Research, Special Education Facilities
Over \$15,000,000	6.0%	6.0%	6.0%
\$200,000 to \$15,000,000	6.5%	7.0%	7.5%
Up to \$200,000	7.5%	8.0%	8.5%

Basic fee for remodeling and alterations shall be one-third greater than scheduled above. Alterations and remodeling is defined as any change, architectural, structural, mechanical or electrical, made to an existing structure and includes portions of that structure changed as a result of additions or extensions to a structure.

OTHER EXPENDITURE LIMITATIONS (Continued)

2. When one building design is used in two or more locations within the same project, the fees to be paid shall be:
 - a. For the first building of such design, a basic fee calculated according to the schedule above.
 - b. For the second and subsequent buildings utilizing such design, the basic fee shall be reduced 35%. Such fee shall include changes required by site conditions including foundation redesign; partition changes; mechanical and electrical changes; necessary program changes; other architectural or engineering services normal under such circumstances; and inspection of the construction.
3. Prime design professional fees shall include:
 - a. The necessary conferences, and the preparation of preliminary studies and final designs.
 - b. The production of complete architectural and engineering drawings and specifications, including their proper correlation.
 - c. Construction contract administration and all other normal professional services.
 - d. Payment of all fees to consulting engineers, architects and landscape architects for their services in connection with the building design and construction when employed by the prime design professional.
4. The prime design professional shall inspect the construction of the work to such an extent as may be necessary to ascertain whether the work is being executed in conformity with his working drawings or specifications or directions; make recommendations on materials and equipment; check and report on contractor's proposals in connection with changes in the contract; and approve certificates of payment. When continuous field supervision or a clerk of the works is deemed necessary by the state, the cost of such supervisory personnel shall be borne by the state in addition to the basic fee.
5. The maximum fee specified shall include the cost of all professional services rendered by architects or engineers, and the aggregate contract price for services rendered by a consulting architect and consulting engineer shall never exceed the applicable fee limitation except as set forth in sub-section 4 hereof.
6. The state will furnish the prime design professional a limited consulting service consisting of a complete survey, soil analysis, and a program of the work outlining in detail the space requirements, their general relationships and the standards of types of construction.

Sec. 49. **Construction Policy.** No state entity receiving an appropriation under this Act may establish a rule or policy which is inconsistent with the legislative intent that funds appropriated herein for construction projects be expended only pursuant to state entity policies which provide the greatest competitive advantage to the state allowable under Chapter 2258, Government Code.

Sec. 50. **Limitation on Use of Funds for Personal Residences.** Out of appropriations made by this Act, no expenditures exceeding an aggregate amount of \$25,000 for the biennium beginning on September 1, 1997 shall be made for purchasing, remodeling or repairing of a personal residence or living quarters unless the expenditures are I) required by court order, ii) will result in increased safety, significant net cost savings or prevention of substantial waste, or iii) are specifically identified in a Capitol Budget in this Act. Prior to any such expenditure in excess of \$25,000, the Governor and Legislative Budget Board must approve the expenditure under authority granted pursuant to Article XVI, Section 69, of the Texas Constitution. In the event of an emergency or in the absence of a meeting by the Legislative Budget Board within 30 days of the request, the Director of the Legislative Budget Board, after consultation with the Board members, may take action in conjunction with the

OTHER EXPENDITURE LIMITATIONS (Continued)

Governor on the request. The General Services Commission shall report all expenditures for this purpose to the Legislative Budget Board.

Sec. 51. **Contracts for Professional Services: Indemnification.** In contracting for professional services under Subchapter A, Chapter 2254, Government Code (the Professional Services Procurement Act) using funds appropriated under this Act, a state agency may require the contractor to indemnify or hold harmless the state from claims and liabilities resulting from the negligent errors, omissions, or acts of the contractor or persons employed by the contractor. A state agency may not include contractual provisions requiring a contractor to indemnify or hold harmless the agency for damages arising from the negligent acts of the agency or its employees.

Sec. 52. **Limitation on Contracts with Previous Employees.** None of the funds appropriated by this Act may be used to enter into a contract for consulting or professional services or into an employment contract, with any individual who has been previously employed by the department or agency within the past twelve months. For the purpose of this section, the term "employment contract" shall include a personal services contract regardless of whether the performance of such a contract involves the traditional relationship of employer and employee.

Sec. 53. **Contracting for In-State Services.** In contracting for professional services using funds appropriated by this Act, a state agency shall require the contractor to purchase products and materials produced in Texas when they are available at a comparable price and in a comparable period of time.

Sec. 54. **Plants.** None of the funds appropriated by this Act shall be expended for the purchase, rental, or maintenance of live or artificial indoor plants used purely for aesthetic purposes.

Sec. 55. **Grant Restriction.** None of the funds appropriated by this Act may be expended for grants to any law enforcement agency regulated by Chapter 415, Government Code, unless (i) the law enforcement agency requesting the grant is in compliance with all rules developed by the Texas Commission on Law Enforcement Officer Standards and Education pursuant to Chapter 415, Government Code or (ii) the Texas Commission on Law Enforcement Officer Standards and Education certifies that the requesting agency is in the process of achieving compliance with such rules.

Sec. 56. **Listing of Bidders.** None of the funds appropriated by this Act shall be expended for the development or maintenance of a bidders list other than a central list authorized to be maintained by the General Services Commission under provisions of the State Purchasing and General Services Act. The limitation created by this section shall not apply to institutions of higher education or to the Department of Transportation. However, it is the intent of the Legislature that institutions of higher education utilize the commission's central bidders list whenever possible.

Sec. 57. **Expenditures for State-Federal Relations.** None of the funds appropriated by this Act may be spent by a state agency to carry on functions for which funds have been appropriated to the Office of State-Federal Relations to perform except when an interagency contract has been executed between the Office of State-Federal Relations and the state agency. Prior to travel to Washington, D.C., state agency personnel shall inform the Office of State-Federal Relations regarding the timing of the trip, the purpose of the trip, and the name of a contact person for additional information.

Sec. 58. **Research Policy.** No agency may expend any funds appropriated by this Act for research projects of any type until the agency has adopted and filed with the Legislative Budget Board a policy which clearly establishes and protects the property rights of the state with regard to any patentable product, process, or idea that might result from such research.

In order to avoid duplication, state agencies, excluding institutions of higher education, may not expend funds appropriated by this Act to conduct or support policy research on subjects within the statutory jurisdiction of another agency without providing prior written notification to the agency concerning a work plan and the coordination of resources.

OTHER EXPENDITURE LIMITATIONS (Continued)

Sec. 59. **Court Representation and Outside Legal Counsel.** Except as otherwise provided by the Constitution or general or special statutes, the Attorney General shall have the primary duty of representing the State of Texas in the trial of civil cases. Funds appropriated in this Act may not be expended by any agency of the state government (other than those included in Article X of this Act) to initiate a civil suit or defend itself against any legal action without the consent of the Attorney General. Upon receipt of a request for outside counsel, it is the intent of the Legislature that the Attorney General shall make a determination on the request as expeditiously as possible, but in no event later than 10 working days after receiving such request. Absent this consent, such agency shall be represented in that particular action by the Office of the Attorney General. Where the Attorney General, District Attorney, Criminal District Attorney, County Attorney, or other lawyer is required by constitutional or statutory provision to represent a state agency, state official, state board or state department, no compensation shall be paid from any appropriation made in this Act to any other attorney for representing the State of Texas in the trial of a civil suit in Constitutional Courts except in those cases where the Attorney General consents to such representation or the District Attorney, Criminal District Attorney, County Attorney or other lawyer has requested that the attorney or attorneys employed by the particular state agency, state official, state department or state board assist with the trial of the particular civil suit. This provision shall not, however, restrict a state agency, state official, state department or state board in the investigation and assembling of evidence in connection with a pending or prospective civil suit. Further, this provision shall not prohibit the foregoing state officials, state agencies, state boards or state departments and their employees from investigating, filing or presenting a claim, owing to the State of Texas, when such claim is filed with or presented to an individual, association, corporation, guardian, administrator, executor, receiver, trustee, legal representative, or probate court.

This provision shall not restrict the Attorney General from employing special assistants to assist in the trial of civil suits to be paid from the appropriations therefor made to the Attorney General's Office.

