## List of Texas Fuel Mitigation Vendors

This list of fuel mitigation vendors that offer services in Texas is divided into two groups:

- Mechanical site preparation
- Prescribed burning

These listings do not imply an endorsement of any particular firm by the Texas A&M Forest Service. It is provided as a service to communities and landowners seeking assistance with fuel mitigation practices on their land. Community leaders and landowners should satisfy themselves as to the ability of a firm to meet their needs.

**The Texas A&M Forest Service in no way certifies that vendors listed here meet all legal requirements.** It is imperative that you as a landowner require proof of insurance (workers comp, liability, etc.), proof of DOL registration as a farm labor contractor if required.

If you are a vendor and would like to have your business included on this list, or are already listed and would like to update your information, please contact *Shane Harrington* at 979-458-6650 or [sharrington@tfs.tamu.edu](mailto:sharrington@tfs.tamu.edu).
