

**ANNUAL REPORT**  
September 1, 2004

**RURAL VOLUNTEER FIRE DEPARTMENT INSURANCE PROGRAM  
(HB 3667)**

**I. OVERVIEW**

The Rural Volunteer Fire Department Insurance Program (House Bill 3667) was established in 2001 by the 77<sup>th</sup> Texas Legislature. The program provides funds to rural volunteer fire departments to assist in the purchase of workers' compensation, death, and disability insurance for firefighters. The program is funded through the Rural Volunteer Fire Department Insurance Fund, which is composed of revenue collected from a two-percent tax on the retail sale of fireworks under Tax Code Chapter 161.

The program receives oversight from the HB 3667 Advisory Committee, an appointed body of private citizens. This Committee recommends the annual cost-share rate to be offered based upon actual revenue collected and the forecast enrollment of firefighters.

The program is administered by the Texas Forest Service.

**II. ACTIVITY**

In FY 2004, the Rural Volunteer Fire Department Insurance Fund (Fund 5066) was set at \$816,409.61. The amount was collected during the period 9-1-2002 through 8-31-2003.

The HB 3667 Advisory Committee recommended providing a maximum grant of \$70 per enrolled firefighter. The grant reimbursed fire departments for actual insurance coverage purchased for their members, not to exceed the grant maximum.

The Texas Forest Service conducted an initial open enrollment in October and November, and allowed enrollment to remain open throughout the entirety of the fiscal year.

**III. STATUS**

The following cost-share grants were issued in FY 2004:

<u>Number of Enrolled Fire Departments</u>	<u>Number of Firefighters Covered</u>	<u>Grant Funds Allocated</u>
397	10,626	\$670,849

The attached summary presents the disposition of grant funds in FY 2004. The attached map shows the counties having fire department recipients.

The Texas Forest Service was authorized to spend up to 7% of the fund for administration. However, only 5.6% was actually expended for administration.

#### IV. LEGISLATIVE NEED

The HB 3667 enabling legislation created the Rural Volunteer Fire Department Insurance Fund for the sole purpose of assisting volunteer fire departments through the Rural Volunteer Fire Department Insurance Program. The current General Appropriations Act does not provide specific authority in two critical areas:

- 1) The HB 3667 Advisory Committee has recommended that the Texas Forest Service obtain UB Authority for the program. This will allow unencumbered funds to roll forward at the end of a fiscal year to establish a small reserve. The reserve will be used to stabilize cost-share grants to fire departments from year to year, and will offset fluctuations in revenue generated by the fireworks sales tax. UB Authority is the single highest priority need for the HB 3667 Program.
- 2) The HB 3667 Advisory Committee has also recommended that this program spend only funds collected in the previous fiscal year. This is occurring now, however the Legislative Budget Board and the Office of the State Comptroller have proposed that funds be spent in the year collected. This proposal is a problem because much of the revenue from fireworks sales occurs in July. At that late date, there is not enough time remaining in the fiscal year to collect the tax revenue nor allocate it to volunteer fire departments. Legislation is needed to firmly establish language which says that revenue collected in the Rural Volunteer Fire Department Insurance Fund in year "X" will be spent the following year.