Prior to expenditure of funds for retaining outside legal counsel, agencies and departments other than those included in Article X of this Act shall request the Attorney General to perform such services. If the Attorney General determines that outside counsel is in the best interest of the state, the Attorney General shall so certify to the Comptroller of Public Accounts and to the requesting agency which may then utilize appropriated funds to retain outside counsel. However, funds appropriated by this Act may not be used to contract with an attorney who represents clients before the agency or who has, during a six month period preceding the initiative of the contract and a six month period following the termination of the contract, represented clients before the agency. It is specifically provided that no agency shall initiate the process of selecting outside legal counsel prior to receiving the approval of the Attorney General to retain outside counsel.

It is the intent of the Legislature that when the Attorney General is called upon by a state agency to take legal action in court against another state agency that the Attorney General give special consideration to permitting one of the agencies to employ, from the permitted agency's funds, outside counsel to represent that agency in that action in order to avoid a conflict of interest by the Attorney General in the representation of both agencies.

In the event that the Attorney General should initiate legal action against another state agency in behalf of the Attorney General rather than another agency, the Legislature determines that a conflict of interest exists and the agency against which the Attorney General takes action is hereby authorized to expend appropriated funds for outside legal counsel to represent that agency without the prior approval or consent of the Attorney General.

The first five (5) paragraphs of this section shall not apply to funds appropriated to the Office of the Governor; Comptroller of Public Accounts; Department of Agriculture; General Land Office and Veterans Land Board; or the Railroad Commission of Texas.

None of the funds appropriated by this Act may be expended to pay the legal fees and expenses of a lawyer or law firm which represents the State of Texas or any of its agencies in any contested matter

OTHER EXPENDITURE LIMITATIONS

if such lawyer or law firm is representing a plaintiff in a proceeding seeking monetary damages from the State of Texas or any of its agencies.

OTHER EXPENDITURE LIMITATIONS (Continued)

Sec. 60. **Judgments.**

1. None of the funds appropriated by this Act, including appropriations made in Article X of the Act, may be expended for payment of any judgment or settlement prosecuted by or defended by the Attorney General and obtained against the State of Texas or any state agency, except pursuant to this section or where it is specifically provided in an item or items of appropriation that the funds thereby appropriated or expenditures therein authorized may be used for the payment of such judgments.
2. State agencies appropriated funds by this Act are hereby authorized to expend funds appropriated elsewhere in this Act for the purposes of paying settlements and judgments against the state for causes brought in a federal court or a Texas state court under specific statutory authority. Payments made pursuant to this subsection are hereby made subject to the following processes and limitations: (a) such funds are to be paid out by the Comptroller on vouchers drawn by the agency settling the lawsuit or paying the judgment, subject to the approval of the Governor and of the Attorney General according to Subsection 4 of this section; (b) for purposes of this subsection, judgment shall mean a judgment order rendered in a federal court or a Texas state court of competent jurisdiction for which an appeal or rehearing, or application therefor, is not pending and for which the time limitations for appeal or rehearing have expired; (c) the payment of any settlement or judgment shall not exceed \$250,000; (d) the payment of the settlement or judgment would not cause the total amount of payments made by the payer agency for that fiscal year to exceed ten percent (10%) of the total amount of funds available for expenditure by that agency for that fiscal year; and (e) the payment of any settlement or judgment shall be made only with a complete release from any and all related claims and causes against the state, and in the case of a judgment, the payment shall be made only in full satisfaction of that judgment. The authorization provided by this subsection shall not apply in those cases where the judgment order of the trial court was entered, or a settlement agreement was executed, prior to September 1, 1995.
3. Each state agency shall report a claim for property damage to the Attorney General not later than the second working day after the date the agency receives the claim. A state agency shall prepare a voucher for payment of a claim not later than the 10th working day after the date an agreement to settle the claim has been reached.
4. At least one-half of any amounts appropriated by an Act of any session of the Legislature subsequent to the 74th Legislature, Regular Session, in settlement of a judgment or in settlement of a cause of action brought against the State shall be transferred from amounts appropriated to the involved agency for that fiscal year. The transfer requirement established by this paragraph may be waived either in whole or in part by the Legislative Budget Board.
5. Payment of all judgments and settlements prosecuted by or defended by the Attorney General is subject to approval of the Attorney General as to form, content, and amount, and certification by the Attorney General that payment of such judgment or settlement is a legally enforceable obligation of the State of Texas. This subsection shall apply equally to funds appropriated for expenditure through the state treasury, as well as funds appropriated for expenditure from funds held in local banks.
6. The Attorney General shall report to the Legislative Budget Board and the Governor's Office of Budget and Planning not less than monthly, a listing of all settlements and judgments above \$5,000 submitted to the Comptroller for payment. The document for publication shall contain at least the following information unless all or part of the information is exempt by court order or the Open Records Act: (1) a summary of the cause of action; (2) a summary of the terms of the settlement; (3) the style of the case;

OTHER EXPENDITURE LIMITATIONS (Continued)

(4) the name and business address of each attorney representing the opposing litigants at the time of the settlement; (5) the amount of the judgment or settlement; (6) the fund or account from which payment was or should be made; (7) the statutory citation for the appropriation or other authority to be made; and (8) specific statutes granting waiver of sovereign immunity or legislative resolution granting litigant permission to sue.

7. The State Auditor shall verify compliance with this requirement for all funds appropriated in this Act, including funds which are retained and expended from accounts held outside the state treasury and which are not subject to reimbursement through funds held in the state treasury. Upon verification that an agency has not obtained the Attorney General's approval prior to payment of a judgment or settlement, the State Auditor shall certify such fact to the Comptroller of Public Accounts. The Comptroller shall withhold all appropriations for administrative expenses for the involved agency, until such time as the Legislative Audit Committee notifies the Comptroller that the agency's non-compliance has been reviewed and necessary recommendations or changes made.

Sec. 61. **Purchase of Insurance.** None of the funds appropriated by this Act may be expended for purchasing insurance to cover claims arising under the Texas Tort Claims Act. Notwithstanding the foregoing, a state agency may purchase director's or officer's liability insurance to cover claims arising under the Texas Tort Claims Act with appropriated funds for the agency's appointed commission or board members and executive management staff.

Sec. 62. **Expenditures for Representatives of Grievants Prohibited.** None of the funds appropriated by this Act may be used to pay expenses for salary, travel or per diem of public employees who represent grievants in the presentation of grievances concerning wages, hours of work, or conditions of work except that state employees are allowed to take annual leave, compensatory leave, or leave without pay, subject to the procedures established by their agency of employment, to engage in this activity.

Sec. 63. **Agricultural Soil and Water Conservation.** Appropriations made elsewhere in this Act to the Texas Water Development Board, Texas State Soil and Water Conservation Board, Texas Agricultural Experiment Station, and the Texas Agricultural Extension Service out of the Agricultural Soil and Water Conservation Account No. 563 shall be allocated to each of those agencies in equal amounts.

Sec. 64. **Limitation on Travel Expenditures.** None of funds appropriated by this Act may be expended, without the prior approval of the Legislative Budget Board, for travel purposes if such expenditure would cause the agency's or institution's travel expenditures for that fiscal year to exceed an amount equal to ninety (90) percent of that agency's or institution's fiscal year 1997 travel expenditures. The Legislative Budget Board may consider requests from agencies which demonstrate circumstances which would make such reductions in actual travel impractical or inefficient in accomplishing the goals and strategies contained in their appropriations pattern. Such circumstances may include new or expanded programs, law enforcement, tax collection activities, statutorily mandated travel, or other pressing public purposes.

Sec. 65. **Limitation on Expenditures for Purchases and Conversions of Alternative Fuel Vehicles.** A state agency, including an institution of higher education, that is required to meet the percentage requirements for vehicles capable of using alternative fuels may expend funds appropriated by this Act for the purpose of meeting the percentage requirements only if the agency purchases or converts a vehicle that uses the most cost-effective, fuel efficient and mechanically efficient alternative fuel source.

BUDGET POLICY & APPROPRIATION MANAGEMENT

Sec. 66. **Performance Rewards and Penalties.** It is the intent of the legislature that appropriations made by this Act be utilized in the most efficient and effective manner possible to achieve the intended mission of each state agency and institution. In order to achieve the objectives and service standards established by this Act, agencies and institutions shall make every effort to attain the designated key performance target levels associated with each item of appropriation.

- (a) To support and encourage the achievement and maintenance of these appropriated annual performance levels, continued expenditure of any appropriations in this Act shall be contingent upon compliance with the following provisions:
 - (1) Agencies and institutions, in coordination with the Legislative Budget Board, shall establish performance milestones for achieving targets within each annual budget and performance period; time frames for these milestones and the related performance reporting schedule shall be under guidelines developed by the Legislative Budget Board.
 - (2) Agencies and institutions shall provide testimony as to the reasons for any performance variances to the Senate Finance Committee and the House Appropriations Committee, as determined to be necessary by those committees; assessments of agency and institution performance shall be provided to the committees under guidelines and procedures developed by the Legislative Budget Board.
- (b) Upon a finding that an agency or institution has successfully met or exceeded performance expectations, or has failed to achieve expected performance levels, the Legislative Budget Board, and the Governor, may adopt a budget execution order, which may include but is not limited to, one or more of the following:
 - (1) Positive Incentives/Rewards - Increased funding, exemption from reporting requirements, increased funding transferability, formalized recognition or accolade, awards or bonuses, expanded responsibility, or expanded contracting authority;
 - (2) Negative Incentives/Redirection - Evaluation of outcome variances for remedial plan, reduction of funding, elimination of funding, restriction of funding, withholding of funding, reduction of funding transferability, transfer of functional responsibility to other entity, recommendation for placement in conservatorship, direction that a management audit be conducted or direction that other remedial or corrective actions be implemented.
 - (3) The Legislative Budget Board may develop rules and procedures for the implementation of the above provisions.
 - (4) The Legislative Budget Board may request from the State Auditor's Office comments regarding performance penalties and rewards.
- (c) To further foster, support, and reward outstanding performance, ongoing productivity improvements and innovative improvement programs, and to retain key high performing employees, qualified state agencies may expend amounts necessary from funds appropriated in this Act for the purposes of enhancing compensation for employees who directly contributed to such improvements. To be eligible for this provision, an agency must:
 - (1) Achieve or exceed targets for 80% of the established key performance measures for fiscal year 1996 as reflected in the "Summary Assessment of Agency Performance: Fiscal Year 1996" produced by the Legislative Budget Board and submitted to the 75th Texas Legislature; and,

BUDGET POLICY & APPROPRIATION MANAGEMENT (Continued)

- (2) Have an unqualified certification for at least 70% of its performance measures by the State Auditor's Office as reflected in the "Summary Assessment of Agency Performance: Fiscal Year 1996" produced by the Legislative Budget Board and submitted to the 75th Texas Legislature. If an agency has not been subject to this review, then the most recent certification review will apply.
- (3) File a report with the Legislative Budget Board, Governor's Office of Budget and Planning, House Appropriations Committee, and Senate Finance Committee describing the success of the innovative program and criteria used to assess the improvements.

In addition, sixty days prior to implementation, qualified agencies are required to file a report with the Legislative Budget Board, Governor's Office of Budget and Planning, House Appropriations Committee, and Senate Finance Committee describing in detail how they intend to use this flexibility to further the goals of this section.

Sec. 67. Performance Benchmarking. It is the intent of the Legislature that all state agencies and institutions of higher education subject to the strategic planning requirements of Government Code, Chapter 2056, engage in an internal performance benchmarking process which will provide for the identification and development of agency-specific performance benchmarks and their linkage to state-level benchmarks. Each state agency and institution of higher education shall report on the results of its benchmarking process in its strategic plan prepared for the 1999-2004 period pursuant to Government Code, Chapter 2056.

Sec. 68. Customer Satisfaction Assessment. It is the intent of the Legislature that the state agencies and institutions of higher education listed below identify the groups of individuals who could be deemed as "customers" of the services provided by the agency or institution and assess the level of satisfaction by these groups with the services provided by the agency or institution. These state agencies and institutions of higher education shall report the results of their assessment of customer satisfaction in their strategic plan prepared for the 1999-2004 period pursuant to Government Code, Chapter 2056.

Sec. 69. **Activity-Based Costing Pilot Project.** The State Auditor's Office, the Legislative Budget Board and the Governor's Office of Budget and Planning shall select an agency or institution of higher education from each article in this Act for the purpose of implementing, on a pilot basis, the concept of activity-based costing. Selected entities should apply the concept of activity-based costing to at least one agency or institutional activity during the 1998-99 biennium. A report detailing each agency's or institution's experiences with activity-based costing should be submitted to the State Auditor's Office, the Legislative Budget Board and the Governor's Office of Budget and Planning no later than September 30, 1998.

Sec. 70. **Accounting Irregularities.** Upon a determination by the Comptroller of Public Accounts that an agency or an institution of higher education has inaccurately reported the expenditure of appropriated funds or has demonstrated other reoccurring accounting irregularities, the Comptroller of Public Accounts is hereby authorized to refer such agency or institution to the State Auditor to take appropriate action including, but not limited to, the implementation of a comprehensive financial audit of the agency or institution.

Sec. 71. **Bookkeeping Entries.** Should clerical or bookkeeping errors result in any moneys being expended, transferred, or deposited into incorrect funds in or with the state treasury or any moneys being cleared from a trust and suspense fund to other than the proper fund, such erroneously expended, transferred, deposited, or cleared moneys may be transferred to the correct funds or accounts or trust and suspense account within the state treasury upon request of the administering department with the concurrence of the Comptroller of Public Accounts, and so much as is necessary for said transfer is hereby appropriated.

Sec. 72. **Accounting for State Expenditures.** Notwithstanding the various patterns of appropriation established in this Act, the Comptroller of Public Accounts is hereby directed to account for the expenditure of funds appropriated by this Act in a manner which allows for the reporting of expenditures attributable to each strategy in each agency's respective Strategic Planning and Budget Structure as approved by the Governor's Office of Budget and Planning and the Legislative Budget Board. Such information shall be recorded and maintained systematically in the state accounting system in a manner which provides for the integration of the state's budget data and the state's accounting data and to facilitate the state's budget development process.

BUDGET POLICY & APPROPRIATION MANAGEMENT (Continued)

This provision is not intended to require the deposit into and subsequent disbursement of funds from the state treasury which relate to Texas Public Education Grants, Skiles Act Debt Service, or Local Funds defined in Section 51.009(C), Education Code, except for tuition and lab fees.

Sec. 73. **Cost Allocations.** For the purpose of more effective and efficient identification and allocation of costs, and to effect timely payments to employees and vendors, agencies may temporarily charge salary and/or operating costs to appropriations most applicable for the expense being incurred. Upon receipt of more specific information such as personnel-time allocation information for payrolls, or allocation of office supplies or other goods and services, agencies may reimburse the original paying appropriations by transfer from the appropriation to which the expenditure should have been charged. Such transfers must be accomplished within twelve months in a manner which records appropriate expenditures to the borrowing appropriation and negative expenditures to the lending appropriation. These transfers may be in summary amounts in a manner approved by the Comptroller of Public Accounts. Each agency must maintain adequate detailed records to support summary transfer amounts.

Sec. 74. **Special Fiscal Year Determination Procedures.**

- (1) Subscriptions to magazines and newspapers. The funds appropriated by this Act to a state agency for a particular fiscal year may be used to pay for the complete cost of a magazine or newspaper subscription even if the subscription covers more than one fiscal year.
- (2) Seminars and conferences. The funds appropriated by this Act for a particular fiscal year may be expended to pay the complete cost of registering for or reserving a meeting room or other space for a seminar or conference notwithstanding the fact that it will occur during the next fiscal year. This subsection applies only if the sponsor of the seminar or conference or owner of the meeting room or other space requires the payment to be received before the beginning of the next fiscal year.
- (3) Monthly telephone line charges. The funds appropriated by this Act for a particular fiscal year may be expended to pay a monthly telephone line charge that covers all or part of August of that fiscal year and all or part of September of the next fiscal year. This subsection does not apply to long-distance or other charges made on a per-call basis.
- (4) Payments under this section are subject to rules and procedures established by the Comptroller of Public Accounts.

Sec. 75. **Grants.** Funds appropriated by this Act for grants of money to be made by state agencies, including the agencies in the legislative branch, are appropriated for the statutory purposes as the grantor agency may specify. It is the intent of the Legislature that grants be distributed by state agencies on a reimbursement or as needed basis unless otherwise provided by statute or otherwise determined by the grantor agency to be necessary for the purposes of the grant.

Funds appropriated by this Act for grants to be made by a state agency for a particular fiscal year may be distributed in subsequent fiscal years so long as the grant has been awarded and treated as a binding encumbrance by the grantor agency prior to the end of the appropriation year of the funds appropriated for grant purposes. Distribution of the grant funds is subject to Section 403.071, Government Code.