#### V. EFFECTIVENESS

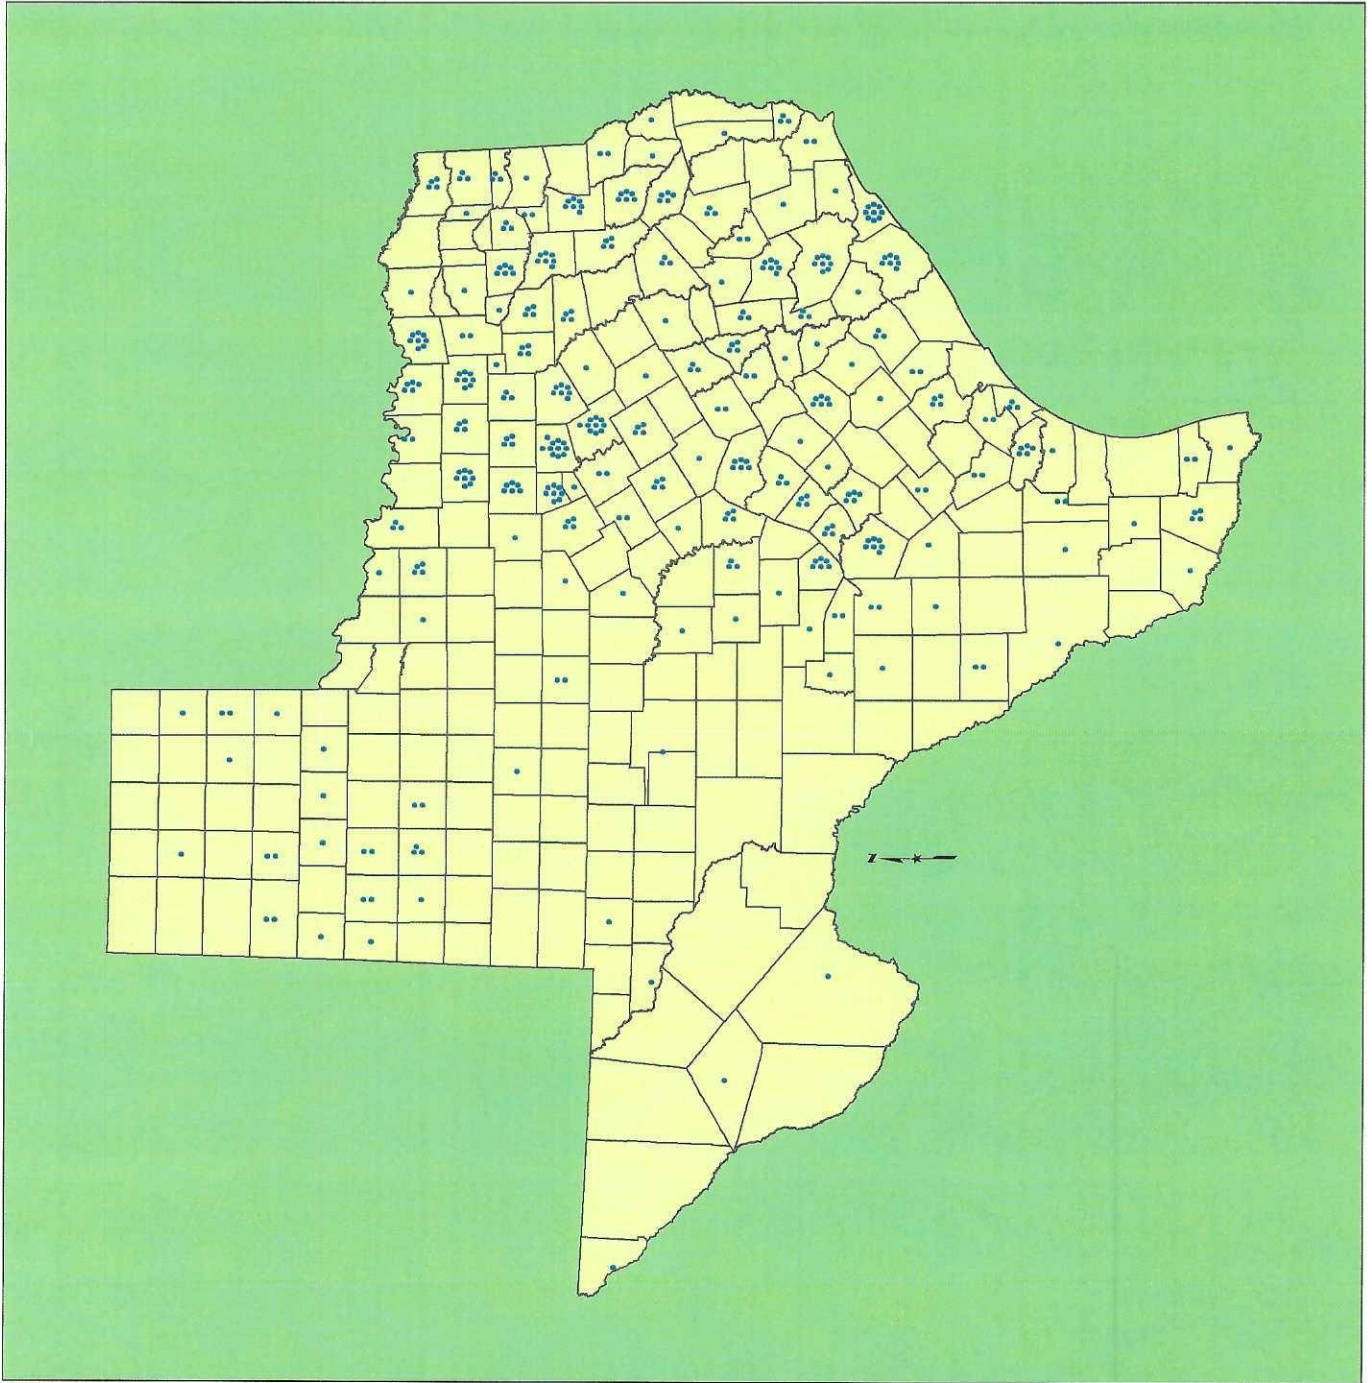

This is a highly effective program. In its first year of operation, grants were issued to cover 7,261 firefighters. In FY 2004, the program assisted with providing insurance coverage for 10,626 firefighters, representing a 32% increase over the previous year.

The Texas Forest Service has also continued to improve the effectiveness of the program by designing an efficient application and award process for volunteer fire department applicants.