In the event the Legislature should appropriate oil overcharge moneys for programs administered by the Texas Department of Housing and Community Affairs to benefit low to moderate income Texans, the General Services Commission or administering agency shall advance two months of the expected contract dollars upon the commencement of the program agency contract. Additional funds shall be

BUDGET POLICY & APPROPRIATION MANAGEMENT (Continued)

provided to the contracting agency as documentation of the expenditure of advanced dollars is received.

Sec. 76. Annual Fee Rate Review and Adjustment. It is the intent of the legislature that agencies annually review all fees and fee rates administered and adjust rates as necessary to recover the costs of providing services, including indirect costs, and to maintain rates consistent with inflation.

Sec. 77. Fee Increase Notification. None of the funds appropriated by this Act may be expended by an agency which increases the rate of a fee assessed by that agency unless the agency provides a notice to the payer of the fee that the fee rate was set by the agency or its governing board and not mandated by the Legislature.

Sec. 78. Prompt Payment for Interagency Goods and Services. Any funds appropriated by this Act that are obligated pursuant to written agreement for payment by one state agency or institution to another state agency or institution for the exchange of goods or services shall be remitted within thirty (30) days after the goods or services are provided and an invoice is received. In the event that a receiving agency or institution does not accept the goods or services or finds an error in the invoice, the receiving agency or institution shall notify the performing agency or institution in writing as soon as possible within the 30-day period and shall make payment not less than ten (10) days after the problems are corrected or the error resolved to the satisfaction of both parties. If both parties are unable to agree on the amount of payment, the Comptroller shall determine the appropriate amount. However, in the event that written notice is not provided within the 30-day period, the Comptroller is hereby authorized to transfer the necessary funds upon request by the agency or institution providing the interagency goods and services from appropriated balances of the receiving agency or institution.

Sec. 79. Prompt Payment Discounts. State agencies when purchasing goods and services including those purchased through or by the General Services Commission shall negotiate a prompt payment discount with the vendor.

All state agencies when paying for goods and services that were purchased under an agreement that included a prompt payment discount shall submit the necessary payment documents or information to the Comptroller with sufficient lead time to allow the Comptroller to generate a payment or warrant and for the agency to deliver the warrant to the vendor in time to take advantage of the prompt payment discount.

Sec. 80. Reimbursements for Unemployment Benefits.

1. At the close of each calendar quarter, the Texas Workforce Commission shall prepare a statement reflecting the amount of unemployment benefits paid to all former state employees based on wages earned from state employment and present it to the Comptroller of Public Accounts, who is hereby directed to pay by warrant or transfer out of funds appropriated from the Unemployment Compensation Special Administration Fund Account No. 165 such amount to the Unemployment Compensation Benefit Account No. 937 to reimburse it for such payments.

The Unemployment Compensation Special Administration Fund Account No. 165 shall be reimbursed, for one-half of the unemployment benefits paid, from appropriations made in this Act to the state agency which previously employed each respective former state employee whose payroll warrants were originally issued in whole or part from the General Revenue Fund, dedicated General Revenue Fund accounts, or Other Special Funds. From information provided by the Texas Workforce Commission, the Comptroller of Public Accounts shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, dedicated General Revenue Fund accounts, and Other Special Fund appropriations and transfer such amounts to the Unemployment Compensation Special Administration Fund Account No. 165. The amounts reimbursed pursuant to this paragraph are hereby reappropriated to the

BUDGET POLICY & APPROPRIATION MANAGEMENT (Continued)

Unemployment Compensation Special Administration Fund Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. The reimbursement requirements established by this paragraph may be waived, either in whole or in part, by the Legislative Budget Board.

In addition, the Unemployment Compensation Special Administration Fund Account No. 165 shall be reimbursed, for one-half of the unemployment benefits paid, from amounts appropriated to the Reimbursements to the Unemployment Compensation Benefit Account item in this Act out of dedicated General Revenue Fund accounts or Other Special Funds and shall be fully reimbursed from funds held in local bank accounts, for all former state employees whose payroll warrants were originally issued in whole or part from dedicated General Revenue Fund accounts, Other Special Funds or local bank accounts, respectively. From information provided by the Texas Workforce Commission, the Comptroller of Public Accounts shall determine the proportionate amount of the reimbursement or payment due from funds other than General Revenue and transfer such funds to the Unemployment Compensation Special Administration Fund Account No. 165. For reimbursements due from funds not held in the state treasury, state agencies shall reimburse the Unemployment Compensation Special Administration Fund Account No. 165 with a check. The amounts reimbursed from local funds pursuant to this paragraph are hereby appropriated to the Unemployment Compensation Special Administration Fund Account No. 165 for the purpose of reimbursing the Unemployment Compensation Benefit Account No. 937. Such transfers and payments as are authorized under law shall be made within thirty (30) days from receipt of the statement of payments due. The Comptroller of Public Accounts may prescribe accounting procedures and regulations to implement this section.

2. An agency, institution, department, commission, board, division, or other unit of state government is authorized to allocate funds to a revolving account created on its books to receive contributions from funds other than General Revenue based on a percentage-of-payroll assessment to be determined by such unit of government for the purpose of reimbursing the Unemployment Compensation Special Administration Fund Account No. 165 for the unemployment benefits paid.
3. The State Auditor shall review in his audit of respective agencies compliance with the provisions of this section. The Comptroller of Public Accounts, upon receipt of notification from the State Auditor's Office of amounts remaining due from funds held outside the state treasury, shall lapse or reduce equivalent amounts of any General Revenue appropriations for such agencies until the delinquent amounts are repaid.
4. The Comptroller of Public Accounts, upon certification of amounts due from the Texas Workforce Commission, including the sources of such amounts due, may transfer funds from such state agencies, institutions, departments, commissions, boards, divisions, or other units of state government as the Texas Workforce Commission certifies remain due over thirty (30) days from receipt of the statement of payments due. The Texas Workforce Commission shall also determine the amounts due from funds held outside the state treasury and notify the State Auditor and Comptroller of such amounts.

Sec. 81. Reimbursements for Workers' Compensation Payments.

1. At the close of each fiscal quarter, the Workers' Compensation Division of the Attorney General's Office shall prepare a statement reflecting the amount of workers' compensation benefits paid to, or on behalf of, former and current state employees based on wages earned from state employment and present it to the Comptroller of Public Accounts.

BUDGET POLICY & APPROPRIATION MANAGEMENT (Continued)

The General Revenue Fund shall be reimbursed, for twenty-five percent (25%) of the workers' compensation benefits paid out of strategy item A.1.1., Workers' Comp Payments, from appropriations made elsewhere in this Act to the state agency which previously employed or currently employs each former or current state employee whose payroll warrants were originally issued in whole or in part from the General Revenue Fund, dedicated General Revenue Fund accounts, or Other Special Funds. From information provided by the Workers' Compensation Division of the Attorney General's Office, the Comptroller of Public Accounts shall determine the proportionate amount of the reimbursement or payment due from the General Revenue Fund, dedicated General Revenue Fund accounts, and Other Special Fund appropriations and transfer such amounts to the General Revenue Fund. The amounts reimbursed pursuant to this paragraph are hereby reappropriated for the purpose of paying workers' compensation benefits out of strategy item A.1.1., Workers' Comp Payments, for current and former state employees. The reimbursement requirements established by this paragraph may be waived, either in whole or in part, by the Legislative Budget Board.

In addition, the General Revenue Fund shall be reimbursed, for seventy-five percent (75%) of the workers' compensation benefits paid, from balances in dedicated General Revenue Fund accounts and in Other Special Funds and shall be fully reimbursed from funds held in local bank accounts, for all former and current state employees whose payroll warrants were originally issued in whole or in part from dedicated General Revenue Fund accounts, Other Special Funds or local bank accounts, respectively. For reimbursements due from funds not held in the state treasury, state agencies shall reimburse the General Revenue Fund with a check. Sec. 82. **Evaluation of Outcome Measures.** Contingent upon the enactment of legislation implementing the Texas Performance Review *Disturbing the Peace* recommendation HHS 7 that state agencies purchasing substitute care create and maintain a joint system of outcome measures, it is the intent of the Legislature that the Health and Human Services Commission, the Department of Protective and Regulatory Services, the Texas Juvenile Probation Commission, and the Texas Department of Mental Health and Mental Retardation jointly identify, expand and refine, by January 1998, their core outcome measures for substitute care providers. The Health and Human Services Commission shall be designated the lead agency in coordinating the implementation of HHS 7. The above agencies shall jointly evaluate the reliability and usefulness of each outcome measure so that improvements can be made to ensure children receive the highest quality services at the least cost to the state and report to the Governor, Lieutenant Governor, Speaker of the House of Representatives, Comptroller, and Legislative Budget Board no later than January 1999.

Sec. 83. **Statewide Capital Planning.** Each agency and each institution of higher education appropriated funds by this Act shall supply to the Bond Review Board capital planning information relating to projects subject to this section and financing options for the 2000-2001 fiscal biennium in a format and according to guidelines developed by the Bond Review Board. Such information shall include, but not be limited to, the following items of information:

- i) a description of the project or acquisition;
- ii) the cost of the project;
- iii) the anticipated useful life of the project;
- iv) the timing of the capital need;
- v) a proposed source of funds (method of financing);
- vi) a proposed type of financing; and
- vii) any additional related information requested by the Bond Review Board.

The Bond Review Board shall compile a statewide capital expenditure plan for the 2000-2001 fiscal biennium from the information submitted by agencies and institutions in accordance with the capital planning guidelines. Copies of the guidelines shall be filed with the Governor's Office of Budget and Planning and the Legislative Budget Board no later than December 31, 1997. The Bond Review Board shall file copies of the capital expenditure plan for the period beginning September 1, 1999 with the Governor's Office and the Legislative Budget Board no later than September 1, 1998.

The statewide capital plan should identify the state's capital needs and alternatives to finance these needs. The Bond Review Board shall review input from all state agencies and institutions regarding their current and future capital needs as part of the strategic planning process. The Board shall inform the Legislature on the possible budget impact of the capital plan on the state's debt capacity.

This section shall apply to each anticipated state project requiring capital expenditures for:

- (4) major information resources projects estimated to exceed \$1 million.

Sec. 84. **Consolidated Funds.** Contingent on the enactment of legislation relating to the dedication of funds, the Comptroller, upon approval of the Legislative Budget Board, may change an applicable agency's method of financing source name as provided in this Act to reflect changes made by the other legislation which affects the status of the funding source. No change in the amount of the appropriation would be affected by this change.

REPORTING REQUIREMENTS

Sec. 85. **Budgeting and Reporting.** As a limitation and restriction upon appropriations made by this Act, agencies and institutions of higher education appropriated funds by this Act may expend funds only if there is compliance with the following provisions:

1. On or before November 1 of each fiscal year, an itemized budget covering the operation of that fiscal year shall be filed with the Governor's Office of Budget and Planning, the Legislative Budget Board, the Comptroller of Public Accounts and Legislative Reference Library in the format prescribed jointly by both budget offices.
2. All subsequent amendments to the original budget shall be filed with the Governor's Office of Budget and Planning and the Legislative Budget Board within thirty (30) days of approval of such amendments unless such reporting requirement is waived.
3. Under guidelines developed by the Legislative Budget Board, each agency shall file a report with the Legislative Budget Board, the Governor's Office of Budget and Planning, the Legislative Reference Library, the Texas State Publications Clearinghouse, and the appropriate substantive committees of the House and Senate analyzing its performance relative to the attainment of stated outcome, output and efficiency targets of each funded goal and strategy. The report shall be submitted at such intervals required by the Legislative Budget Board and shall contain a comparison of actual performance for the reporting period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the Legislative Budget Board shall:
 - (1) specify the measures to be reported including the key performance measures established in this Act;
 - (2) approve the definitions of measures reported; and,
 - (3) establish standards for and the reporting of variances between actual and targeted performance levels.

The Legislative Budget Board may adjust projected performance target levels, develop new measures, modify or omit existing measures and measure definitions, and/or transfer measures between agencies, goals or strategies to reflect appropriation changes made by riders or other legislation subsequent to passage of this Act, invocation of budget execution authority by the Governor and the Legislative Budget Board, or as unforeseen circumstances may warrant during the biennium.

4. To ensure that the Program and Cost Accounting functions of the Uniform Statewide Accounting System (USAS) are maximized, it is the intent of the Legislature that the Legislative Budget Board and the Governor's Office of Budget and Planning: (1) determine the agencies, institutions, goals, strategies or other reporting units for which cost accounting data is required; (2) approve the basis for calculating and allocating costs to selected functions, tasks or measures; (3) determine the frequency of reporting cost accounting data needed; and, (4) provide for the integration of cost accounting data into the budget development and oversight process. The determinations to be made should be based upon due consideration of the relative benefits and cost-effectiveness of applying cost accounting requirements to a given state operation.

It is further the intent of the Legislature that the Comptroller of Public Accounts develop and provide USAS training modules and support for state agencies and institutions to activate the cost accounting requirements addressed above.

Sec. 86. **Annual Reports and Inventories.** None of the moneys appropriated by this Act may be expended after a period of ninety (90) days following the close of the fiscal year unless there has been filed with the Governor, the State Auditor, the Legislative Budget Board, Legislative Reference Library, and Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal

However, in situations where it may not be possible or practical to accurately determine the correct county, such as debt service payments, employee fringe benefits, etc., the Comptroller shall estimate the expenditures by county. All state agencies shall cooperate as necessary with the Comptroller in providing necessary information to enable the timely completion of the report. Sec. 140. Use of TEX-AN Network. The Legislature instructs state agencies to use the Texas Agency Network (TEX-AN) to the fullest extent possible. Funds appropriated by this Act to state agencies as defined in Section 2151.002, Government Code, shall not be expended for the acquisition of intercity telecommunications facilities or services until a determination has been made by the General Services Commission (GSC) and the Department of Information Resources (DIR) that the agency requirement for intercity telecommunications cannot be met by the TEX-AN network. State agencies shall not enter into or renew contracts with carriers or other providers of intercity telecommunications facilities or services without obtaining waivers from the GSC and DIR certifying that the requested intercity telecommunications requirements cannot be provided at reasonable costs on the TEX-AN network. Waiver requests will be evaluated by the GSC and DIR based on cost-effectiveness to the entire State of Texas. Waivers may be granted for specific periods of time and automatically expire upon the expiration date unless an extension is approved by the GSC and DIR. Contracts for services obtained under waiver shall not extend beyond the expiration date of the waiver.

Sec. 141. Unlisted Telephone Numbers Prohibited. None of the funds appropriated by this Act shall be expended by any state agency, official or employee thereof, for the payment or rental or toll charges on telephones which are not listed or available from "Information Operators" at telephone exchanges. This section shall not prohibit unlisted telephone numbers used in providing access to computers, telephone system control centers, long distance networks, elevator control systems, and other tone controlled devices where restricted access to the telephone number is justified for security or other purposes, or in narcotic undercover operations or in detection of illegal sales of securities under the Securities Act.

Sec. 142. Examination Fees. All examination fees, including the cost of the examination, shall be collected by state agencies and the payment for the examination cost shall be paid from funds appropriated to the agency.

Sec. 143. Use of State Energy Resources. Before expending any funds appropriated by this Act for the acquisition of oil, gas, coal, lignite or other natural resource used in the production of energy, any agency or institution which leases land for mineral development through a board for lease as authorized by Natural Resources Code, Chapters 34, 35 or 36, shall use, to the greatest extent practical, resources produced from land owned by the institution or agency to meet the energy requirements of the particular institution or agency. In order to implement this provision, the various boards for lease shall include a provision in all mineral leases to allow the taking in kind of any royalties due to the state. Further, the leases may include a provision for placing state meters on all gas wells at the wellhead for monitoring the amount of gas taken.

Sec. 144. In-kind Gas Program. Under the authority of Subchapter H, Chapter 31 of the Natural Resources Code, the General Land Office shall review and approve any contract entered into by a state agency for the acquisition of an annual average of 100 MCF per day or more of natural gas used to meet its energy requirements. If the General Land Office is able to substitute a contract using in-kind royalty gas from state-owned lands or other gas for the contract under which the agency acquires or proposes to acquire its natural gas supplies, the Commissioner shall, on a monthly basis, inform the Comptroller of the savings being achieved by the agency and the Comptroller shall reduce the

agency's utility appropriation authority accordingly. The Comptroller shall transfer the savings realized into the General Revenue Fund.

Sec. 145. **State Preservation Board Approval.** State agencies appropriated funds to perform services with respect to the operation, maintenance, preservation and restoration of the State Capitol and Old General Land Office Building, or their contents and surrounding grounds, shall upon designation by the State Preservation Board expend funds appropriated by this Act to perform such services.

Sec. 146. **Collection of Funds for Institutional Clients.** It is the intent of the Legislature that all state agencies serving clients in institutions shall make every effort to collect funds from all available sources, including, but not limited to, hospitalization coverage and child support.

Sec. 147. **Retention of Mineral Rights.** No state lands shall be sold unless the mineral rights are retained by the state, unless impractical.

Sec. 148. **Access to State Lands.** The state shall require egress and ingress on all state lands when any state lands are sold, providing additional state lands in the immediate area an easement to a public thoroughfare.

No state funds shall be expended with any person, corporation or business entity for any purpose not presently specifically authorized by statute where that person, corporation or business entity denies the state access by easement to landlocked state properties. State funds shall be construed as any tax funds, bond monies guaranteed by the state or any other funds flowing to or through any state agency, board, commission, entity or authority and specifically includes river authorities.

Sec. 149. **State Property Use for State Purposes Required.** No person shall entrust state property to any state official or employee or to anyone else to be used for other than state purposes.

Sec. 150. **Use of Capital Trust Fund.**

1. It is the intent of the Legislature that all proceeds and interest deposited in the Capital Trust Fund to the credit of the Department of Mental Health and Mental Retardation and all receipts and interest received during the 1998-99 biennium from MHMR lands be expressly available for the purpose of funding future legislative appropriations for MHMR only. No proceeds or interest credited to the Capital Trust Fund for MHMR shall be available for appropriations benefitting any other state agency except as outlined in Subsection 2 below.
2. It is the intent of the Legislature that the Capital Trust Fund not be available or used by any agency for the purpose of paying salaries. In the event of conflict with other appropriation acts, any matching benefit charges for salaries paid from the fund must be treated as a charge against the appropriation for individual projects in order to conserve the integrity of cash received from each land sale.

Sec. 151. **Memberships or Dues for Professional Organizations.** In order to conserve funds appropriated by this Act to agencies and institutions of higher education, the agency head or head of an institution of higher education, or that person's designee, shall review and grant prior approval for any expenditures for recurring memberships or dues to professional organizations. This provision shall not apply to a state library.

Sec. 152. **Limitation on Expenditures for Leased Space.** None of the funds appropriated by this Act may be expended for leased office or building space for operations which are moved into newly constructed, purchased, expanded, or renovated state owned facilities funded from Texas Public Finance Authority Revenue Bonds.

OTHER PROVISIONS (Continued)

of Public Accounts is hereby directed to reduce funds appropriated to each affected agency, by an amount equal to the lease costs that would have been incurred for the remainder of the biennium had the agency remained in leased space, less the costs the agency incurs for moving and the agency's tenant finish-out expenses as defined by the General Services Commission. Required moving and tenant finish-out costs incurred by an agency moving from leased space to state owned space in fiscal year 1997 may be paid from 1998 year appropriations and costs incurred in 1998 may be paid from 1999 year appropriations as necessary to facilitate the move. Furthermore, the Comptroller of Public Accounts is hereby directed to transfer to the General Services Commission from the special funds or accounts, including dedicated General Revenue Fund accounts, of those agencies that move into a state facility funded from Texas Public Finance Authority revenue bond proceeds, each agency's proportional share of the lease payments made for the facility as determined by the General Services Commission. The Comptroller shall reduce the amounts appropriated to the General Services Commission out of the General Revenue Fund for Lease Payments, in the appropriate article of this Act, by an amount equal to the sum of the transfers from the special funds or accounts. The funds so transferred are hereby appropriated to the General Services Commission for the purposes of making lease payments to the Texas Public Finance Authority.

Sec. 154. **Space Occupied by Agencies.** Agencies funded through appropriations made by this Act, other than those in Articles III and IV, but including the Higher Education Coordinating Board, shall make every effort to achieve and maintain a ratio of not more than one-hundred-fifty-three (153) square feet per employee, in conformance with Section 2165.104, Government Code, at each agency site for usable office space as defined by the General Services Commission, in both state-owned and leased buildings, insofar as possible without sacrifice of critical public or client services. For purposes of this provision, sites at which 15 or fewer employees are located may be excluded. This provision shall not be construed so as to require an agency to relocate to another facility or site if such relocation would result in an increased building rental cost. Each agency shall report its progress toward achieving this objective in its annual financial report required by this Act.

This section shall not apply to the Higher Education Coordinating Board until the Board's lease for office space in effect on the effective date of this Act expires or is terminated.

Sec. 155. **High Speed Rail.** As soon as practicable, the Texas High-Speed Rail Authority created by Senate Bill 1190, Acts of the Seventy-first Legislature, Regular Session, or its successor, shall reimburse the General Revenue Fund for the amounts appropriated by Senate Bill 222, Acts of the Seventy-first Legislature, Regular Session.

Sec. 156. **Coordinated Technology Training.** The Legislature instructs all state agencies to maximize the utilization of appropriated funds used for information resource technology training by coordinating their training plans each calendar quarter with the Department of Information Resources if such offerings meet agency requirements and are cost-competitive.

Sec. 157. **Job Notice Posting Waiver.** To the extent permissible by law, any agency affected by legislatively-mandated reorganizations and/or mergers may transfer or reassign an employee without the necessity of posting a job vacancy notice provided that the executive director of the agency certifies that each transfer or reassignment is necessary for the proper implementation of the reorganization and/or merger.

Sec. 158. **Transfer of Master Lease Purchase Program Payments.** The Texas Public Finance Authority is hereby authorized to transfer each agency's share of administrative fees and lease payments pursuant to the Master Lease Purchase Program from each agency's appropriations made elsewhere in this Act to the Texas Public Finance Authority Master Lease Purchase Program cost of issuance funds and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments shall not be made earlier than fifteen (15) days prior to the date that debt service payment is required. The Texas Public Finance Authority may transfer funds necessary for Master Lease Purchase Program debt service payments from the State Lease Fund Account to the Texas Public Finance Authority Master Lease Purchase Program interest and sinking funds.

OTHER PROVISIONS (Continued)

The Comptroller of Public Accounts shall assist the Texas Public Finance Authority in the transfer of lease payments. State agencies participating in the Master Lease Purchase Program shall cooperate in the timely transfer of lease payments to the Texas Public Finance Authority. The absence of specific Master Lease payment appropriations, identified in an agency's capital budget, shall not be construed to release an agency from lease payment obligations.

Sec. 159. Agency's Participation in Master Lease Purchase Program. It is the intent of the Legislature that all agencies participate in the Master Lease Purchase Program to the extent that the Master Lease Purchase Program is the most cost effective type of financing when using a lease-purchase method for acquisition of capital assets.

Sec. 160. Administrative Fee Appropriation. The administrative fees charged by the Comptroller of Public Accounts to cover the costs incurred as a result of administering the state employee organization membership fee deduction under Section 403.0165, Government Code, are to be deposited in the General Revenue Fund.

Sec. 161. Alternative Fuels Finance Payments: Transfer and Appropriation. The Texas Public Finance Authority (TPFA) is hereby authorized to transfer each agency's pro rata share of administrative fees and finance payments pursuant to the alternative fuels finance program from each agency's appropriations made elsewhere in this Act to the TPFA alternative fuels finance program cost of issuance fund(s) and the State Lease Fund Account, respectively. Transfers for administrative fees and lease payments shall not be made earlier than fifteen (15) days prior to the date that debt service payment is required. The TPFA may transfer funds necessary for alternative fuels finance program debt service payments from the State Lease Fund Account to the TPFA alternative fuels finance program interest and sinking fund(s) and is hereby appropriated all necessary amounts from those funds for payment of debt service associated with the program. Any reimbursements or payments received by the TPFA for services rendered under agreement with any political subdivision of the state participating in the alternative fuels finance program are hereby appropriated to the TPFA for debt service payments associated with the program.

Sec. 162. Use of State Facilities for Meetings and Conferences. All state agencies shall make use of state owned facilities for meetings and conferences unless such facilities are not available on the needed date(s) or are not adequate to accommodate the meeting or conference.

Sec. 163. Contracting Requirements. None of the funds appropriated in Article II or Article V of this Act shall be used to contract with or issue a license, certificate or permit to the owner, operator or administrator of a facility if the license, permit or certificate has been revoked by another Article II or Article V agency.

Sec. 164. Identification of Funds for Early Childhood Programs. Each agency receiving funds appropriated by this Act for early childhood programs and any appropriate interagency committee on early childhood programs shall coordinate efforts to identify potential sources of local, state, federal, and private funds and technical assistance to support collaboration and cooperation of local early child care and education programs.

Sec. 165. Interagency Workgroup: Juvenile Crime Intervention. It is the intent of the Legislature that Texas Department of Protective and Regulatory Services convene an interagency work group to maximize the utilization of federal categorical grants that support prevention and early intervention strategies to reduce the incidence of juvenile crime in local communities. The work group shall consist of representatives from the Texas Juvenile Probation Commission, Texas Youth Commission, Texas Department of Housing and Community Affairs, Texas Department of Health, Texas Department of Mental Health and Mental Retardation, Criminal Justice Division of the Governor's Office, Health and Human Services Commission, Attorney General's Office, and the Criminal Justice Policy Council. It is the intent of the Legislature that state supported colleges and universities be utilized to assist in community development, grant writing and evaluation at no cost to local communities.

OTHER PROVISIONS (Continued)

Sec. 166. **Energy Saving Information Technology Equipment.** All state agencies shall consider costs of electrical energy in determining the "best value" for the agency in the procurement of information technology equipment. Those agencies, located in Capitol Complex buildings, whose electrical energy costs are paid by the General Services Commission and who upgrade, during the biennium beginning September 1, 1997, to more modern energy efficient equipment resulting in a continuing energy savings of 75% or more, shall be reimbursed for the calculated savings for the remainder of the biennium by a transfer of funds from appropriations made elsewhere in this Act to the General Services Commission for facilities operation. Amounts transferred pursuant to this section are hereby appropriated to the receiving agency.

Sec. 167. **Review of Agency Rules.** None of the funds appropriated by this Act shall be expended by a state agency for the purpose of developing, promulgating, or adopting rules unless the state agency reviews and considers for re adoption, in accordance with this section, each rule adopted by that agency pursuant to Chapter 2001, Government Code (Administrative Procedure Act). Such reviews shall include, at a minimum, an assessment by the agency as to whether the reason for adopting or re adopting the rule continues to exist. Such reviews shall be conducted in accordance with the Administrative Procedure Act in the same manner as for a proposed rule and shall be conducted no later than four years after a rule becomes final and no later than four years after a rule is re adopted by an agency.

Prior to review of a rule, an agency shall file with the Texas Register a notice of intention to review. The notice of intention shall include the Texas Administrative Code citation to the rule to be reviewed. For the purpose of this section, publication in the Texas Register of the Texas Administrative Code citation to the rule to be reviewed shall satisfy the statutory requirement that the text of the rule be published in the Texas Register.

For a rule which became final prior to September 1, 1997, a review described by this section shall be conducted no later than August 31, 2001.

Each agency subject to this section shall develop a plan to review, in accordance with this section, all rules which became final prior to September 1, 1997 and shall file such plan with the Governor, the Legislative Budget Board and the Secretary of State and cause notice of such plan to be published in the Texas Register no later than August 31, 1998. The Secretary of State shall make the full text of the plan available to the public without charge through an electronic medium.

Sec. 168. **Improve Access to Automated Teller Machines in State Facilities.** It is the intent of the Legislature to implement *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation CG 5, the General Services Commission is hereby directed to survey state agency's needs and requirements for automated teller machine (ATM) services and shall administer and manage the leasing of state common space for ATM usage. This section is a specific exemption to Sec. 110, Vending Machines Authorized, and funds received from ATMs are not appropriated to the agency where the machine resides. The Comptroller's Office is hereby directed to deposit any ATM-related revenue, including leasing fees, into the General Revenue Fund, except for such revenue generated by higher education institutions and the State Preservation Board.

A credit union whose field of membership consists primarily of state employees shall not be prohibited from operating, for the benefit of those employees, an automated teller machine (ATM) in a state office building and, if such a credit union does not impose a user fee or surcharge for the use of the ATM by either members or non-members, the credit union shall not be required to pay a fee to the state for locating the ATM in the state office building.

Sec. 169. **Access to Public Information.** It is the intent of the Legislature to implement *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation CG 15, to improve access to public information. The Records Management Interagency Coordinating Council (RMICC) shall develop a statewide subject-matter index for organizing state information by January 1, 1999. The RMICC shall seek information from all state agencies and institutions of higher education necessary

OTHER PROVISIONS (Continued)

to ensure accurate categorization of programs and phone numbers. State agencies and institutions of higher education shall cooperate in this effort. Further, the General Services Commission (GSC) shall work with telephone companies to reorganize the Blue Pages government listings according to the subject-matter index developed by RMICC, and to include the telephone numbers for state government information. The GSC shall reorganize and expand phone directories it publishes to provide state agencies' phone numbers listed both alphabetically by agency name and by subject-matter, using the index created by RMICC. The GSC shall update the information it places on the Internet as frequently as it provides updated information to its own telephone operators.

Sec. 170. **Electronic Mail Addresses.** It is the intent of the Legislature to implement *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation CG 16, each state agency and institution of higher education shall establish, maintain and publicize an Internet e-mail address to provide citizens with convenient access to state government no later than September 1, 1998.

Sec. 171. **Plan for Efficient Telecommunications in State Offices.** It is the intent of the Legislature to implement the Texas Performance Review report *Disturbing the Peace* recommendation CG 6 that state agencies plan for efficient use of telecommunications technologies. Accordingly, any agency that wires or re-wires state-owned or leased space shall comply with cabling standards promulgated by the Department of Information Resources (DIR). Plans for such wiring projects shall be submitted to the General Services Commission (GSC) for review and approval. The agency may proceed with the project if GSC fails to act within 10 days.

In addition, the Design, Construction and Leasing Division and the Telecommunications Division of the GSC shall work together prior to site location for any new state offices. The GSC shall consider telecommunications costs in selecting site locations and shall negotiate for favorable statewide contracts for cable and installation services.

The General Services Commission shall require co-located agencies to use a common telephone system in each location. The GSC shall develop a five-year plan for co-location. Any office scheduled for co-location that needs a telephone system during the interim shall obtain GSC approval. The GSC shall consider both compatibility with a future common system and the best method of acquisition in light of the planned relocation.

In the event legislation is enacted to implement Texas Performance Review *Disturbing the Peace* GG 6, references in this section to the Telecommunications Division of the General Services Commission shall mean the telecommunications corporation created by that legislation.

Prior to requiring co-located agencies to utilize a common telephone system, the General Services Commission shall conduct a study to determine the potential effect on customer satisfaction and cost effectiveness.

In addition, the General Services Commission shall conduct a customer satisfaction assessment of state agency automated telephone answering systems currently in operation.

Sec. 172. **Supported Employment at State Agencies.** Contingent upon the enactment of legislation implementing the Texas Performance Review report *Disturbing the Peace* recommendation WF 7 that would allow state agencies to use their employees as supported employment providers for supported employment clients working in state agencies, it is the intent of the Legislature that state agencies and institutions of higher education be allowed to offer non-cash incentives to employees who serve as supported employment providers for their co-workers. Such incentives may include, but not be limited to, compensatory time. It is the intent of the Legislature that state employees who serve as supported employment providers for their co-workers would do so within the scope of their usual workday, and not work in excess of 40 hours a week as a result of their supported employment duties.

In recognition of the possibility that state employees might have diminished productivity in their regular jobs if they take on supported employment duties, the Legislature hereby directs that state

OTHER PROVISIONS (Continued)

agencies should be reimbursed for their employees' time out of the funds appropriated for supported employment services, the Texas Department of Mental Health and Mental Retardation, the Texas Rehabilitation Commission, the Texas Commission for the Blind, the Texas Education Agency, and the Texas Planning Council for Developmental Disabilities may reimburse state agencies and institutions of higher education who provide supported employment services to their employees through the use of other employees instead of outside vendors. For any employee who delivers supported employment services to a co-worker, the agencies listed above may reimburse an agency or institution of higher education at an hourly rate equal to that employee's hourly wage, except that such hourly rate may not exceed the hourly rate the agencies listed above would pay a supported employment vendor who is not a state employee.

Sec. 173. Increase Information Sharing to Reduce Fraud. It is the intent of the Legislature that the Health and Human Services Commission, the Texas Workers' Compensation Commission (TWCC), the Texas Department of Insurance, and health-profession licensing agencies implement recommendation FR 12 in *Disturbing the Peace: The Challenge of Change in Texas Government* by developing procedures to share information through database matches and mutual notification of actions against fraud. The TWCC and the Texas Workforce Commission (TWC) shall develop guidelines for information exchanges between the two agencies that would improve each agency's effectiveness through the use of the most current employee information. The Office of the Attorney General, Texas Department of Human Services, TWCC, and TWC shall expand the employee new-hire reporting program to accommodate the requirements of recent federal welfare reform legislation.

Sec. 174. Restriction on Investment of State Funds. Becoming effective September 1, 1998, neither the state nor any entity of state government, including but not limited to the comptroller, any department, commission, board or office of state government, any university system or institution of higher education as defined in Section 61.003 of the Education Code, any public retirement system as defined in Section 802.001 of the Government Code or any state depository board shall use state funds to invest in or purchase securities, including obligations, of a private corporation or other private business entity that owns 10% or more of a corporation or business entity, which records or produces any song, lyrics or other musical work that explicitly describes, glamorizes or advocates:

- (1) act of criminal violence, including murder, assault, assault on police officers, sexual assault, and robbery;
- (2) necrophilia, bestiality, or pedophilia;
- (3) illegal use of controlled substance;
- (4) criminal street gang activity;
- (5) degradation or denigration of females; or
- (6) violence against a particular sex, race, ethnic group, sexual orientation, or religion.

Sec. 175. Paperwork Reduction. It is the intent of the Legislature that each executive branch agency and each institution of higher education expending funds appropriated by this Act reduce, no later than January 1, 1998, the amount of information that it requires to be submitted, whether on paper or through an electronic medium, by its customers. For the purpose of this section, the term "customer" shall include: benefit recipients, clients, licensees, regulated entities, and students.

Sec. 176. Notification of Increase in Appropriations. The Legislative Budget Board shall inform the State Auditor when a state agency or an institution of higher education has received a large increase in appropriations, including a large increase in federal or other money passed through to the agency or institution. The State Auditor shall consider this information in devising an audit plan under Chapter 321, Government Code.

Sec. 177. Study of Payment Methods. The Comptroller shall conduct an in-depth study of the comparative costs and benefits of different standards payment methods, such as the cost reimbursement method and the unit rate method. State agencies shall cooperate with the Comptroller in the study. The Comptroller shall report the results of the study to the Governor and to the presiding officer of each house of the Legislature not later than December 15, 1998.

OTHER PROVISIONS (Continued)

Sec. 178. **Recover Housing Costs.** It is the intent of the Legislature that the General Land Office (GLO) shall implement the Texas Performance Review report *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation CG 18 by contracting for the determination of the fair market rental value of all housing provided to state employees by agencies required to report their housing. The GLO shall provide, to each state agency providing housing to employees, information on the fair market rental values no later than March 1, 1998. The GLO shall also provide the statewide total and agency totals to the Legislative Budget Board, the Governor's Office of Budget and Planning, and the Comptroller of Public Accounts no later than March 1, 1998.

The General Land Office is hereby appropriated \$25,000 out of the General Revenue Fund for fiscal year 1998 to contract for the fair market rental value determination and \$15,000 out of the General Revenue Fund for fiscal year 1999 to pay for the costs associated with continuing to contract for fair market rental value information.

Each agency required to report employee housing to the General Land Office shall recover at least 20 percent of the established fair market rental value of its housing during fiscal year 1999. The recovered funds are hereby appropriated to the agency for its use. The General Land Office shall provide the Comptroller, Legislative Budget Board, and Governor's Office of Budget and Planning with information regarding estimated and projected revenue gains achieved by agencies providing employee housing. The Comptroller shall reduce the general revenue appropriations of all agencies required to report their housing information to the General Land Office by a total of not less than \$2,769,000 for fiscal year 1999 to reflect the additional revenues. In the event that actual revenue gains reported by the GLO are inadequate to achieve the targeted amounts, the Comptroller of Public Accounts shall determine the appropriate additional budget reductions.

Agencies that provide employee housing shall report to the Legislature annually all employees who receive agency housing, the fair market rental value of housing supplied by the agency, and the amount of revenue recovered to meet the mandated goals. All agencies and institutions of higher education not required to report real property information to the General Land Office shall report the estimated impact of similar requirements to the Seventy-sixth Legislature. The Texas Higher Education Coordinating Board shall report the information required of state institutions of higher education.

Sec. 179. **State-Owned Housing.**

- b. No funds shall be expended to construct additional employee housing.
- c. When existing facilities are no longer suitable for employee housing, the agency should determine the feasibility of converting the use of housing or razing the structure before making repairs or updates.
- d. No person shall receive additional compensation in lieu of state-owned housing.

Sec. 180. **Emolument Elimination.** All agencies are authorized to provide free housing and utilities for certain agency employees until September 1, 1998. Notwithstanding the limitations placed on expenditures of funds for the payment of employee moving expenses contained in this Act, those individuals who choose to move from agency housing as a result of this provision are authorized to utilize state-owned equipment and personnel to move household goods. In the event that such equipment is unavailable, the agency is authorized to pay for the services of a commercial transportation company or self-service vehicles in an amount not to exceed \$1,000 per move.

Cleaning and clothing allowances shall not be considered compensation for purposes of retirement contribution determination.

Sec. 182. **Increase Collection of State Receivables.** It is the intent of the Legislature to implement *Disturbing the Peace: The Challenge of Change in Texas Government* recommendation CG-23. The Comptroller of Public Accounts and the Office of the Attorney General shall jointly study the state's receivables and report the results of that study to the Seventy-sixth Legislature no later than January 31, 1999.

In addition to the appropriations made above, the amount of \$442,084 is appropriated in Article I of this Act for payment to the Texas Public Finance Authority for debt service payments on the revenue bonds or other obligations as authorized by this section.

Sec. 187. **State Health Care Purchasing.** Contingent upon the enactment of legislation for the purpose of implementing the recommendations in the Texas Performance Review report *Disturbing the Peace* HHS 30 that authorizes state agencies and certain local health care providers to use more flexible and efficient purchasing methods, appropriations out of the General Revenue Fund to the following agencies are hereby reduced by the amount listed:

Sec. 188. **Year 2000 Conversion.** It is the intent of the Legislature that all state agencies and institutions of higher education adequately address and resolve the technology problems associated with conversion to the Year 2000. It is also the Legislature's intent that any funds appropriated for this purpose be expended exclusively on efforts to resolve the Year 2000 problem. Each state agency and institution of higher education shall be primarily responsible for its own information systems but will coordinate its efforts through the Department of Information Resources. Each state agency and institution of higher education shall cooperate with the Department of Information Resources in all respects concerning the Year 2000 problem, and shall provide to the Department, as often as may be required and in the format required by the Department, any and all information required by the Department pertaining to any aspect of the Year 2000 problem. While most state agencies and institutions of higher education have indicated an ability to address this issue within their current level of funding, several have requested additional funding specifically for this issue. Agencies requesting

additional funds indicated below may be allocated amounts for the purpose of resolving the Year 2000 conversion problem subject to the following provisions:

- (a) The amount appropriated in this rider is sum certain and shall not be exceeded. Out of fund sources indicated below in subsection (d), \$110,916,771 is hereby appropriated for the purpose of resolving the Year 2000 conversion problem.
- (b) The amount appropriated in (a) above shall be deposited into a new agency number created within the Uniform Statewide Accounting System by the Comptroller of Public Accounts for the sole purpose of receiving, controlling, recording and disbursing Year 2000 project expenditures. The Department of Information Resources shall determine and advise the Comptroller of the timing, frequency and amount of funds to be transferred to each agency. The Department of Information Resources shall establish procedures for the approval of use of these funds which shall be distributed to agencies on a cost reimbursement basis only.
- (c) The Comptroller shall establish an accounting process that records the amounts approved by the Department of Information Resources, and subsequently transferred to agencies, at a summary level by object of expense code at the Year 2000 project agency level in USAS. It is the intent of the Legislature that the extraordinary level of expenditures incurred by agencies in resolving the Year 2000 conversion problems not be reflected in the operating budgets and expenditures of each operating agency. The Comptroller's process must address these concerns in order to furnish the Legislature with accurate centralized records of all expenditures reimbursed through the Year 2000 Project agency as well as a report of the amounts and types of expenditures incurred by each operating agency participating in the use of such appropriations. Year-to-year and biennium-to-biennium comparative data for individual agencies should be maintained and reported in a manner designed to exclude the Year 2000 appropriations made herein.
- (d) The amounts listed below are estimates only, and no agency shall be entitled to receipt of any portion of the funds listed below except to the extent each has obtained the necessary approval from the Department of Information Resources.
